Haier's LED TVs feature an ultra thin frame for a more immersive viewing experience than ever before. The thinner frame makes for a bigger screen on a TV with smaller overall dimensions. This value HDTV line delivers what's most important to television shoppers: a sharp, clear picture, and rock-solid reliability. Multiple high-definition inputs provide added value with simple one-cable connections for a variety of high-definition devices. Edge-Lit LED technology delivers enhanced contrast and color in a slim profile, all with lower energy consumption. Haier LED HDTVs earn the Energy Star label by meeting strict energy efficiency guidelines set by the EPA. With the built in tuner, consumers can enjoy free local over-the air broadcasts, including their favorite primetime shows in HD, simply by connecting an antenna.
