

## Eee PC 1215BT Ultrabook

SKU # : 1215BT-BU17-BK

### 12.1" Ultra-Portable Featuring an AMD Accelerated Processing Unit

The Eee PC™ 1215BT packs plenty of power into a portable form factor, proving the adage that “Good things come in small packages.” The ultrabook’s AMD® processor features Accelerated Processing Unit architecture that integrates embedded discrete graphics with the processor for better processing power, a better graphics performance and lower power consumption, delivering up to 8 hours\* of uninterrupted computing. Users can project PC content onto a compatible external display via the HDMI port and experience faster wireless data transfer with Bluetooth 3.0. The ultrabook also is equipped with a wealth of security features for easy management of corporate networks and added protection against PC theft.

#### Energy/Environment Standards

EPA Energy Star Compliant	Yes
EPEAT Compliant	No
EPEAT Level	N/A

### Product Highlights

#### Accelerated Processing Unit

The 1215BT’s AMD processor features Accelerated Processing Unit architecture which integrates discrete graphics with the dual-core processor to deliver a combination of processing and graphics power in a portable form factor. Users can seamlessly multitask with the dual core AMD processor. From Internet browsing to watching HD videos and viewing Powerpoint, the Accelerated Processing Unit enables a visually richer and more responsive experience. ASUS Super Hybrid Engine and the APU consume less power and help deliver an up to 8 hours of battery life\* so users can work without worrying about recharging.

#### Multimedia

The ultrabook features a 12.1" LED-backlit display and an up to 1366 x 768 display resolution so that users can enjoy immersive and rich visuals. DirectX® 11 support delivers smooth 3D animation, and more lifelike and nuanced graphics. For a larger workspace or to share presentations with others, users can project PC content onto an external display for Full1080p HD visuals and up to 8 channel sound via the ultrabook’s HDMI connection.

#### User Comfort

At a mere 3.21 lbs with battery, the Eee PC 1215BT is an ideal PC companion that won’t weigh down on-the-go professionals and students. Users will not sacrifice comfort for portability with the ultrabook’s full-size Chiclet keyboard and can easily zoom in and out to view photos or read documents with its roomy touchpad. The keyboard comes with a Palm Proof function to distinguish between palm and finger contact surfaces for more accurate typing.

#### Enhanced Efficiency and Security

1215BT comes with features that let users browse the web and transfer data quickly as well as manage company networks more easily. 802.11b/g/n supports faster browsing speeds and higher throughput than previous generations, while Bluetooth 3.0 provides a faster solution for wirelessly transferring data. With organizations deploying numerous PCs, the ultrabook’s Wake-on-LAN, allows IT personnel to remotely power on computers and perform scheduled maintenance tasks, saving time and reducing energy costs. Computrace® support safeguards valuable data by locating stolen PCs and locking and remotely deleting data in the event a user’s notebook is stolen. The included Kensington security lock lets professionals protect their ultrabooks against theft.

#### Clean Windows 7 Professional

1215BT features a clean Windows 7 Professional OS, without excess bloat ware. Users don’t have to deal with unwanted additional software and can get up and running more quickly with faster boot ups. Windows 7 Professional enhances productivity and data security, and users can perform routine tasks with just a couple of clicks. Automatic backups to the home and business network help provide business users with peace of mind that their critical data is protected.

### Segment Focus

**Education:** Weighing only 3.21 lbs with battery, the thin and light 1215BT slides into students’ backpacks and can easily be transported around campus or the classroom. Equipped with an AMD Accelerated Processing Unit, students can multitask with ease as well as enjoy a rich visual experience when browsing the Internet, watching HD videos or viewing PowerPoint presentations. DirectX® 11 delivers more realistic graphics for in dorm entertainment. The Accelerated Processing Unit combined with ASUS Super Hybrid Engine technology help deliver up to 8 hours\* of uninterrupted computing, so students can study and work for hours on end without being dependent on power cords. With the HDMI port, students can expand their workspace and teachers can output learning tools to share with the classroom. Students can also stay productive on-the-go with the ultrabook’s high speed wireless 802.11b/g/n and quickly transfer data via Bluetooth 3.0.

**Business:** The ultrabook’s size, long battery life, and its advanced connectivity and security options make the 1215BT the ideal PC companion of mobile professionals. Despite its portable form factor, the ultrabook awards users with a 12.1" ample screen real estate and an ergonomic full-sized Chiclet keyboard with a roomy touchpad for enhanced user comfort. With the ultrabook’s Accelerated Processing Unit, professionals can multitask with ease and enjoy faster web browsing and richer visuals. The processor also helps deliver up to 8 hours\* of computing on a single charge, so professionals can work from anywhere without worrying about power cords. Managing and regulating the company’s PCs are a breeze with the 1215BT’s Wake-on-LAN, Computrace technology and Kensington security lock. Distances are bridged with the 0.3 Megapixel built-in webcam with a security lens, which supports video conferencing and simultaneously protects users’ privacy.

### Warranties and Services
