BDX5200

Spin up something special. Stream in something spectacular.

Featuring built-in streaming and Wi-Fi®, Toshiba's BDX5200 Blu-ray Disc® Player is your pipeline to outstanding 3D entertainment.

Discover a whole new dimension of Blu-ray with Toshiba's BDX5200 Blu-ray Disc® Player—your ticket to stunning 3D entertainment and streaming too. This machine gets right to work right out of the box. It splashes 3D movies across your big screen in head-turning 1080p full HD, and pumps your speakers full of luxurious surround sound thanks to Dolby® TrueHD and DTS HD. You'll also see what makes Blu-ray better with BD Live 2.0, going online right from the movie to view filmmaker chats, deleted scenes, short clips and more. And can also view additional onscreen content and enjoy PiP (picture-in-picture) functionality. Take advantage of popular streaming services like Netflix®, CinemaNow®, VUDU™, Pandora™, even Internet radio. And don't hassle building your home theater, because this player comes with USB and HDMI®-CEC ports, and built-in Wi-Fi® gives you clutter-free in-home connectivity. It's time to dive in and discover the richness of 3D—and piped in movies, too, with the BDX5200 Blu-ray Disc® Player from Toshiba.

Key Features:

Full HD 1080p/24 fps video output provides an amazing cinema experience in the comfort of your own home.

Built-in WiFi® Enjoy convenient in-home connectivity without the cable clutter to stream content from your media server or the internet.

BD-Live™ opens up a world of online features, with a convenient SD Card Slot for storing saved content.

Internet Connectivity² makes access to online content from Netflix®, CinemaNow, YouTube™, VUDU™, and Pandora® possible. Streaming movies, showing off your digital photo albums, and listening to your favorite music can all be done with the BDX2200. Wi-Fi® connectivity is optional.

AVCHD™ Playback for HD playback of your home movies.

HDMI®-CEC³ connects the BDX5200 and your HDTV for convenient two-way control with one remote.

Built-in Decoding of Dolby® TrueHD and DTS-HD

* While every effort has been made at the time of publication to ensure the accuracy of the information provided herein, product specifications, configurations, system/component/options availability are all subject to change without notice.

¹BD-Live™ Performance of interactive features may vary due to disc design or content, and may also require an always-on broadband internet connection. Firmware update may be required for some interactive features. Some features may require additional bandwidth. BD-Live™ may require an SD or SDHC card or USB memory with available storage capacity of at least 1GB (sold separately). Internet services are available only in the United States.

²Internet Connectivity Requires a wireless adapter (sold separately).

³HDMI®-CEC Use of HDMI®-CEC requires an HDMI®-CEC compatible display/peripheral device. Depending on the specifications of your device, some or all HDMI®-CEC functions may not work even if your display/peripheral device is HDMI®-CEC compatible.

⁴Playable Disc Type (DVD Player/Recorder, TV) Some DVD-R/DVD-RW and CD-R/CD-RW discs may be incompatible due to laser pick up and disc design. CD-R/CD-RW discs must be recorded using CD-DA method for CD audio playback. This product may not support certain recordings due to differences in recording formats, disc structure, or condition of the disc (use of CD-RW for MP3 files is not recommended). See owner's manual for more information.

⁵Wi-Fi Ready® Third party internet services are not provided by Toshiba, may change or be discontinued at any time and may be subject to internet service provider restrictions. Toshiba makes no warranties, representations, or assurances about the content, availability or functionality of third-party content or services. Use of third party internet services may require the creation of a separate account through a computer with internet access and payment of one-time and/or recurring charges and membership. Not all third party services may be available on or compatible with this product. In order to experience the full suggested capabilities of this product, fully-compatible devices may be required.
