Every day protection, made thin and light.

Announcement Date: Sept. 3, 2013   **Shipping:** October 2013

Price: $49.99   **Available at:** www.logitech.com

Product Description

The Logitech® Folio Protective Case – one of Logitech's thinnest, lightest folios – now helps protect your Samsung Galaxy Tab® 3 against bumps, scratches and spills. Made from state-of-the art and water-repellant materials, this folio offers two-sided protection for the front and back of your tablet. Its ultra-thin and ultra-light design perfectly complements the mobility of your Galaxy Tab, while its SecureLock system keeps your tablet secure and in place, no matter the position it's in.

Key Features

- <u>Ultra-thin, ultra-light protection:</u> The folio is a two-sided case made from water-repellent materials that helps protect the front and back of your Galaxy Tab from accidental bumps, scratches and spills, while being so thin and light that you hardly notice it's there.
  <u>Adjustable stand:</u> The Logitech Folio doubles as a stand that can hold your Galaxy Tab in several different positions, from nearly flat to fully upright.
- <u>SecureLock system:</u> Lightweight, low-profile clips keep the corners of your Galaxy Tab firmly fastened to the frame, with an easy release feature that makes it easy to insert and remove.
