## Enhance your view, advance your connectivity

Bring your content to life with Full-HD resolution.<sup>1</sup> Get vibrant text and graphics from the LED backlit panel, which also makes the monitor thin, light, and easy to position on a desk.

Deliver clear views with wide viewing angles, and keep your content crisp and readable with high contrast ratios and fast response times.<sup>2</sup>

Easily connect devices with convenient VGA, DVI, and DisplayPort inputs and an integrated USB hub.

Work on a document in one partition, refer to a spreadsheet in another, and check e-mails in another—at the same time with HP Display Assistant. Customize your work space with resizable screen partitions through an easy-to-use, centralized interface.

Use HP Display Assistant's new expanded toolbar to view open applications on all of your connected displays. Deter theft with a user-designated PIN that deactivates the monitor if it's disconnected from a PC without approval.

Find your most comfortable working position so you can power through your day. Customizable tilt, height adjustment, swivel, and pivot settings—the most adjustability available on an HP business display—help you find your sweet spot.
