

Mainstream features and proven technology. PCs designed to be the foundation of your business.

HP Compaq dc5700 Business Desktop PC

Stocked with the features necessary to meet the demands of traditional businesses, the HP Compaq dc5700 Business PC is a cornerstone for organizations of any size or sector. Proven technology, productivity tools, and mainstream security features combine to deliver a PC designed to be the foundation of your business, not the focus.

Built on proven technology

Rely on the latest processors and chipset from Intel to help deliver performance and productivity. With your choice of Intel Core 2 Duo processors or Pentium D Dual Core processors, and the Intel Q963 chipset, featuring Graphics Media Accelerator 3000 graphics, the HP Compaq dc5700 Desktop PC helps bring higher speeds, increased efficiency, and the headroom to accommodate future technology expansion.

Productivity tools to get the job done

Whether multi-tasking or working over-time the right features make all the difference. The HP Compaq dc5700 has the functionality your users expect for mainstream productivity, including support for dual independent displays (optional card required), optimized thermals and acoustics, and manageability tools to help streamline IT processes.

Stable and manageable

The HP Compaq dc5700 Business PC offers stability, consistency, and manageability features to help you manage PCs around your business, not the reverse. Available features include access to a suite of client management tools from a single integrated console, a 12+ month product lifecycle, a Common and Stable Software Image, and a set of global SKUs.

Security features to help protect your investment

Help keep your investments safe with security options for both your physical assets and critical business data. The HP Compaq dc5700 Business PC comes with Embedded TPM 1.2 to help provide enhanced data protection and limit system access through hardware-based encryption. Add HP ProtectTools™ security software to your system, including BIOS configuration, Personal Secure Drive, Smart Card Security Manager, and Credential Manager, and further enhance your IT infrastructure's first line of defense

HP Compaq dc5700 Business Desktop PC
