CyberTrack H1 High Definition Desktop Webcam

Adesso's CyberTrack H1 High Definition Desktop Webcam features 720p HD Video Resolution that allows you to record and share colorful HD quality video with fine detail. This webcam offers you broad Instant Messenger compatibility, so you can enjoy video conferencing with today's most popular Instant Messenger applications. The webcam design includes an integrated wide-angle microphone that ensures your voice is heard loud and clear every time—it's like being in the same room with the other person! In addition to all these great features, your CyberTrack V10 includes Webcam Companion 4 software that lets you work like a social media professional, take snapshots, create 3D videos, edit videos, add frames to images and instantly share on popular social media sites with the click of a button.

720p High Definition Video Resolution

Instant Messenger Compatibility

1.3 Megapixels (CMOS Sensor)

■ 720p High Definition Video Resolution

The CyberTrack H1 lets your audience feel like they are in the room with you with 720p High Definition video resolution.

■ 1.3 Megapixels CMOS Sensor with up to 20MP Image Resolution

This webcam features a true 1.3 MP CMOS image sensor that provides crisp, colorful and clear HD quality video and snapshot images, at a maximum resolution of 20 MP.

■ Built-In Microphone

The built-in microphone provides you with remarkable clarity, to ensure every conversation is heard without the hassle of a headset.

■ Image & Video Editing Software

Use the included ArcSoft® WebCam Companion 4 software to enhance your CyberTrack V10 features. This software lets you create 3D videos, take snapshots, add frames to images, create masques, and much more!
