

Lenovo® recommends Windows® 7 Professional.

lenovo® **FOR**
THOSE
WHO DO.

THE LENOVO® IDEAPAD® U400 NOTEBOOK THE PERFECT DESIGNER NOTEBOOK.

The IdeaPad U400 notebook exudes quality; from the cool-touch palmrest to the unique Breathable Keyboard technology

The IdeaPad® U400 designer notebook is ultraportable and yet uncompromised, with the performance of the 2nd gen Intel® Core processor family and an integrated DVD drive. Its book-shaped design combines tactile materials like the full-aluminum shell and cool-touch palmrest, with smart technologies including the Long Life Battery that provides up to 7 hours² productive usage time. The unique Breathable Keyboard allows air to enter through the keys, so the PC can run cooler on your lap, while Enhanced Experience 2.0 with optional RapidDrive SSD technology boots Windows in as little as 17 seconds*.

KEY SPECIFICATIONS

- Up to 2nd generation Intel® Core™ i7 processor with Intel® Turbo Boost Technology 2.0
- Genuine Windows® 7 Home Premium
- Boot in as little as 17 seconds* with Enhanced Experience 2.0 RapidDrive SSD technology¹
- 14" slim LED HD display (1366x768), 16:9 widescreen
- Intel® GMA HD 3000 graphics or AMD Radeon™ HD6470M 1GB graphics
- Up to 8GB DDR3 memory, up to 1TB HDD storage & up to 64GB SSD¹ storage (RapidDrive SSD)
- Integrated Bluetooth® and high-speed 802.11n Wi-Fi
- Integrated DVD reader/writer
- Integrated USB2.0 & USB3.0 connectors
- Integrated 1.3M (720p HD) webcam

INSPIRE CREATIVITY

- Full-aluminum shell
- Breathable Keyboard – an Intel® Advanced Cooling Technology that allows the PC to run cooler on your lap by letting airflow through the keyboard
- Cool-touch palm-rest

NOTES: 1. Optional feature. 2. The battery life data is based on BAPCO MobileMark 2007 Productivity scenario tests. The Productivity scenario models content creation performed with common office applications and web page authoring software, including the use of images, video and audio content. [U400 model tested: with Intel® Core™ i7 2620M processor] 3. Measured at thickest point. 4. Wireless Display requires a special receiver.

* Boot time refers to Microsoft VTS Test result of 17.08secs. The VTS Test measures the average boot time based on 5 sequential reboots. Boot time is defined as the time taken from initiating reboot until the CPU is no longer being used to load Windows 7 and start-up applications. Specific claim is for IdeaPad® U400 running Windows® 7 Home Premium with Intel Core™ i7 2620M, 8GB DDR3 memory, AMD Radeon™ HD6470M 1GB graphics and 32GB SSD + 750G HDD. Other configurations may result in different boot times. This measurement may differ from the time taken from pressing the power on button until the appearance of the Windows Start menu when measured with a stopwatch. The VTS test tool is the industry-standard measurement of PC boot times.
