Extra touches for your convenience

- Up to 2.5 hours of playback with a rechargeable battery*
- Car adaptor and mounting strap included
- AV adaptor included
- Full Resume on Power Loss

PHILIPS

sense and simplicity

Highlights

View JPEG from picture disc

Play JPEG photos that are saved on your disc. Relive your favorite moments with family and friends anytime you want!

DVD, DVD+/-RW, (S)VCD, CD

The Philips Portable DVD player is compatible with most DVD and CD discs available in the market. DVD, DVD+/-R, DVD+/-RW, (S)VCD, and CD – all of them can play on the DVD player. DVD+/-R is a shorthand term for a DVD drive that can accept both of the common recordable DVD formats. Likewise, DVD+/-RW handles both common rewritable disc types.

Power Resume

The DVD-Video player remembers where you have finish viewing a DVD and continue playing from the exact scene where you stopped watching even after a power failure. If you did not take the disc out of the player, simply press play and it will resume play where you have stopped the movie. For other disc that you have taken out of the player, just reload the disc and press "play" followed by "resume" on the remote control. The Philips DVD-Video player makes life easy!

7" TFT color LCD display

The high resolution color LCD display brings images to life, showing off your treasured photos, favorite movies and music with the same 'real life' rich detail and vibrant colors as high quality prints.

Wireless game pad

Unlike other game consoles that use cables, this player comes with an infrared, wireless game console to free you up and let you enjoy hours of hassle-free fun.
