

HP Compaq 8200 Elite All-in-One Business PC

An all-in-one made for business

The industry's first all-in-one PC to integrate the power of the 2nd generation Intel® Core™ vPro™ processors into a sleek, space-saving design without compromising performance, security or stability.

HP recommends Windows® 7 Professional.

An all-in-one made for business

The newest form factor to the HP Compaq Elite Series, this powerful new all-in-one desktop provides enterprise-class computing with reliability, manageability, and stability features. The space-saving, all-in-one form factor integrates a computer, 23" diagonal LED high-definition¹ monitor, webcam,² microphone, and speakers. Engineering excellence combined with the latest innovations in components and software make the HP Compaq 8200 Elite All-in-One Business PC the right choice for your business today and tomorrow.

Intelligent enterprise technology

Keep up with your businesses performance demands with the latest commercial desktop technology, including the 2nd generation Intel® Core™ vPro™ Processor Family^{3,4} and Q67 Express chipset that work together for greater processing and graphics speed. Choose advancements such as Solid State Drives⁵, Blu-ray Player^{5,6}, and convenient data storage options like HP's 6-in-1 Media Card Reader to meet your businesses data storage and replication needs today and tomorrow.

All-in-One efficiency

Space restrictions abound in today's modern enterprise. The HP Compaq 8200 Elite All-in-One's slim profile with 23" diagonal, tilt adjustable display frees you from the clutter of separate hardware components while still allowing for a

comfortable working position. Simple setup and out-of-the-box productivity software allow you to simply unpack, place, plug in and get to work. For even more convenience, go wireless with the optional HP 802.11 Wireless LAN⁷ with support for Intel® vPro™ Technology⁴.

Equipped to collaborate

Now you can connect and collaborate with colleagues around the globe with the built-in webcam² and microphone array. Create a virtual meeting room with new HP MyRoom⁸ software. HP MyRoom⁸ creates an online room where you can interact with others via instant messaging⁴, face-to-face video chat⁹, and Voice Over IP (VOIP)⁹. You can even share your desktop and have others see what's on your screen⁹. HP MyRoom's simple user interface makes it easy to simultaneously manage video and IM conversations, desktop sharing, and your buddy list.

HP Business Desktops

The HP Business Desktops are designed to help facilitate a more stable and manageable environment with programs such as 15-month platform purchase stability, HP Instant Support, and HP Desktop Lifecycle Services. Advanced security features like HP Keyed Cable Lock⁵ support and standard embedded TPM 1.2-compliant security chip can help protect your physical assets and critical business data. For more information about the HP Compaq 8200 Elite visit us at www.hp.com/go/desktop.

SPECIFICATIONS

Operating system	Preinstalled (availability varies by region) Genuine Windows® 7 Professional 64-bit* Genuine Windows® 7 Professional 32-bit* FreeDOS FreeLnx
Form factor	All-in-one desktop with 23" diagonal full HD ⁹ , LED backlit, anti-glare widescreen LCD display with glass covering; integrated 1.3 MP webcam ² , microphone, and stereo speakers
Adjustable reclining stand	Tilt angle: -5° to +60° to the vertical plane Fully reclined position: 30° from horizontal
Processor¹	Intel® 2nd Generation Core™ i7 Processors Intel® 2nd Generation Core™ i5 Processors Intel® 2nd Generation Core™ i3 Processors Intel® Pentium™ Processors Intel vPro™ Technology available with select processors Note: Intel Core i5 with vPro and Core i7 with vPro Technology is a selectable feature that is available on units configured with select processors, an Intel wireless module, and a preinstalled Windows operating system.
Chipset	Intel® Q67
Memory¹⁰	PC3-10600 DDR3 non-ECC SDRAM; (2) SODIMM slots enabling up to 8GB
Slots	One (1) full height Mini PCIe x1
Internal storage¹¹	Up to 1TB hard disk drive; up to 160 GB solid state drive or 320 GB Self Encrypting Drive available
Removable storage	HP Blu-ray Combo Drive ^{5,6} , HP 6n1 Media Card Reader
Graphics	Integrated Intel® HD ¹ Graphics
Audio	High-definition audio support, internal stereo speakers, microphone and headphone ports
Communications	Integrated Intel Gigabit Network Connection HP 802.11 a/b/g/n PCIe Minicard Wireless Module and Bluetooth® Combo available as an option
Ports and connectors	Side: (2) USB 2.0 ports, microphone, headphone Bottom: (1) USB 2.0 port Rear: (4) USB, RJ-45 Ethernet, line out
Input devices	HP USB Keyboard and HP USB Optical Scroll Mouse

Additional HP Care Pack Services information by product is available at: http://www.hp.com/hps/carepack .

HP Compaq 8200 Elite All-in-One
Business PC

HP recommends Windows® 7 Professional.

* Not all features are in all editions of Windows 7. Systems may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details.

1. HD content required to view HD images.
2. Requires internet access.
3. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Dual/Quad Core is designed to improve performance of certain software products. Not all customers will necessarily benefit from the use of this technology. Intel's numbering is not a measurement of higher performance.
4. vPro Technology - Some functionality of this technology, such as Intel Active management technology and Intel Virtualization technology, requires additional 3rd party software in order to run. Availability of future "virtual appliances" applications for Intel vPro technology is dependent on 3rd party software providers. Compatibility with future "virtual appliances" and Microsoft Windows 7 operating system is yet to be determined.
5. Sold separately or as an option.
6. Blu-Ray is a new format containing new technologies; certain disc, digital connection, compatibility and/or performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some Blu-ray titles to play, they may require a DVI or HDMI digital connection and your display may require HDCP support. HD-DVD movies cannot be played on this Desktop PC. Don't copy copyright-protected materials.
7. Wireless access point and Internet service sold separately.
8. HP MyRoom must be downloaded before use at: <http://www.rooms.hp.com/myroom>. Internet service required.
9. Activity which puts additional load on your network, such as screen sharing, audio and/or video over the Internet can impact your network performance. Consider your options carefully when deciding which activities should be done concurrently. Your hardware, network bandwidth and performance will determine overall audio and video quality.
10. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.
11. For hard drive, GB = 1 billion bytes; TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16GB (for Windows 7) of system disc is reserved for system recovery software.
12. HP ProtectTools requires Microsoft Windows.
13. Microsoft Office 2010 Preloaded includes reduced functionality versions of Word and Excel. Purchase of Product Key required to activate full Office 2010 suite available at participating resellers/retailers and <http://www.office.com>.
14. HP Power Assistant may not be available in all regions. Use of this application is not required. Power calculations and cost calculations are estimates. Results will vary based on variables, which include information provided by the user, time PC is in different power states (on, standby, hibernate, off), time PC is on battery or AC, hardware configuration, variable electricity rates and utilities provider. HP advises customers to use information reported by HP Power Assistant for reference only and to validate impact in their environment. Environmental calculations were based on U.S. EPA eGrid 2007 data found at www.epa.gov/egrid/. Regional results will vary. Requires Microsoft Windows.
15. Internet access required. First 60 days included. Subscription required for live updates afterwards.
16. Service levels and response times for HP Care Packs may vary depending on your geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit www.hp.com/go/carepack.
