

Logitech®

Alert™ 750n Indoor Master System

The complete video security system you can set up yourself

- Complete video security system in a box
- Easy installation with HomePlug® networking
- Built-in night vision
- HD video (960 x 720 @15fps) and wide-angle lens
- Motion-triggered recording and alerts

Logitech Alert™ 750n Indoor Master System comes with everything you need to help protect what's important to you: a smart camera with wide-angle night vision, powerful PC software and a free remote viewing account. Installation is easy. Simply plug in the camera—HomePlug® uses your electrical wiring and outlets to connect your camera to the network and transmit video securely. The HD video and high-powered illumination make it easier for you to recognise people and other objects—day or night (see up to 15 metres/50 feet in complete darkness). Motion detection automatically triggers video recording and can be set up to send email notifications to your computer and smartphone, keeping you informed.
