

## HP Compaq Pro 4300 All-in-One Business PC

Innovative, reliable, manageable

Meet your demands head on with an all-around versatile design built for business PC performance.

HP recommends Windows® 7 Professional.

### **Innovative design, impressive performance**

Take back your desktop with the HP Compaq Pro 4300 All-in-One (AiO) Business PC—our most space-efficient commercial all-in-one with the latest PC technologies to keep your team going. Experience the power of 2<sup>nd</sup> and 3<sup>rd</sup> generation Intel® Core™ processors<sup>1</sup> and integrated Intel® HD Graphics that bring presentations and design projects to life.

Reduce deployment hassles with a fast set-up and take the space-saving approach to the traditional PC. Users can spread out across a 20-inch diagonal, widescreen LED display with tilt functions for the look that's just right. The slim, modern profile comes complete with side and rear USB ports, audio ports and built-in storage for your HP 6-in-1 Media Card Reader.

### **Rich multimedia**

Get exceptional audio quality with built-in, commercial-class speakers and say goodbye to separate hardware components and cluttered wires. The HP Compaq Pro 4300 AiO also includes audio line-in/line-out connectivity for stereo, stereo headphones and microphone. Bridge the distance and seal the deal face-to-face with an optional, built-in 1.3 MP webcam<sup>2</sup> and single non-array microphone. Connect and collaborate with colleagues around the globe through HP Virtual Room.<sup>2</sup> Share screens, organize private online meetings and communicate effectively, regardless of where you or they do business.

### **Customize and expand**

The HP Compaq Pro 4300 AiO integrates many of the computing elements you need and leaves plenty of room for customization and expansion. Increase system memory with up to two DDR3-1600 SODIMM slots that support up to 16 GB.<sup>3</sup> Configure standard SATA hard drives up to 1 TB,<sup>4</sup> and choose an optional optical drive for growing data storage or replication needs down the road.

### **Simplified management and protection**

Save time with an out-of-the-box ready solution. Protect your business-sensitive data with preinstalled Microsoft® Security Essentials and optional HP ProtectTools.<sup>6</sup>

HP recommends Windows® 7 Professional.

Please see the product QuickSpecs document for additional detailed specifications and information. See [www.hp.com/go/businessdesktopPCs](http://www.hp.com/go/businessdesktopPCs) for more information about HP Business Desktop PCs.

\*System may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. Not all features are in all editions of Windows 7. See <http://www.microsoft.com/windows/windows-7/> for details.

\*\* Includes reduced functionality versions of Word and Excel. Purchase of Product Key required to activate full Office 2010 suite available at participating resellers/retailers and [www.office.com](http://www.office.com).

1. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See [www.intel.com/info/em64t](http://www.intel.com/info/em64t) for more information. Dual Core is designed to improve performance of certain software products. Not all customers will necessarily benefit from the use of this technology. Maximum memory capacities assume 64-bit operating systems.
2. Sold separately, and available as an add-on feature. Internet access required.
3. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.
4. For hard drives, GB = 1 billion bytes; 1 TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16 GB (for Windows 7) of disk space is reserved for the system recovery software.
5. Don't copy copyright-protected materials. Actual speeds may vary. Double Layer is a new technology. Double Layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 Double Sided-Version 1.0 Media.
6. HP ProtectTools requires Microsoft Windows.
7. Service levels and response times for HP Care Pack Services may vary depending on your geographic location. Service starts from date of hardware purchase. Restrictions and limitations apply. HP Care Pack Services extend service contracts beyond the standard warranties. To choose the right level of service for your HP product, use the HP Care Pack Services Lookup Tool at [www.hp.com/go/lookuptool](http://www.hp.com/go/lookuptool). Additional HP Care Pack Services information by product is available at [www.hp.com/hps/carepack](http://www.hp.com/hps/carepack).
8. Options and accessories sold separately. Availability varies by country.
