## Full Multi-Format DVD Recorder with 1080p HD Up-Conversion

### Recorder

Full multi-format recording works with almost any type of disc you choose, recording on DVD-RAM/-RW/-R/+RW/+R.

**HDMI™** – High Definition Multimedia Interface transfers hi-definition (1080i/720p) video and audio from your DVD Recorder to your TV, Home Theatre, or other digital AV components. Simply connect your DVD Recorder to your Home Theatre System with a single cable for the high quality pictures and sound.

**-R dual layer recording** lets you record on -R dual layer discs for more than 14 hours of programming.

**Hi-Def conversion DVD player 1080p up conversion** up-converts the resolution of ordinary DVDs to 1080p/1080i/720p/high-definition.

**Front DV input:** The DV input on the front panel lets you edit and record from a digital camcorder directly onto a DVD disc through a single cable—without losing image quality.

**Progressive scan output** scans individual picture lines in sequence rather than alternately, maximizing the clarity of digital images and bringing new realism to your DVD viewing experience.

One-touch recording

Auto-fit recording

### Convenience

**Auto chapter creator:** Samsung's DVD recorders creates chapters when you record your favourite TV shows or video clips from a camcorder / VCR onto a DVD—so you won't waste time searching the whole DVD to get to the right spot.

**EZ record function:** After pressing the REC button, the time it takes to start recording is only a second.

**Playable formats:** DVD video, DVD-R, DVD+R, DVD+RW, DVD-RW, DVD RAM, CD-R/RW, CD-DA, MP3, WMA, JPEG.
