

Diamond 3' Antenna Tripod Mount w 2" OD Mast

For years, the satellite tripod has been and continues to be the leading choice for professional and do-it-yourself installers because of its low-cost, durability and versatility. Ideal for mounting several antenna types: DIRECTV Off-air, and/or Free-to-Air. This satellite tripod comes packaged well, is made of heavy-duty galvanized steel and comes pre-assembled for easy installation. The legs of this antenna mount are 3 ft. in length. Check the mast diameter your antenna requires, this tripod include a 28" Mast with 2" OD (Outside Diameter). With its ease of setup and portability, this satellite tripod is an obvious choice for camping, tailgating at sporting events or even installing on your balcony.
