

# V7 7PORT USB 2.0 HUB

The V7 7PORT USB 2.0 HUB provides seven USB 2.0 ports that are backward compatible with USB 1.0 and 1.1 devices allowing you to connect all your existing USB peripherals while easily integrating with your existing network at home or in the office. The hub works with all types of USB compliant devices including digital cameras, video cameras, scanners, joysticks, and more. With Plug-and-Play, hot swapping features, the hub allows attaching and removing of USB devices without reconfiguring settings or turning the computer system off. The high speed hub allows multiple high-performance USB 2.0 peripherals to connect to the PC for effective and efficient productivity.
