

# HP Spectre<sup>XT</sup> Pro

Make your first impression a double take

The HP Spectre<sup>XT</sup> Pro is the Ultrabook<sup>TM</sup> designed for those who want style without sacrificing substance. It's sleek. It's thin. It's designed for wherever you're going — from the bistro to the boardroom.

HP recommends Windows<sup>®</sup> 7.

## More than just thin air

With its ultra thin, all-metal design, the HP Spectre<sup>XT</sup> Pro Ultrabook<sup>TM</sup> looks smart. As thin as .57 in (14.5 mm) and starting at only 3.08 lb (1.399 kg), you'll be confident knowing you can carry less and do more.

Go from a long meeting to a long flight without recharging. Thanks to a battery that lasts up to 8 hours,<sup>11</sup> you can work and play without worry.

## Design that turns heads, performance that surprises them

We gave this Ultrabook<sup>TM</sup> a solid-state drive and Intel<sup>®</sup> Rapid Start Technology so you can get going in seconds whenever inspiration strikes. Outstanding reliability. Ready in seconds. Ready when you are.

With the latest Intel<sup>®</sup> third generation processor, you have all the speed you need. Multitask like mad. Edit documents like a pro. The HP Spectre<sup>XT</sup> Pro won't hold you back.

Available with an embedded TPM security chip, email and information get added security. Confidential data stays that way. No intrusions. No worries.

HP Spectre<sup>XT</sup> Pro is loaded with the ports you'd expect on a world-class laptop, but on an Ultrabook<sup>TM</sup> instead. Like HDMI, Ethernet, and multiple USB ports. You get the ultimate networking machine without compromising size.

## For those who want to be seen and heard

Thanks to built-in HP Beats Audio<sup>TM</sup> and four speakers, the HP Spectre<sup>XT</sup> Pro Ultrabook<sup>TM</sup> is designed for the best sounding, richest audio available on a PC. Small size. Big sound.

Sometimes in life, only a face-to-face conversation will do. The HP TrueVision HD Webcam<sup>6</sup> will have you looking your best virtual self even in low light.

## Only from HP

Keep working or playing even in dimly lit rooms or on red eye flights. The backlit keyboard is full-size so you don't compromise comfort.

Life heats up. That's why there's HP CoolSense technology, which automatically adjusts your notebook's temperature based on usage and conditions.

## SPECIFICATIONS

|                                     |   |

# HP Spectre<sup>XT</sup> Pro

HP recommends Windows<sup>®</sup> 7.

1. This system may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. Not all features are available in all editions of Windows 7. See [microsoft.com/windows/windows-7/](http://microsoft.com/windows/windows-7/) for details.
2. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel<sup>®</sup> architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel<sup>®</sup> 64 architecture. Processors will not operate (including 32-bit operation) without an Intel<sup>®</sup> 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
3. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.
4. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 15 GB (for Windows 7) of system disk is reserved for the system recovery software.
5. HD content required to view HD images.
6. Internet access required and not included.
7. Wireless access point and Internet service required. Availability of public wireless access points limited.
8. Includes reduced functionality versions of Word and Excel. Purchase of Product Key required to activate full Office 2010 suite available at participating resellers/retailers and [office.com](http://office.com).
9. Sold separately or as an optional feature.
10. The Computrace agent is shipped turned off, and must be activated by customers when they purchase a subscription. Subscriptions can be purchased for terms ranging multiple years. Service is limited, check with Absolute for availability outside the U.S.
11. Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See MobileMark07 battery benchmark [bapco.com/products/mobilemark2007](http://bapco.com/products/mobilemark2007) for additional details.
12. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit [hp.com/go/lookuptool](http://hp.com/go/lookuptool)
