7 Don't Type...Swype®!

ViewPad 10e includes Swype, the most popular virtual keyboard for touch screen tablets and mobile devices. Swype offers a friendlier alternative to old-fashioned "tap and type" keyboards, making your input faster and more accurate. Just Swype your finger from one letter to the next. It's the most efficient and most fun way to type on a touch screen tablet. You'll never go back to tapping again!
