

NEW VISIONMOUNT® LT25 TILTING MOUNT

Introducing a new tilting mount so innovative, you won't want to hide it under a TV

The new LT25 tilting mount is the perfect addition to any home theater. Our exclusive ProSet™ post-installation height and leveling adjustments ensure TVs are always perfectly positioned, even after hanging. The innovative ClickStand™ feature holds the TV away from the wall for easy cable installation and maintenance, then easily snaps shut to secure the TV to the wall plate. ClickFit™ technology allows a surge protector and other accessories to attach easily to the center of the mount, so they stay hidden yet easily accessible. And the open wall plate design makes installation a breeze, providing generous space for cable management and easy wall access.

LT25-B1

Problem:

TV does not appear level with its surroundings.

Solution:

Exclusive ProSet™ technology allows height and leveling adjustments after the TV is mounted.
