1 set per master carton

**DESCRIPTION:**

Listen to music just about anywhere without the hassle of running unsightly speaker wires with this designer series wireless speaker set! The new dual power transmitter with retractable audio cord, uses 900MHz technology to send music through walls & floors to the wireless speakers at a distance up to 150 feet away. These high quality, portable or wall mountable, water resistant speakers are individually controlled with the included remote control. For your listening pleasure anywhere inside or outside your home and beyond!

FEATURES:

- 900MHz dual power transmitter sends audio signals to all four speakers without wire
- Dual power transmitter runs on 4 "AA" batteries (not included) or optional AC power (adapter included) and connects via included retractable 3.5mm audio cable to PCs, MP3 players, iPods, iPhones, stereos and home theater systems
- Speakers can be up to 150' away from the audio source, without line of sight limitations
- Speakers can either be battery powered (using 6 'C' cell alkaline batteries per speaker - not included) or, via the included AC adapter for each speaker
- Compact & portable with a stylized design (10"H x 5"W) - 3" Rubber edge Woofer - 2" Mylar cone Tweeter - 10 Watt RMS Output
- Volume controlled via wireless remote that also turns speakers on while in 'stand-by' mode
- 2 channel selection for you to achieve the best possible performance
- Auto shut off control for power saving
- Auto tuning function for interference free reception utilizing Phase Loop Lock (PLL) technology automatically tuning in the optimal frequency

INCLUDES:

- 4 White 900MHz Wireless Speakers with AC adapters & User Manual
- Dual Power Wireless transmitter base with AC adapter
- Remote control: operates on 2 "AAA" 1.2V batteries
- Wall mounts attached to speakers providing the option to hang your speakers on your walls
- Adapters to allow the transmitter to plug into almost any audio device (3.5mm to RCA and 3.5mm to 1/4 Inch + iPod/iPhone adapter)
