

Simple, eco-friendly business printing

- Optimize your output with Duplex Printing
- Improve work standard with Eco Friendly printing
- Enhance workflows with Fast Speed printing
- Unleash your work with wireless printing
- Low noise operation will reduce office distractions

Maximise your business operation with a modern printing operation that embraces not only the latest technology but also greener practices. Featuring Duplex Printing, fast Speed printing and wireless technology, the ML-2955DW Series printer will cut down on wasted time, while making efficient use of time and company resource. This is great in pushing work performance while also minimising impact on the environment. Welcome to the future of printing.

Get more from every page with Duplex printing

Double your print output. Or, halve your paper costs. Either way you look at it; there is no denying that Duplex printing is an essential feature for both business and personal printing. It provides loads of cool and creative ways to fulfill print jobs, from single-sided formats to double-sided booklet formats, and really delivers a professional look and feel every time. The double-sided printing capabilities will reduce costs and ensure that your paper supplies last longer. This then helps reduce waste, and minimises your impact on the environment.

Being eco-friendly just got easier

Make hitting your environmental goals a whole lot easier with Samsung's new Eco Mode, which also includes a Results Simulator to check how well you are doing. The Eco Mode features a one touch Eco Button, which conveniently serves as your default setting once activated, and reduces paper consumption with Duplex printing, 2 or 4-up printing and a Toner Save setting. Thanks to the Results Simulator, you can really appreciate how much good work you are doing. The simulation shows levels of carbon dioxide emissions, electricity and paper usage. The Eco Mode is an easy and effective way of keeping track of your printer consumption – which is better for you and the planet!

Work better with Fast Speed printing performance

Print documents (small or large) quickly thanks to Samsung's Fast Speed printing, which is made possible with the 533MHz CPU and 64MB memory. These high specs make this printer perfect for getting important work documents printed with high quality and zero fuss. A reliable and superior printer like this will quickly become a must-have business tool - you'll wonder how your business ever functioned without one.

No strings attached

Turn your computer loose with wireless printing. There are no more cables tripping you up and no need to plug and unplug machines to identify the right printer. Better yet, a wireless printer can be shared by many computers, saving you money on hardware and energy costs. Break free from the restraints of cables and say goodbye to cable clutter with the ML-2955DW wireless mono laser printer.

A top printer that's low on noise

From a company that knows its business, the new Samsung Streamline work with easy-to-use printers printer can work flat out at less than 50 decibels. With a standby volume of 30dBA, it signals an end to colleagues having to scream to be heard, even before their printing has begun.

Ideal for small, stylish spaces and busy places

Finally, your desk can look stylish because of your printer, not in spite of it. The Samsung ML-2955DW laser printer has an elegant exterior design, sure to fit in with any workspace. Its top cover looks chic and polished while offering dust-free protection. Spiff up your space with a desktop accessory that actually helps you work better.

Capture what catches your eye

Samsung's AnyWeb Print software lets you go hunting and gathering on the Web. You can utilise the ML-2955DW to easily select, drag and drop content from different web pages onto a printable scrap board in your browser window, all while you surf. It's the easy way to collect, arrange and edit those useful reference points and resources you can only find on the Internet for that big project or just for fun.

MobilePrint

Get more from your mobile devices with the Samsung MobilePrint feature, where wireless printing, scanning and file transfers let you do more on the go.

Universal Print Driver

Save time and money with Samsung's Universal Print Driver. One print driver, which handles all of your Samsung printers, eliminates unnecessary installations and integrates your print operation.

Easy Printer Manager

Run a smooth print operation with Samsung's Easy Print Manager. Every detail, from toner levels and job accounting to device settings

and online ordering, is channeled into one easy-to-use programme.
