

HP Folio¹³ The Ultrabook™ for Business

Get the best of both worlds with the HP Folio¹³ that combines the good looks that consumers want with the business features that professionals need, including up to 9 hours of battery life¹.

HP recommends Windows® 7.

Best-in-class battery life

The HP Folio¹³ presents a sleek notebook with best-in-class battery life of up to 9 hours.¹ The 6-cell Li-Ion (59Whr) battery allows this notebook to stay powered for a full day's work.

Thin and light for mobile professionals

Boasting an eye-catching design at an amazing 0.70-inch (18 mm) thin and a starting weight of only 3.3 lb (1.50 kg), professionals will easily carry this notebook to meetings and on business trips. Work in dark planes and other low-light environments using the 13.3-inch diagonal HD,² BrightView display and the backlit keyboard.

An Ultrabook™ truly built for business

Handle demanding business projects, thanks to the 2nd Generation Intel® Core™ i5 dual-core processor³ and a 128 GB⁹ SSD. With Intel® Rapid Start Technology, your notebook automatically stores your most frequently used files and applications on a compact solid state drive so you can access them fast. Plus, the Windows® 7 Pro⁴ (64-bit) operating system is pre-installed on the HP Folio¹³.

Built to protect

Security risks often increase with extensive travel. The HP Folio¹³ addresses this with a TPM Embedded Security Chip configuration and ownership capability. The result? The data on your PC is protected.

Built to last

A limited 1-year standard commercial warranty is available on the HP Folio¹³ or opt for the 3-year protection with optional Care Packs.^{5,6}

Connect to colleagues, accessories and the web

Whether you're conferencing colleagues on the HP TrueVision HD² webcam,⁸ listening to music or watching a video, you gain great sound with Dolby Advanced Audio™ v2.

Loaded with USB ports, an HDMI port, and a media card reader, you can share files and connect to HD² displays without trading the laptop's thin and light design. Stay connected to the web even if you're unable to connect via WLAN⁷ with the RJ-45 port that allows you to plug into the Ethernet.

SPECIFICATIONS

Operating system	Preinstalled: Genuine Windows® 7 Professional ⁴ 64
Processor	2nd Generation Intel® Core™ i5 Mobile Processor ³
Chipset	Mobile Intel® HM65 Express Chipset
Memory	DDR3 SDRAM, 1333 MHz (1600 MHz downgrade to 1333 MHz) One slot supporting up to 8 <u>4</u> GB
Internal Storage⁹	128 GB mSATA SSD
Display	13.3-inch diagonal LED-backlit HD2 (1366 x 768) BrightView
Graphics	Intel® HD ² Graphics 3000

1. Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See MobileMark07 battery benchmark [www.bapco.com /products/mobilemark2007](http://www.bapco.com/products/mobilemark2007) for additional details.
2. HD content required to view HD images.
3. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
4. Not all features are available in all editions of Windows 7. This system may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details.
5. Service levels and response times for HP Care Packs may vary depending on your geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit www.hp.com/go/lookuptool.
6. Sold separately or as an optional feature.
7. Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited.
8. Internet access required.
9. For hard drives and solid state drives (SSDs), GB = 1 billion bytes. Actual formatted capacity is less. Up to 30GB of SSD is reserved for system recovery software.
