

Amazingly light. Incredibly strong

- Duralumin, The New Definition of Lightweight
- See vivid SuperBright Plus content wherever you go
- Less Energy. More Speed.
- Slim Intel® Processor packs power that lasts

Get the right look with Samsung Notebook 900X3A, which is simply oozing with sophistication. Its stunning slim design with flowing curves features the premium and specialised Duralumin, which is the same material used to build aircrafts and twice as strong as aluminium. Within this slim and lightweight design is a huge mobile performance. The SuperBright Plus LED screen delivers 16 million colours and a market-leading 400nit brightness viewing experience that is 100% brighter than a normal 33.02cm (13) notebook. Use your Series 9 in day or at night with a beautiful backlit keyboard. Adding to the outstanding performance and the improved Solid-State Drive, Samsung Notebook 900X3A is definitely the one to watch.

Duralumin, The New Definition of Lightweight.

Samsung Notebook 900X3A utilises the lightweight yet strong material Duralumin to create a slim and aerodynamic design. Used in the building of military aircrafts and other highly-specialised equipment, Duralumin offer twice the strength of aluminium despite being light in weight. This allows for a design that is like no other, with premium finishes and a lightweight arching curved design that is beautiful from every angle. Other stylish features include a backlit keyboard that is always easy to see regardless of the environment. It's a minimalist look that is both simple and sophisticated.

See vivid SuperBright Plus content wherever you go

If you live for the latest HD movies and games, then Samsung's SuperBright Plus screens, with 400nit brightness, will transform your mobile experience. With 16 million colours and the vivid SuperBright Plus clarity, Samsung Notebook 900X3A is 100% brighter than the standard 33.02cm (1.3) notebook display. You can enjoy HD movies, games, and other favourite multimedia even when viewing in direct sunlight, and there are no more annoying reflections that tire your eyes. From high-energy, action-packed sequences to angelic scenes that enrich the soul, the true-to-life picture quality with Super Contrast ratio (1,300:1) will blow your mind. With such powerful mobile performance, your home entertainment system is now able to join you on your travels...brilliant!

Less Energy. More Speed.

A 128/256GB solid state drive (SSD) provides plenty of storage, and with no moving parts it boots 60% faster than a hard disk drive (HDD). Additionally, SSD reduces energy consumption by a remarkable 86%, therefore significantly lowering operating and maintenance costs. With Eco-innovative SSD, Samsung doesn't compromise performance, which is why they are the leader in green memory technology.

Slim Intel® Processor packs power that lasts

The Intel® CPU, which boosts performance to handle more demanding tasks with its 8GB memory, stands out with intelligent processing while on the go. The slim and stylish design packs in loads of power with a 30% improvement and features the Intel® HD Graphics 3,000 for a brilliant visual experience - with twice the graphics performance of the previous generation. The Intel Silicon battery also provides 500mW of power savings for longer life, ensuring a powerful and mobile performance.

Superior touch controls...hands down!

Samsung's new large multi-touch clickpad is stylish and convenient. Featuring a new glass coating and image sensor, users can enjoy enhanced multi-touch awareness and better palm rejection. This means no more cursors disappearing or frustratingly jumping place. The new intelligent multi-touch gesture pad, which is now centered for usability, also features 21 types of gesture support (such as pinch, swipe, and rotate) with advanced 3D image sensing for sophisticated and intuitive navigation.

Premium connectivity with Bluetooth 3.0 High Speed.

Enjoy wireless transfer of media and other data between your electronic devices—audio, video, print data and more, with an upgraded Bluetooth 3.0 High Speed delivering higher data transmission speeds (24Mbps), 8x faster than Bluetooth 2.1 (3Mbps) and enhanced power control for extended battery life.

Work faster with Fast Start technology

Make the most of every moment with Samsung's Fast Start technology. A 15 second* boot-up, which is 60% faster than HDD models, and an impressive 3 second Fast Start from sleep mode ensures that you're ready to go in minimal time. And while in the advanced sleep mode, you can rest assured knowing that your content is safe and secure with the Auto Data saving function. Furthermore, once your Samsung Notebook 900X3A is up and running, you will also benefit from quick internet browsing – it's almost too good to be true.

*Microsoft Velocity Test Suite result

Experience more with longer battery life and life span.

Samsung Notebook 900X3A from Samsung delivers perfect mobility and freedom with its power efficient performance and extensive battery life of up to 7 hours** —plenty of time to get things accomplished or to be entertained without the added stress of worrying about how much battery life is left. Its advanced Lithium-Polymer battery and Samsung's innovative charging technology also make the battery lifespan last up to three times longer than a typical notebook battery, so you can keep on going – anywhere.

** Battery life based on Battery Mark test scores that will vary based on configuration.

Phone Share

Merge your PC and Smartphone functions for great results. Access the internet on your PC using your Smartphone's 3G network, when Wi-Fi is unavailable, and/or enjoy free Wi-Fi using your PC as an Access Point. Enjoy the extra freedom!

Auto Display Brightness Control

Enjoy a perfect viewing experience every time. Samsung's Auto Display Brightness Control smoothly adjusts the screen brightness for optimised viewing that matches the environment. So, if it gets darker, so does the screen. It's intelligent viewing.

Always On

Find and connect to Wi-Fi in blazing speeds with Samsung's Always On feature. Automatically detecting, listing and connecting to available Wi-Fi signals, going online is now easier and faster than ever before.

Enhanced Acoustic Chamber

With SRS Premium Sound™, you have a wider 'sweet spot' that delivers natural and realistic 3D sound for music, movies and games. It provides enhanced bass, crystal clear dialog and better definition control for maximum clarity at high frequency.
