Mini DisplayPort® to DVI Video Adapter Converter - Black Mini DP to DVI - 1920x1200

StarTech ID: MDP2DVI3

The MDP2DVI3 Mini DisplayPort® to DVI Adapter lets you connect your Mini DisplayPort video source (desktop PC, laptop, etc.) to a DVI monitor, projector, or display, eliminating the expense of having to upgrade to a Mini DisplayPort-capable monitor.

Compatible with Intel® Thunderbolt™, when connected directly to a supporting DisplayPort over Thunderbolt™ I/O port, the adapter supports display or projector resolutions up to 1920x1200 (WUXGA) and is compliant with HDCP standards.

MDP2DVI3 is a passive adapter that requires a DP++ port (DisplayPort++), meaning that DVI and HDMI® signals can also be passed through the port.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Applications

- Connect your existing DVI monitor to Mini DisplayPort output device
- Ideal for using your DVI monitor as a secondary display
