

AVL

# 30U AV Component Rack System

Compatible with most standard 19" rack accessories

The Peerless AV Component Rack System is specifically designed to house and protect AV components wherever they are needed with a professional look and solid construction. The rack's steel shelves hold a wide range of components, and are designed to provide easy access to the top, front and sides. The shelving system incorporates vented panels that allow for airflow to keep the components as cool as possible. Integrated cable management rings provide an organized look for a clean, professional installation. The Peerless AV Component Rack is fully assembled, ready to use, and features removable handles and rubber casters that make moving the rack and installation a breeze.

 LB (KG) Max load: 1000lb (453kg)

## FEATURES

- Designed for managing components and providing an organized professional look to any AV installation
- Fully assembled reduces installation time
- Sturdy shelves accommodate most components
- Rubber casters provide easy placement inside closets or against walls
- Integrated cable management clips assist with routing multiple bundles of cables
- Open air vented panels, top and sides keep components cool
- Removable handles provide ease of movement
- Included four 2U shelves, one 5U shelf
