67.89 €

* VAT included

The pass-through Partition allows overhead routing of networking cables on top of the NetShelter enclosures and 4-post racks. Two Partitions attach without tools to the roof in a variety of depths. The pass-through Partition is designed with a cable access hole to facilitate routing cables. Each partition ships with ground studs and one 8 inch/203mm grounding strap.

Includes: Installation guide, Qty 1 - 8 inch/20cm grounding strap

Protective grounding provisions

Safety protection against electric shock and reduction of EMI emissions. NetShelter Enclosures incorporate a series of ground studs within each enclosure, providing adequate means for grounding all loose sheet metal panels and/or internally rack-mounted equipment.

Facilitates overhead cable management

Overhead cable troughs and partitions install toollessly on the roof of the enclosure eliminating the need for ceiling mounted or underfloor mounted cable trays. Cable troughs and partitions are designed to manage both power and data cables while maintaining separation.

Main specifications:

Features

Colour of product: Black

RoHS compliance: Y

Weight & dimensions

Width: 597 mm

Depth: 71 mm

Height: 122 mm

Weight: 1820 g

Package width: 610 mm

Package depth: 178 mm

Package height: 203 mm

Package weight: 2730 g
