Attractive design

## EXTENDING FLAT PANEL TV WALL MOUNT

This professional quality Bell'O® wall mount is constructed of solid, heavy gauge steel to support most medium to large size flat screen TVs (32" - 55") weighing up to 80 lbs (36 kg). The functional and attractive design of the 7845B is accented by its durable powder-coated, high gloss Piano Black finish. It features built-in cable management and an easy-to-reach tilt control lever. It extends up to 13.25" from the wall and tilts from  $-3^{\circ}$  to  $+15^{\circ}$ , with full motion, but is very low profile in closed position – just 2.2" from the wall. Fits standard mounting configurations up to 600 mm x 400 mm. The 7845B Wall Mounting Kit also includes a multilingual instruction manual, installation template, and complete mounting hardware kit.
