

LifeBook T2010 Tablet PC

Weighing a mere 3.52 pounds yet boasting a 12.1 inch display, the ultra-thin, ultra-light Fujitsu LifeBook T2010 Tablet PC is an ideal notebook and tablet PC for those on the go. You no longer have to sacrifice a large display to save weight. At home, in the boardroom as well as the classroom, it quickly converts from notebook to tablet by simply twisting the display at its bi-directional swivel hinge. With a high-capacity battery life of up to 11 hours, this no-nonsense tablet PC works as hard as you do. Stay connected virtually anywhere with the available integrated high-speed wireless Broadband (WWAN) model.

BENEFITS

Product Versatility

The LifeBook T2010 Tablet PC is not only perfect for project-based users who require the power of inking or easy pen-driven navigation, but also for mobile professionals who must have a keyboard as well. Taking advantage of the bi-directional swivel hinge, you can easily transform this ultra-thin notebook into a tablet configuration by rotating (in either direction) and folding the screen. Collect data efficiently and accurately using the stylus to make handwritten notes and drawings with digital ink. To enter data using the keyboard, tilt up and rotate the screen (follow the arrow indicator) to a notebook configuration. The stylus and active digitizer continue to work in the notebook configuration.

Mobile Productivity

The 12.1" wide XGA TFT indoor/outdoor display with active digitizer perfectly fits your business or scholastic needs. With Intel® Centrino® Duo Mobile Technology, power-saving features and the enhanced functionality of Genuine Windows XP Tablet PC Edition or Windows Vista® Business, the LifeBook T2010 Tablet PC delivers mobility, convenience, and increased productivity. While on the go, use the stylus to easily navigate forms-based or menu-driven applications. Use the powerful inking capabilities to take notes or capture a signature, then easily convert your handwritten notes into text. When you return to your home base, use the keyboard in standard notebook mode to incorporate your notes into a business proposal or easily read classroom notes.

Boundless Connectivity

You can connect to your office or campus network, or the Internet with: a modem, Gigabit Ethernet, the latest Intel Wireless WiFi Link 4965AGN (802.11.a/b/g/draft-n) for lightning fast Internet connectivity.

Or you can use the optional Atheros Super AG® wireless LAN which provides up to 5X throughput improvement over the traditional 802.11b connection. The LifeBook T2010 Tablet PC comes equipped with diversity antennas mounted in the display panel to achieve high data transfer rates and strong connection reliability. With the available integrated wireless high-speed Broadband (WWAN) model, you can stay connected virtually anywhere to access your e-mail and office network with ease. If you use a Bluetooth-enabled cellular phone or PDA, your LifeBook T2010 Tablet PC can be equipped with integrated Bluetooth (version 2.0) wireless technology for data synchronization and swapping images.

Maximum Usability

The LifeBook T2010 Tablet PC was designed for highly mobile professionals or students who want a very light, ultra-thin, computer yet have the convenience of a 12.1" wide XGA display. The optional enhanced indoor/outdoor display is ideal for users who also need productivity in an outdoor environment. Use it in notebook mode or in tablet mode, as your needs dictate. Its wide array of ports allows you to connect a plethora of peripherals directly to your computer. All of this functionality comes in a tablet PC that weighs as little as 3.52 lbs. The optional high-capacity battery provides all-day computing to ensure you get your work done uninterrupted.

Uncompromised Security

The LifeBook T2010 notebook provides extensive security features. These features include: an integrated fingerprint sensor, a security panel, TPM, a dedicated Smart Card slot, BIOS and HDD password protection, and embedded BIOS support for Computrace theft-protection software. These features easily protect corporate data on the local hard drive and on the network.

OVERVIEW

- Ultra light weight with convertible design for notebook or tablet use
- Industry-leading reliability with magnesium-alloy housing, shock sensor hard drive and spill resistance keyboard
- Brilliant 12.1" WXGA indoor or indoor/outdoor display with active digitizer
- Productivity anywhere with integrated Wi-Fi®, Bluetooth®, and optional wireless broadband
- Available docking station with built-in optical drive
- Comprehensive security features make it flexible enough to fit into any corporate environment – regardless of what security policies your corporation may have

- 1) Preinstalled with a free 90-day trial version of Symantec Norton Internet Security 2008. The 90-day trial version is activated upon user's acceptance of software license agreement. After 90 days, the user must purchase a subscription from Symantec to download latest virus definitions.
- 2) One gigabyte (GB) – one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting.
- 3) The internal modems on all Fujitsu mobile computers from Fujitsu Computer Systems Corporation are only qualified for use with telephone systems in selected countries, including the United States and Canada. For a list of certified countries, please check <http://www.computers.us.fujitsu.com/modems>.
- 4) Actual speeds over U.S. telephone lines vary, and are less than 56 Kbps due to the current FCC regulations and line conditions.
- 5) Battery life estimates reflect the results of BAPCo MobileMark2005 Productivity Workloads performed upon systems with battery life setting enabled on Windows® XP operating systems. Actual battery life will vary based on screen brightness, applications used, features selected, power management settings, battery conditioning, and other customer preferences. DVD/CD-RW, DVD Writer, LAN, wireless LAN, wireless WAN, or hard drive usage may also have a significant impact on battery life.
- 6) Service and warranty turnaround time may vary by country and product. The International warranty is only valid for products purchased in North, Central, and South America.
- 7) Wireless service is not included with notebook/tablet PC. Activation, credit approval, and 2-year minimum commitment required. Monthly service fee, taxes, surcharges are extra. Actual connectivity is subject to wireless service provider's coverage area and may be affected by equipment, topography, signal strength, environmental considerations, and other factors. Service may vary significantly within buildings. Coverage not available everywhere—see wireless carrier's coverage map for details. Terms and Conditions and additional restrictions apply.

Resolution	Maximum internal display resolution: 1280 x 800, 16M colors; external monitor resolution: 1600x1200, 16M colors; simultaneous display resolution: 1280 x 800						
Digitizer	Electromagnetic (Active)						
Hard Drive²	160 GB, 120 GB, 80 GB 5400 rpm; Serial-ATA 150; shock-mounted; two-level password protection; Shock Sensor Utility locks the hard drive when detecting sudden impact, freefall, or vibration (may have to install this application separately). SSD 32GB also available						
Optical Drive	NA						
Audio	Realtek ALC262 AC'97-compliant codec with 20-bit audio; built-in dual array digital microphones						
Communication	Multinational 56K ³ V.90 ⁴ modem and 10/100/1000 Gigabit Ethernet LAN						
Wireless Communication	Intel® Wireless WiFi Link 4965AGN (802.11a/b/g/draft-n) or Atheros Super AG® Wireless LAN (802.11a/b/g); Wi-Fi® certified; dual diversity antennas. Optional Bluetooth (v2.0) Personal Area Network (PAN) for file transfer and data synchronization with other Bluetooth devices						
Wireless Broadband	Optional; AT&T wireless Broadband Connect (3G, HSUPA) ⁷						
User Interface	84-key spill-resistant keyboard, 19 mm key pitch, 3 mm key stroke; point stick with left and right mouse click						
Ports	Two USB 2.0, IEEE 1394, External monitor/VGA, modem (RJ-11) on select models, Gigabit Ethernet (RJ-45), docking connector, headphone/line-out jack, and microphone/line-in jack						
Card Slots	One Type I/II PCMCIA slot, 32-bit PC CardBus architecture One Smart Card slot; One shared slot for Memory Stick®, Memory Stick PRO™, or Secure Digital (SD) card						
Security	LifeBook Application/Security panel AuthenTec Fingerprint Sensor with TruePrint Technology; 15cm/sec slide speed Trusted Platform Module (TPM), TCG 1.2-compliant Dedicated Smart Card slot Hard drive and BIOS passwords BIOS support for Computrace/LoJack theft recovery system (Service required) Security lock slot						
Docking Station	Optional; 4x USB 2.0, Ethernet, VGA, DVI, line-out, DC, power/suspend/resume button, docking lock slot, system and docking combo lock slot; Optional DVD/CD-RW combo drive or dual-layer multi-format DVD writer (fixed bay)						
Battery⁵	Main Lithium ion 6-cell battery (10.8V, 5800 mAh, 62.6 WHr), rated up to 9 hours Optional high-capacity Lithium ion 9-cell battery (10.8V, 8700 mAh, 93.9 WHr), rated up to 11 hours						
AC Adapter	Autosensing 100-240V AC, 60Wh, supplying 16V DC, 3.75A						
Dimensions/Weight	11.7" x 8.7" x 1.36"; approx. 3.52 lbs. with 6-cell battery; Additional 0.32 lbs. with 9-cell battery; Wireless Broadband model: 12.2" x 8.7" x 1.36"; approx. 3.67 lbs. with 6-cell battery						
Operating Temperature	41°F to 95°F/5°C to 35°C (ambient temperature); 20% to 85% relative humidity, non-condensing						
Non-Operating Temperature	5°F to 140°F/-15°C to 60°C, 8% to 85% relative humidity, non-condensing						
Key Accessories	For a full list of accessories, visit www.shopfujitsu.com or call 1-800-FUJITSU						

Compliance and Service Information

Compliance	FCC Part 15B Class B, and FCC Part 15C, and FCC Part 15E; IC ICES-003 Class B and RSS-210 UL-cUL Listed FCC Part 68; IC CS-03 CE Marking (Not supported when configured with the WLAN module)
Warranty⁶	One or three-year International Limited Warranty on select corporate configurations; 24/7 technical support; Fujitsu extended service plans available.
