

Model number: **PROFORMAWM46**

## PROFORMA 46" Gallery Style TV Mount

---

This easy-to-use wall mount creates a sophisticated, art gallery-like install for TVs up to 46". Unique design makes hanging your TV as easy as hanging a picture frame.

### Features

Take the complexity out of TV installation with this PROFORMA™ gallery-style wall mount for TVs up to 46". Utilizing a unique cable harness and wall plate design, this mount makes hanging your TV as easy as hanging a picture, and creates an equally sophisticated, art gallery-like install. An ultra-flush mount enables today's thinnest flat panel TVs to sit an inch or less away from the wall for a modern, streamlined look.

#### Universal Fit

Fits most TV's up to 46" diagonal and up to 80lbs. Supports VESA hole patterns up to 400mm.

#### Low Profile Design

TV hangs less than 1" from the wall to complement today's ultra-thin TV's.

#### Easy Install Wall Hook

Unique TV wall hook design secures TV cable harness with a specially designed locking mechanism. Single stud installation means setup takes less time than traditional mounts.

#### All Necessary Hardware Included

Variety of screw sizes included for compatibility with most TV's.

#### Durable TV Cable Harness

The cable harness system acts like a picture frame wire to hang the TV on the wall plate. The cable and harness are tested to support up to 400 lbs.

#### Rubberized Wall Spacers with Integrated Kick Stands

Attach to lower VESA holes to provide parallel positioning to the wall. Non-marking rubberized tips protect the wall surface and provide stiction. Integrated "kickstands" hold the TV away from the wall to ease wiring.
