

The P380 is a successful blend of the stylish design, sophisticated cooling and proven Quiet Computing™ features of Antec's award-winning Performance One enclosure series. Like all models in the series, the P380 is equipped with double-layered noise-dampening side panels, creating a system that is almost inaudible even when the fans are spinning at a high speed. The P380 is compatible with CEB and standard ATX motherboards. The elegant aluminum front panel features two well-placed USB 3.0 and USB 2.0 ports, and audio in/out jacks. The case boasts one slim optical drive bay, three anti-vibration 3.5"/2.5" removable drive cages (eight 3.5"/2.5" HDD bays).

SPECIFICATIONS:

- Case Type: Full-Tower
- 8 Drive bays:
 - 1 x Slim optical drive bay
 - 8 x 3.5"/2.5" tool-less HDD bays
