

IE 6 Headphones

The new **IE 6** from Sennheiser represents the fusion of time-honored performance and cutting edge flair.

Using a cushy seal to block out competing environmental noise, the in-ear fit of the IE 6 allows you to listen at a safer volume level without missing the details of your music.

Their compact, dynamic drivers feature neodymium magnets for ultra efficient and extremely durable performance- even at lower gain stages. This means that they travel well, fit comfortably and reproduce bass with minimal over modulation.

Features

- Covert, in-ear speakers deliver dynamic, punchy music
- Noise isolating design eliminates noise competition by blocking out noise pollution
- Efficient, dynamic drivers provide impressive bass performance, durability & MP3 player/body-pack battery life
- Included ear adapters guarantee a custom, comfortable fit
- Includes a debris-removal tool
- Earphones and accessories fit into single, magazine-style hard-shell travel case
- 2 Year warranty
