

BDX5300

Blu-ray Disc™ Player

TOSHIBA
Leading Innovation >>>

**GET
INCREDIBLE
HD AND
IMMERSIVE 3D**

**Blu-ray
3D™**

Experience Toshiba's BDX5300 3D Blu-ray Disc™ Player with Smart Blu-ray™ and built-in Wi-Fi®.

Watch 3D Movies⁵

Don't just watch movies; experience them. The BDX5300 can play all of the latest movies, whether they are in 2D or more impactful 3D.

Wireless Connectivity⁴ – Built-In Wi-Fi®

Enjoy the convenience of connecting wirelessly to your home's Wi-Fi® network. Easily stream⁵ movies, music, pictures and more directly from the Internet, or from your PC, tablet or other DLNA® device.

1080p Full HD² Resolution

Enjoy the incredible sharpness and impact of Blu-ray™ movies in 1080p Full HD² via HDMI³. If you have an existing DVD library, this model also up-converts standard DVDs to near HD quality.

Toshiba Smart Blu-ray™

Watch the latest movies from VoD partners like Netflix®, VUDU®, and Hulu Plus™. Stream⁵ the latest music from Pandora®, or watch videos from YouTube®. Plus, you can also access dozens of additional media apps from the VUDU® Apps portal.

MediaShare

Smart Blu-ray™ becomes part of your home network by creating simple access to content streamed from your smart phone, tablet, PC or other DLNA® device.

USB Video

Enjoy videos, music, pictures and more from your USB Flash Drive.

Tablet Remote App Capability

TRAC lets you use your Toshiba tablet, or other compatible device, as a full-featured remote control. (Subject to App availability.)

A Sleek, Sophisticated Design

Toshiba's new Aero™ Design offers a sophisticated, stylized look that also complements 2012 Toshiba TVs.

1080P FULL HD

Watch movies in Full HD picture quality.

Connect wirelessly to your home's wireless network.

Access to streaming videos, apps, music and more.

Grab content from your smart phone, tablet, PC or other DLNA® Media Server devices.

Enjoy videos, music, photos and more from your USB Flash Drive.

Use your Toshiba Tablet or other capable devices as remote control. (Subject to App availability.)

1. While every effort has been made at the time of publication to ensure the accuracy of the information provided herein, product specifications, configurations, system/component/options availability are subject to change without notice. 2. 1080p/24 fps encoded content and an HD display capable of accepting a 1080p/24Hz signal required for viewing 1080p/24 fps content. 3. Use of HDMI® w/ CEC requires an HDMI® w/ CEC compatible display/peripheral device. Depending on the specifications of your device, some or all HDMI® w/ CEC functions may not work even if your display/peripheral device is HDMI® w/ CEC compatible. 4. Third-party Internet services are not provided by Toshiba, may change or be discontinued at any time and may be subject to Internet service provider restrictions. Toshiba makes no warranties, representations, or assurances about the content, availability or functionality of third-party content or services. Use of third-party Internet services may require the creation of a separate account through a computer with Internet access and payment of one-time and/or recurring charges and membership. Not all third-party services may be available on or compatible with this product. In order to experience the full suggested capabilities of this product, fully compatible devices may be required. 5. Third party internet services are not provided by Toshiba, may change or be discontinued at any time and may be subject to internet service provider restrictions. Toshiba makes no warranties, representations, or assurances about the content, availability or functionality of third-party content or services. Use of third party internet services may require the creation of a separate account through a computer with internet access and payment of one-time and/or recurring charges and membership. Not all third party services may be available on or compatible with this product. In order to experience the full suggested capabilities of this product, fully-compatible devices may be required. 6. BD Live™ requires connection of a USB drive of at least 1 GB (sold separately) to USB port. For models without built-in Wi-Fi®, BD Live™ is only supported via Ethernet so when using single USB port for internet access, BD Live will not be available. Performance of interactive features may vary due to disc design or content, and may also require an always-on broadband internet connection. Firmware update may be required for some interactive features. Some features may require additional bandwidth. Internet services are available only in the United States.
