MGK1 MGK1-K

Backlit Mechanical Gaming Keyboard

The Azio MGK1 & MGK1-K combines the essential elements of an enthusiast keyboard into a beautifully crafted chassis. The premium aluminum top plate is first anodized, increasing it's strength and fixate it's color permanently. It is then finished with an elegant brushed effect and further perfected by machining chamfers around the LED indicators and volume control wheel. The detachable palm rest incorporates UV coating to ensure hours of comfortable typing. The Kailh mechanical switches are tactile and offers both clicky and non-clicky versions, perfect for typing-intensive tasks. Armed with full NKRO over USB, the MGK1 keyboards won't judge no matter how many fingers you have or how fast you type. With Windows Key lock for gaming, shortcut keys such as email and calculator for productivity, multimedia controls for entertainment, and backlight for covert gaming... it's the perfect keyboard designed for all occasions.
