

3x Optical Zoom | 650TVL Res | 5-15mm Lens

QD6531Z-K

With a full range of motion, the Q-See QD6531Z has you covered at every angle with its 16 programmable Cruise Patterns and 128 presets. This Pan-Tilt-Zoom camera features a full 360° horizontal rotation and a 75° tilt. It delivers high-quality images at 650 TV Lines of resolution in daylight and low-light situations as low as 0 lux while also incorporating automatic focus. The zoom lens adjusts from a wide-angle 5mm to a tight 15mm range so you can capture the complete area and essential details. You can easily control the camera using the buttons on the front panel of your DVR, through the on-screen control interface or with an included remote control. The included wall-mounting brackets provides added flexibility in positioning the camera to achieve the best viewing angle - from on a horizontal, vertical or overhead surface.
