

## 960H Camera | 700TV Lines of Resolution | 100ft of Night Vision

QM9702B

Get a truer image with a 960H resolution camera. Q-See's 960H surveillance camera offers a clearer, more detailed image for even more surveillance power. A Q-See 960H camera provides 700TV lines of clear resolution with an effective pixel count of 976 x 496 for images with more detail than standard 700TVL cameras. Its large 1/3" image sensor captures and processes enough light to reproduce stunning images. Adding more versatility to the camera is its fixed 4.6mm lens that offers a 50-65° field of view. Typical outdoor conditions are no match for this camera either. A sleek and sturdy all-metal housing protects this camera from rain and sun. The equally sturdy 3-axis bracket provides flexibility for precise positioning when setting up. Q-See surveillance cameras are designed to meet your home and business needs. Our cameras are easy to install and operate, so you can monitor your premises right away. Peace of Mind - Anywhere, Anytime.
