

## 2 Port USB KM Switch - USB Keyboard and Mouse Switch with File Transfer

StarTech ID: SVKMS

The SVKMS 2-Port USB KM Switch (Keyboard/Mouse) Sharing Cable with File Transfer enables you to control two computer systems using a single keyboard and mouse set, and offers the ability to transfer files between the connected systems.

Offering automated installation (no additional software or drivers required), this compact keyboard/mouse switch connects your systems using a standard USB 2.0 port to make switching between systems as simple as moving the mouse over to your second display, or using hot-keys.

This simple KM link cable also provides the added benefits of clipboard sharing so you can copy and paste text from one system to another, and drag and drop files for effortless transfers and data management.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

### Applications

- Perfect for office applications where multiple computers need to be controlled by a single user and desk space is limited
- Great for PC repair or tech bench environments, allowing you to control and monitor two systems simultaneously
- A convenient solution for the business user needing to transfer files between their desktop and laptop systems

## Features

- Keyboard and mouse sharing between 2 computers
- Simple switching between systems via mouse movement, hot-keys or hot-click area
- Drag and drop file transfer
- Copy and paste text between systems
- Plug-and-Play, no software/driver CD required

## Technical Specifications
