

HP SignagePlayer mp8200

Get noticed

Built for digital signage, this powerful media player is ready to drive your communications to capture your customer's attention.

Small, but powerful

This small but powerful media player is optimized to work with the latest digital signage content management media software to provide smooth and reliable operation in demanding digital signage applications. Delivered with a Windows® Embedded Standard 7 operating system tuned for digital signage and ready to be deployed in the field, the HP SignagePlayer mp8200 allows for easy and trouble-free rollouts. When paired with digital signage software, HP SignagePlayer mp8200 has the technology you need to capture your customer's attention and create memorable impressions. Use the HP SignagePlayer mp8200 to help increase sales and improve the effectiveness your communications.

Fine tuned for digital signage

HP SignagePlayer mp8200 is specifically optimized for digital signage media and built for demanding digital signage duty cycles. Built on powerful Intel® Core™ technology³, the HP SignagePlayer mp8200 has all the power you need to run compelling digital signage content. Preinstalled with Windows® Embedded Standard 7 operating system, HP SignagePlayer mp8200 is ready for deployment into your digital signage environment.

HP SignagePlayer mp8200 mounts neatly, eas-

ily, and securely to the back of an HP digital signage display.¹ Optional ATI Radeon discrete graphics provide the additional power to satisfy the most demanding dynamic content requirements. Optional wireless networking provides flexibility and ease of installation.

Trusted technology

Certified by leading software vendors, HP works with the best software companies in the business to certify the HP mp8200 for reliable performance when playing complex digital signage content.

With more than 20 years of business display and computing engineering expertise and the industry's most expansive portfolio of high-performance solutions for every-sized business behind it, the HP SignagePlayer mp8200 is built for demanding 24/7 retail environments and the latest digital signage applications so you can focus on your business, not your technology. Backed by a three-year limited warranty and HP worldwide service and support, your HP SignagePlayer is ready to work when you are.

Software	Can be delivered with digital signage player software pre-installed.
Processor^{2,3,4}	2nd Generation Intel® Core™ i3-2100 and i5-2400s processors with Intel vPro™ Technology
Chipset	Intel® Q67 Express
Memory	2 GB or 4 GB PC3-10600 (DDR3-1333) SODIMM memory
Internal storage⁵	160 GB 2.5" Hard Disk Drive or 160 GB SATA Solid State Drive
Expansion bays	External: One (1) Slimline Internal: One (1) 2.5-inch
Expansion slots	One (1) each mini PCIe, MXM
Graphics	Integrated Intel® HD Graphics, optional ATI Radeon 5450 512MB MXM discrete graphics available
Audio/Visual	Realtek ALC261 HD Audio, internal speaker
Communications⁶	Intel 82579LM Gigabit Network Connection Intel Centrino Advanced-N 6205 Wireless NIC (mini PCI Express)
Ports and connectors	Front: four (4) USB, microphone, headphone Rear: six (6) USB, PS/2 keyboard and mouse, line in, line out, VGA, DisplayPort, RJ-45 Network
Input devices	HP USB Standard Keyboard, HP USB optical scroll mouse
Security	Trusted Platform Module (TPM) 1.2, DriveLock, chassis padlock loop and cable lock support
Power	135W 87% efficient active PFC Discrete graphics: 180W active PFC 87% efficient Advanced Configuration and Power Management Interface (ACPI), Dual State Power Button
Dimensions	66 x 251.5 x 254 mm 2.6 x 9.9 x 10 in
Weight	3.07 kg 6.75 lb
Warranty and services⁷	3-3-3 limited warranty delivers on-site, next business-day service for parts and labor and includes free telephone support 24 x 7. You can also select from a range of HP CarePack services to extend your protection beyond the standard warranties. See http://www.hp.com/go/lookuptool for more information.

HP SignagePlayer mp8200

HP SignagePlayer mp8200 mounted to the HP LD4200 Digital Signage Display. Optional HP Digital Signage Display and Wall Mount Kit sold separately.

HP SignagePlayer mp8200

1. HP Digital Signage Display sold separately. HP Wall Mount Kit required and sold separately.
2. vPro Technology - Some functionality of this technology, such as Intel Active Management technology and Intel Virtualization technology, requires additional 3rd party software in order to run. Availability of future "virtual appliances" applications for Intel vPro technology is dependent on 3rd party software providers. Compatibility with future "virtual appliances" and Microsoft Windows 7 operating system is yet to be determined.
3. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information.
4. Intel's numbering is not a measurement of higher performance.
5. For hard drives, GB = 1 billion bytes, TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16GB (for Windows 7) of disk space is reserved for the system recovery software.
6. Wireless access point and Internet service required and sold separately. Availability of public wireless access points is limited.
7. To choose the right level of service for your HP product, use the HP Care Pack Services Lookup tool at www.hp.com/go/lookuptool. Additional HP Care Pack Services information by product is available at www.hp.com/go/carepack. Service levels and response times for HP Care Packs may vary depending on geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit www.hp.com/go/carepack.
