# CE100

## MINI USB KVM Extender

The CE100 USB KVM Extender with superior video quality and built-in ESD protection allows access to a computer system from a remote USB console (USB keyboard, USB mouse, and monitor).
The CE100 improves on previous designs by: 1) incorporating a compensation adjustment function at the Remote unit for greater video quality; and 2) using inexpensive Cat 5e cable, instead of bulky, expensive, standard cables, to provide a neater, more convenient, more reliable data transfer connection.

## Compatible Accessories

Accessories

2L-2801          2L-2901

## Package Contents

- 1x CE100L Mini USB KVM Extender (Local Unit)
- 1x USB/VGA Cable
- 1x Mounting Kit

- 1x CE100R Mini USB KVM Extender (Remote Unit)
- 1x Power Adapter (for Remote Unit)
- 1x User Instructions

Patent No.
US 6160543

RoHS Compliant

### CE100
**MINI USB KVM Extender**

The CE100 USB KVM Extender with superior video quality and built-in ESD protection allows access to a computer system from a remote USB console (USB keyboard, USB mouse, and monitor).

Extends local PC VGA/keyboard/Mouse to Remote side

Uses Cat 5e cable to connect the local and remote units

Easily add or remove computers connected to the installation

Supports real time DDC communication

Superior video quality - up to 1920 x 1200

Allow access to a computer from the remote console up to 100 m distance

Support manual compensation adjustment for better video quality
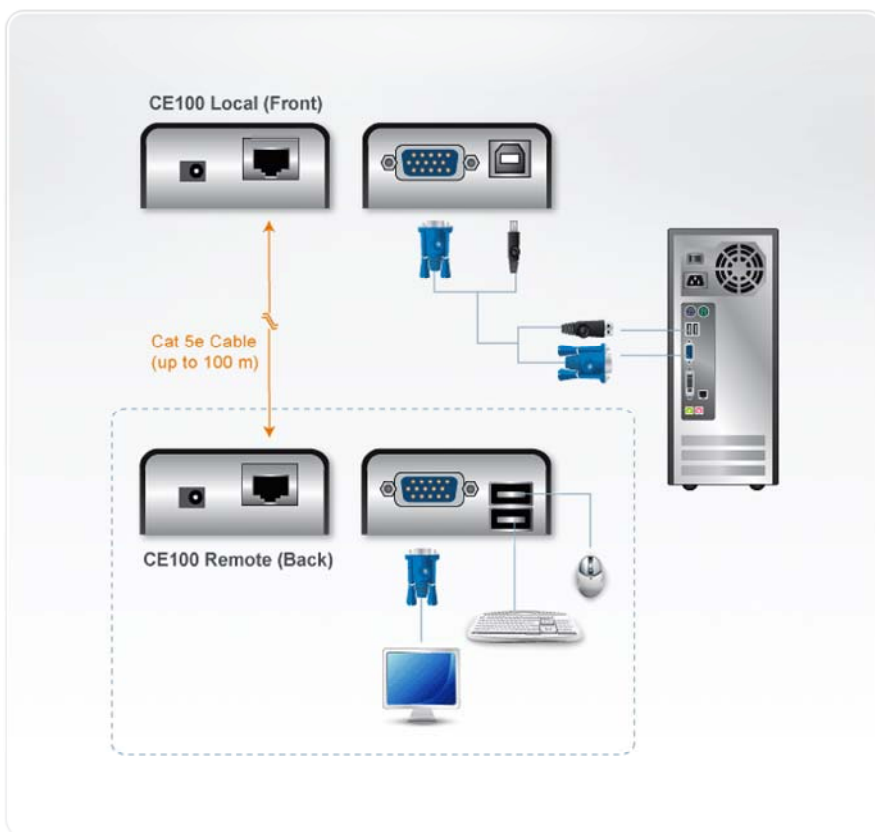

No external power supply needed for local unit

Built-in 8KV/15KV ESD protection (Contact voltage 8KV; Air voltage 15KV)

Wall mountable
