Dear Mr. Goss:

Thank you for your correspondence concerning Tampa Electric Company's (TECO) recent rate petition before the Florida Public Service Commission (PSC). I have included a link (see below) to our agency's news release about the PSC's decision to accept the Settlement Agreement that reduces the rate impact on all customer classes and still meets TECO's responsibility to provide quality service.

<http://www.floridapsc.com/home/news/index.aspx?id=1077>

I understand that our Bureau of Consumer Assistance is also reviewing your outage complaint. If you have additional questions, I hope you will call me at 850/413-6107.

Sincerely,

Bev DeMello
Assistant Director
Office of Consumer Assistance and Outreach Florida Public Service Commission

COMPLAINT INFORMATION

Complaint: Service Outage against Tampa Electric Company
Details:

Today 11/3/2013. the "weather " is beautiful! IS this Important ? YES. at 12:36pm today our power went out , for long enough to have to reset EVERYTHING that We reset. TECO is NOT the Once reliable and dependable co. it was. I have Complained to the PSC on this same subject ,But NO difference , Our power is Interrupted on average EVERYDAY , Yes EVERYDAY , at around 8:30 to 9:00 pm this week alone the power has been Interrupted. it is Common for the power to go out daily , Our Complaints have NOT changed anything , the PSC approved TECO a Rate Increase as a REWARD for their "VERY" POOR SERVICE . My neighbor next door has called You as well .TECO only response has been to blame Him. even thou he has had damage to several electrical pieces of equipment. Our that is Our small private Road with 3 homes have the exact same problem for well over 2 years now , today I waited to reboot the Computer so I could write this , It is the most Beautifull day and he power goes off and On. WHY ? WHY? the only thing contacting the PSC has done is to have Teco send letters of Service Disruption one day before the Bill is Due. Isnt that a laugh , they harass US for money before it is Due and They provide POOR service and Get a Rate Increase . Why even have the PSC. ????? I will Contact my State senator , State Rep. and Governor , It is Time the PSC is and Elected Commission once again . I will sk them to Contact YOU for OUR History with TECO .

Comments:

Now that I see the PSC approved TECO's rate hike request, I wish I would have contacted you sooner to tell you what a "bad neighbor" TECO really is.

I have filed numerous complaints about power outages and loud noises coming from the Big Bend plant in Apollo Beach. In addition, they have a Manatee Viewing Center that is a big problem to the community in wintertime when it is open. Auto traffic in the area is terrible, all because this is advertised as a "free" attraction, even though it is subsidized through TECO customer power bills. I have suggested that TECO charge admission to the viewing center, but it fell on deaf ears.

Instead of raising rates, I would like to see TECO charge admission, or close the center down and use the money they save to avoid any more rate hikes from this bad neighbor public utility.

In this 13th year of the 2nd millennium, ~9th day of the 7th Lunar Cycle(September) aka 09/09/2013.

VERIFIED LEGAL NOTICE(AFFIDAVIT) OF FACTS and DEMAND FOR REMEDY

To: STATE OF FLORIDA – Public Service Commission(FPSC) or Assigns, TAMPA ELECTRIC COMPANY(TECO), Sandra W. "Sandy" Callahan, Senior Vice President - Finance & Accounting and CFO; Karen Campbell, Quality Assurance Specialist; and Megan Proulx Dempsey, Senior Corporate Counsel

Re: ROSS ANTEKA – Account Number: 0335 0215331

Dear Trustee/Fiduciary, TECO and assigns:

*****Please Do NOT refer to me as 'Mr.' nor any title which is a LEGAL FICTION and is NOT me. By doing so, you will also agree to pay \$5,000(Five Thousand US Notes) in DAMAGES.*****

For the Record: I am *Sultan Al-Rashid Muhammad Ibn Bilal Abdullah, In Full Life, NOT a CORPORATION*, writing in response to your letter regarding Tampa Electric Company(TECO) electric services and sending FPSC copies of ALL presentments and remittances sent to TECO per FPSC request.

Affiant has no record or evidence that Affiant does not hold Right of Claim to execute Waiver of Tort upon Libellees as just REDRESS/recompense for HARM sustained.

Due to the conduct of your CORPORATION and ASSIGNS Failure to respond to several presentments and certify your AUTHORITY and ACTS within LAW to fulfill your **OBLIGATIONS OF GOOD FAITH as PUBLIC SERVANTS**; it is **PRESUMED** that your company continue to do these acts **knowingly, willingly, deliberately and intentionally**, participating in an ongoing conspiracy to subject the presenter to the Deprivation of Entitlements, resulting the penalty and assessment fee **NOW DUE** of \$30,000 in lawful money, which will be considered as a reimbursement settlement for forced payments after you were repeatedly made aware of **ASSERTED RIGHTS and REMEDIES**. 'Communicate' see **UCC 8-102(6)** codified is **§678.1021(f), Fla. Stat.(2012)**. Also see **63C Am.Jur.2d, Public Officers and Employees, §247** and **United States v. Dial, 757 F.2d 163, 168 (7th Cir1985)** the deliberate concealment of material information in a setting of fiduciary obligation. A public official is a fiduciary toward the public, including, the judge, in reference to litigants who appear before him and he deliberately concealed material information from them, he was guilty of fraud. **McNally v United States, 483 U.S.350 (1987)**. **"It has been stated that any enterprise undertaken by the public official which tends to weaken public confidence and undermine the sense of security for individual rights is against public policy."**

Legal Maxim: "What is expressed renders what is implied silent."

Legal Maxim: "He who uses his legal rights, harms no one."

This notice is also a final Request for the following information as an attempt to settle matters before seeking clarity and REDRESS in the Florida Supreme and/or U.S. District Courts:

- 1. Certify that remittances sent are not interfered with being deposited into your bank for payment;**

13 SEP 13 AM 10:03

RECEIVED-FPSC

2. Certify that the person in charge of handling payments are not interfering with commerce by failure to deposit into corporation's bank;
3. Certify that ignoring the law(*several Constitutional Articles and Amendments as well as other International and Federal Laws and Decrees*) threatening to disconnect electric services to our family home is not deprivations of Liberty;
4. Certify your corporation's colorable acts are not in violation of our Human Rights(*being that electricity for home is a necessity of Life*) breaching the Public Trust.

Your RESPONSE ON A POINT-BY-POINT BASIS IS REQUIRED TWENTY(20) BUSINESS DAY FROM THE DATE RECEIVED. Your said failure to provide the aforementioned certification and documentation will constitute your TACIT agreement to the following terms:

- All debts/dues has been satisfied in full;
- You are in DISHONOR thus constituting an admission of damages to the Natural Person.
- The damages are in the amount of \$100,000 per violation in lawful money enforceable by lien.
- The damages are in the amount of \$500,000 per violation per CORPORATION and \$250,000 per violation per individual person in lawful money enforced in the tribunals.
- Your failure to process and deposit notes are interfering with COMMERCE.

This said Notice to Principal is a Notice to Agent; and Notice to Agent is Notice to Principal.

I declare UNDER PENALTY OF PERJURY within the laws of the UNITED STATES CODES that the above is true and correct to the best of my own personal knowledge and honorable intent. ***SO HELP ME GOD!!!***

RESPECTFULLY PRESENTED.

VERIFIED LEGAL NOTICE OF PAYMENT and ACKNOWLEDGEMENT[see F.S.(2012) §673.1041]
Demand for Full Disclosure, Satisfaction and REMEDY

To: TAMPA ELECTRIC COMPANY, Sandra W. "Sandy" Callahan, Senior Vice President - Finance & Accounting and CFO; and Karen Campbell, Quality Assurance Specialist

Re: ROSS ANTEKA – Account Number: 0335 0215331

Dear Karen Campbell and assigns;

Pursuant to TECO ENERGY'S Ethics and Compliance: "TECO Energy, including each of its operating companies, has long demonstrated a strong commitment to conducting business in accordance with the spirit and requirements of applicable federal, state and local laws, ordinances, rules and regulations.

*We hold ourselves to the highest ethical behavior in all our business activities, including legal, regulatory, financial, operational and environmental matters. Primary responsibility for compliance with laws and regulations rests with TECO Energy's management, team members and operating companies and affiliates. This responsibility applies at each of our business locations and at all of our facilities. [TECO Energy Companies: **Tampa Electric**; Peoples Gas; TECO Coal]"*

The legal entity billed by **Account Name: 'ROSS ANTEKA'**, is a governmental created entity of which I am the Authorized Representative on its behalf and the government is OBLIGATED to their created entity's bills, debts, dues etc... You were sent a Notice of 'Conditional Acceptance' requesting certification so that I may settle any financial obligation I might lawfully owe; received by your company on May 30, 2013; 6:20 AM via U.S Postal Service CERTIFIED MAIL RECEIPT number: 70123050000185866521, which was a day after your 'FINAL NOTICE' Statement Date indicated on the notice that was received on May 31, 2013. The **FINAL NOTICE** is presumed a mere declaration and NOT A RESPONSE to satisfy request for clarity within law. Also, your company is required to **RESPOND BEFORE ACTING** to clarify what AUTHORITY your company is acting upon to ensure COMPLIANCE to the LAW; **NOT TO PREJUDICE THE PEOPLE**.

The Payment Coupons/instruments(Acceptances) received by your corporation(*delivered to you on May 03, 2013; 6:29 AM via U.S Postal Service CERTIFIED MAIL RECEIPT number: 70123050000185866392 and on May 22, 2013; 6:22 AM via U.S Postal Service CERTIFIED MAIL RECEIPT number: 70123050000185866460*) tendered to TAMPA ELECTRIC COMPANY, made payable to bearer and negotiated to the United States Treasury for settlement: will be the form of remittance/settlement/payment tendered for this account hereafter and are to be treated as any other payment not to preclude standard payment; The People have been estopped from using, and has no access to '**lawful constitutional money of exchange**' (See U.S. Constitution – Art. I §X) to '**PAY DEBTS AT LAW**', pursuant to 48 Stat. 112(HJR-192) and Public Law 73-10, can only discharge fines, fees, debts, and judgments 'dollar for dollar' via commercial paper or upon the Person's exemption; to be DEPOSITED TO THE US TREASURY as per 12 USC §411 and 18 USC §8. The corporate United States, the several states of the Union, intergovernmental organizations, and other nations of the world recognize this current, circulating medium of exchange as commercial paper/instruments, negotiable or non-negotiable, the same being accepted as legal tender or money, etc., as set forth in the Uniform Commercial Code. The notes are to be returned if not accepted: being dishonored. **However, should you not accept this form of payment, then please return the Payment Coupons/Notes, along with a full written explanation of why your organization is exempt from the legislation as outlined herein and presented to**

your company in other presentments, or why the Commercial Instruments are unacceptable signed UNDER PENALTY OF PERJURY; then we are in agreement that you have turned down my legal payment and therefore my account balance is now zero.

*The presentments sent to your corporation related to this account have ALL been in accordance to prescribed LAWS of **COMMERCE** and **CONTRACTS**, which your corporation has **FAILED TO PROVIDE A CERTIFIED REBUTTED RESPONSE**, instead have chosen to **ENFORCE COLOR-OF-AUTHORITY** inducing **THREAT, DURESS and COERCION**; and in violation of the People's substantive rights in accordance with the US and FL Constitution: **Article 1 SECTION 10 - Prohibited laws.***

As all government entities and alleged private corporations must be a creature of the American Constitution, **this is a Formal request and Command for TAMPA ELECTRIC COMPANY**; associated with any and all actions affiliated with the electric services provided to the family of *Al-Rashid Abdullah and Anteka Ross* to produce For the Record, the physical **CERTIFICATION/Contract/documentation** of what **'Authority'** you are acting upon, for inspection and review, as required by Law per **the United States Republic Constitution.** SO HELP ME GOD!!!

PUBLIC HAZARD BONDING OF CORPORATE AGENTS: All officials are required by federal, state, and municipal law to provide the name, address and telephone number of their public hazard and malpractice bonding company and the policy number of the bond and, if required, a copy of the policy describing the bonding coverage of their specific job performance. *Failure to provide this information constitutes corporate and limited liability insurance fraud (15 USC) and is prima facie evidence and grounds to impose a lien upon the official personally to secure their public oath and service of office. (18 USC 912)*

"Whoever, having taken an oath before a competent tribunal, officer, or person, in any case in which a law of the United States authorizes an oath to be administered, willfully and contrary to such oath states or subscribes any material matter which he does not believe to be true, is guilty of perjury and shall be fined no more than \$2,000.00 or imprisoned not more than five years or both." See 18 U.S.C. §1621.

I am, WITHOUT malice or mischief, in complete Sincerity and Honor trying to continue my services as needed from your company WHICH IS A NECESSITY FOR LIFE and LIBERTY. THEREFORE, it can ONLY be PRESUMED AS BAD FAITH ACTS performed by your company for failing to provide lawful proof of claim, presenting to us lawful documentation/contract to show that you have the lawful authority to dishonor the instrument tendered without DISCHARGING the debt. *Failure to provide documented evidence that is certified lawfully to be true and correct by notarized affidavit and signed under penalties of the law including perjury will be ACQUIESCENCE and default whereas this 'Notice' will serve as the **RECIEPT FOR SATISFACTION/PAYMENT-IN-FULL.***

You are required to respond and send a letter of acknowledgement and/or statement of account showing a credit in reflection of the tendered instrument, within three (3) days upon date received. If no letter of acknowledgement and/or statement of account showing a credit in reflection of tendered instruments, We will NOT EXPECT AN ATTEMPT TO INTERRUPT ELECTRIC SERVICES; which will further affect my(The People) decisions and impairing the obligation of contracts as well as enhancing the state of Threat, Duress and Coercion implied unto The People, which THREATENS our Family's LIFE, LIBERTY and PURSUIT OF HAPPINESS as well as other Substantial, Inalienable Rights.

We trust that this is to your satisfaction and that no further claims will be made against ROSS ANTEKA indicating any past due or late amounts.

Silence is Acquiescence, Agreement, and Dishonor

This said Notice to Principal is a Notice to Agent; and Notice to Agent is Notice to Principal.

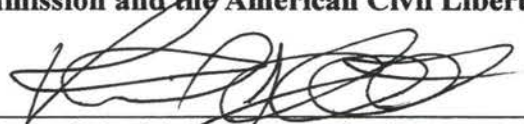

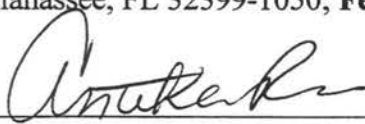

I declare UNDER PENALTY OF PERJURY under the laws of the UNITED STATES CODES that the above is true and correct to the best of my own personal knowledge and honorable intent. **SO HELP ME GOD!!!**

RESPECTFULLY SUBMITTED.

CERTIFICATE OF SERVICE

VERIFIED 2nd LEGAL NOTICE OF PAYMENT and ACKNOWLEDGEMENT

To: TAMPA ELECTRIC COMPANY(TECO), Sandra W. "Sandy" Callahan, Senior Vice President - Finance & Accounting and CFO; Karen Campbell, Quality Assurance Specialist; and Megan Proulx Dempsey, Senior Corporate Counsel

Re: ROSS ANTEKA – Account Number: 0335 0215331

Dear TECO and assigns;

Pursuant to TECO ENERGY'S Ethics and Compliance: "TECO Energy, including each of its operating companies, has long demonstrated a strong commitment to conducting business in accordance with the spirit and requirements of applicable federal, state and local laws, ordinances, rules and regulations.

We hold ourselves to the highest ethical behavior in all our business activities, including legal, regulatory, financial, operational and environmental matters. Primary responsibility for compliance with laws and regulations rests with TECO Energy's management, team members and operating companies and affiliates. This responsibility applies at each of our business locations and at all of our facilities. [TECO Energy Companies: **Tampa Electric**; Peoples Gas; TECO Coal]"

I am writing in response to our conversation on 08 July 2013 regarding the above mentioned account and your letter received, that was dated June 12, 2013. Your opinions DO NOT preclude the LAW and your acts/practices of IGNORING THE LAW and DEPRIVATION OF RIGHTS to Prevent Commercial Remedy; interfering with commerce are grounds for tort claims, causing damages as a direct result.

There has been remittances sent to your company to discharge the balances indicated on the monthly drafts received and will be the same hereafter. I have made extensive efforts in Good Faith to assert my Rights/Remedies to lawfully satisfy the debt indicated in the drafts received by your company. Unfortunately, due to difficult times which my family is currently seeing its way through, I had no choice but to study and understand the Supreme Laws of the Land, to ensure the PUBLIC SERVANTS will adhere to their OATHS OF OFFICE to protect the Peoples Life, Liberty and Pursuit of Happiness, our God given Entitlements with most secured by the Constitutions, Treaties and Other International Agreements. See **Art. 1 §10, U.S. Const.; Public Law 73-10; 48 Stat.112(HJR 192) and U.C.C. 3-104(codified in §673.1041, Fla. Stat.(2012).**)

However, if you feel the remittances are not an acceptable tender; again please see **U.C.C. 3-603(codified in §673.6031, Fla. Stat.(2012) – Tender of payment("If tender of payment of an obligation to pay an instrument is made to a person entitled to enforce the instrument and the tender is refused, there is discharge, to the extent of the amount of the tender, of the obligation of an indorser or accommodation party having a right of recourse with respect to the obligation to which the tender relates."**))

THEREFORE, it is herein DECLARED that an **IMPLIED CONTRACT** is/was Created freely and jointly entered into by the Parties, in which ANY and ALL Parties are free to choose to become OBLIGATED or NOT to become OBLIGATED to their own free choice or volition, to TRESPASS('TRUSTPASS) and cause a TORT or not to TRESPASS, TO INJURE ME, a Natural Person, or not to INJURE ME, the Natural Person

HEREIN by any UNFAIR acts or practices of DECEPTION, MISLEADING, OMISSIONS or DEPRIVATION OF RIGHTS(REMEDIES) and accepting settlement of the terms and conditions of this IMPLIED CONTRACT MUTUALLY AGREED UPON.

In the event of your Dishonor of The People's acceptance, which is our legal Remedy prescribed in Law, then you are required to DISCHARGE the debt according to the Law and/or identify any defect in the instrument that needs to be corrected to satisfy your company's requirements; in GOOD FAITH: in the form of your own affidavit, sworn under penalties of perjury & unlimited commercial liability, that the facts contained therein are true, correct, complete and **not misleading**; within a **three(3) days** upon reception, sent via registered or certified mail to ensure proper certification, DUE TO THE URGENCY OF THIS MATTER.

Silence is Acquiescence, Agreement, and Dishonor

This said Notice to Principal is a Notice to Agent; and Notice to Agent is Notice to Principal.

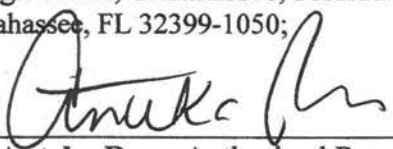

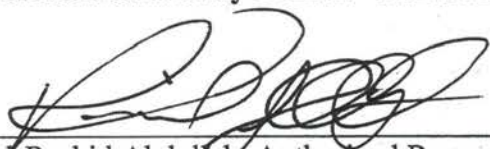

I declare UNDER PENALTY OF PERJURY under the laws of the UNITED STATES CODES that the above is true and correct to the best of my own personal knowledge and honorable intent. **SO HELP ME GOD!!!**

RESPECTFULLY PRESENTED.

CERTIFICATE OF SERVICE

UNDER PENALTY OF PERJURY under the laws of the UNITED STATES CODES, I HEREBY CERTIFY that a true and correct copy will be furnished by U.S. mail delivery to: **TAMPA ELECTRIC COMPANY**, P.O. DRAWEE: THE United States Department of the Treasury 1789

Payor's Account Name: RASHID ABDULLAH National Social Security Number [REDACTED] **VOID AFTER 21 DAYS**

MEMO: THIS CERTIFICATE/VOUCHER/CERTIFIED COUPON BOND IS A PRINTED AUTHORIZATION TO THE UNITED STATES DEPARTMENT OF THE TREASURY 1789 TO DISBURSE PUBLIC MONEY FOR THIS PUBLIC DEBT BACKED BY Payor's full faith and credit, and bonded by a certified promise as recognized by International Law.

Executor/Grantor, WITHOUT RECOURSE

CERTIFIED CERTIFICATE OF INDEBTEDNESS to be paid through the United States Department of the Treasury 1789.

Additional Comments: For ROSS ANTEKA @ 808 W. Madison St., Plant City FL 33563

Acceptance of obligation pursuant to public law as well as public policy, and this is made payable to "United States DEPARTMENT OF THE TREASURY 1789, WITHOUT RECOURSE"

P.L. 93-224: The United States government has continued to borrow from me a member of the public, and have failed to return consideration and/or provide a means for which obligations may be offset, it is under public law and public policy such obligations are obligations of the United States government and as such are hereby discharged/offset/dissolved as a matter of right as well as heritage. As a member of the People of the United States, and vested with the power and authority to accept as well as offset debt obligations (please refer to the first, ninth, 10th, and 11th amendment for the United States Constitution 1789), the United States Department of the Treasury 1789 is the principal agent assigned for offset/discharge of all obligations and duties (please see 12 USC 411, 412). You are hereby to deliver this instrument to your financial institution, and they will follow the procedures as outlined in the aforesaid laws, by delivering to the Federal Reserve window and or the treasury window. Who upon demand will deliver the equivalent in lawful monies, as required by them under law.

Acceptance of obligation pursuant to Public Law and Public policy, this is made payable TO: "THE UNITED STATES DEPARTMENT OF THE TREASURY 1789. WITHOUT RECOURSE" Uniform Commercial Code sections 3-415, 3-419 and 3-603

Any coupons presented by the presenter is backed by the full faith and credit of the United States of America, is legal tender for all obligations associated with this matter.

Declaration of "valuables"

It is determined that replacements, in accordance with the procedure established under section 3 of the Government Losses in Shipment Act (50 Stat. 479, as amended;

5 U.S.C. 134b), of the articles or things or representatives of value enumerated and referred to in this section would be in the public interest; accordingly, they are hereby declared to be "valuables" within the meaning of the act.

a) Money of the United States and foreign countries. Currency, included mutilated currency and canceled currency, coins, including uncurrent coins, and specie.

b) Securities and other instruments or documents, private and public.

NOTICE OF REMITTANCES and ASSERTION OF REMEDY

To: TAMPA ELECTRIC COMPANY, Sandra W. "Sandy" Callahan, Senior Vice President - Finance & Accounting and CFO

and

US Treasury – Comptroller of the Currency

Re: ROSS ANTEKA – Account Number: 0335 0215331

In relation to the above account; The enclosed Negotiable Instrument was presented under the authority of "**Ch. 48 Stat. 112**"(House Joint Resolution 192), Public Law 73-10, UCC 3-104(c), Spencer v. Sterling Bank, 63 Cal Ap. 4th 1055 (1998), Guaranty Trust Co. of NY v. Henwood et al, 307 U.S. 247 (1939). "The entire taxing and monetary systems are hereby placed under the U.C.C." (Uniform Commercial Code). [ALSO SEE: McElroy v. Chase Manhattan Mortgage Corp., 134 Cal.App.4th 388, 36 Cal.Rptr.3d 176 (2005) and U.S. Bank v. Phillips, 1-05-1829 (Ill. App. Ct. 1st Dist. June 26, 2006); **where the courts indicates that a Bill is presumed a negotiable instrument when it was made "payable to order or to bearer" as required by the Uniform Commercial Code.**]

The instrument(Acceptance) received by your corporation(delivered to you on May 03, 2013; 6:29 AM via U.S Postal Service CERTIFIED MAIL RECEIPT number: 70123050000185866392) and the enclosed instrument tendered to TAMPA ELECTRIC COMPANY, made payable to bearer and negotiated to the United States Treasury for settlement is an "Obligation of THE UNITED STATES", under **Title 18 USC §8**, "issued under Acts of Congress" (in this case **Public Law 73-10: "Ch. 48 Stat. 112"**[HJR-192], **Title 31 USC §3123 and §5103**) and by treaty (in this case the UNITED NATIONS CONVENTION ON INTERNATIONAL BILLS OF EXCHANGE AND INTERNATIONAL PROMISSORY NOTES (UNCITRAL) and the Universal Postal Union headquartered in Bern, Switzerland) and will be the form of remittance/settlement tendered for this account hereafter. See Norman v. Baltimore & Ohio Railroad Co., 294 U.S. 240 (1935);

"The term "obligation or other security of the United States" includes all bonds, certificates of indebtedness, national bank currency, Federal Reserve notes, Federal Reserve bank notes, coupons, United States notes, Treasury notes, gold certificates, silver certificates, fractional notes, certificates of deposit, bills, checks, or drafts for money, drawn by or upon authorized officers of the United States, stamps and other representatives of value, of whatever denomination, issued under any Act of Congress, and canceled United States stamps." HJR 192: "The term "obligation" means Federal Reserve notes and circulating notes of Federal Reserve banks and national banking associations." It is a fact: **Title 31 USC §3123** makes a statutory pledge of the United States government to payment of obligations and interest on the public debt. The 'Acceptance' is also in accordance with **Florida Statutes(2012): §673.1041 – Negotiable instrument, §673.3031 – Value and consideration, §673.6021 – Payment, §673.4191 – Instruments signed for accommodation, §673.6031 – Tender of payment**("If tender of payment of an obligation to pay an instrument is made to a person entitled to enforce the instrument and the tender is refused, **there is discharge, to the extent of the amount of the tender**, of the obligation of an indorser or accommodation party having a right of recourse with respect to the obligation to which the tender relates.") and **§673.4151 – Obligation of indorser.**—"subsection (2) If an indorsement states

that it is made "without recourse" or otherwise disclaims liability of the indorser, the indorser is not liable under subsection (1) to pay the instrument."): as well as other Federal Laws and Decrees.

As a member of the people of the United States, and vested with the power and authority to accept as well as offset debt obligations (please refer to the first, ninth, 10th, and 11th amendment for the United States Constitution), the United States Department of the Treasury is the principal agent assigned for offset/discharge of all obligations and duties: (See 12 USC §411 and §412). So, TAMPA ELECTRIC CFO, Billing Manager and/or its assigned is being informed that my(The People) remittance(s)/settlement(s) tendered will be an 'Acceptance for value' for the services provided, hereafter. **The Settlor grants the Fiduciary the following authorities:**

1. The Authority to use PREPAID TREASURY ACCOUNT for the setoff/settlement of ANY debts to this Account;
2. The Authority to use PREPAID TREASURY ACCOUNT as necessary, exclusively to discharge ALL debts and obligations for this Account;
3. The Authority to negotiate, endorse and/or ledger the instrument(s) enclosed/'returned for value', for the purpose of executing the setoff/settlement for this Account.

In the event of your Dishonor of my(The People) acceptance of your offer(s), then you are to identify any defect in the instrument, in the form of your own affidavit, sworn under penalties of perjury & unlimited commercial liability, that the facts contained therein are true, correct, complete and not misleading; within a timely manner, as indicated herein, sent via registered or certified mail to ensure proper certification and/or 'show cause' why a 'Tort Claim' should not be issued for the tactics you are using, which substantially affects my(The People) decisions and **impairing the obligation of contracts**; also stimulating the state of Threat, Duress and Coercion upon me: being that actions, statements and demands made in DISHONOR of my(The People) instrument(s) is presumed misleading and conflicting with **F.S.(2012) §673.6031 – Tender of payment** and in violation of the People's substantive rights in accordance with the US and FL Constitution: **Article 1 SECTION 10 - Prohibited laws**.

I am, WITHOUT malice or mischief, in complete Sincerity and Honor trying to continue my services as needed from your company. Again, enclosed is an 'Acceptance for Value' tendered for payment and the same will be given for future payments that will be deposited in your drop box.

Failure to accept the remitted instrument for deposit and discharge of this debt is lawfully considered theft, fraud, conspiracy, collusion, racketeering, and denial of due process. I believe there is no evidence to the contrary. "Silence can only be equated with fraud when there is a legal or moral duty to speak, or when an inquiry left unanswered would be intentionally misleading."

The supreme court required that a remedy had to be given to the American people who were principals and sureties for the national debt. This remedy is to discharge debt for the people who demanded it. **We the People were made private bankers according to the law with the authority to issue notes to discharge lawful debts.** This must remain in effect until lawful money and the property is returned to We the People without any encumbrances.

Otherwise, provide lawful proof of claim by presenting to me lawful documentation/contract to show that you have the lawful authority to dishonor the instrument tendered without DISCHARGING the debt. **Failure to provide lawfully documented evidence that is certified lawfully to be true and correct by notarized affidavit and signed under penalties of the law including perjury will be default and this 'Notice' will serve as the RECEIPT FOR SATISFACTION/PAYMENT-IN-FULL.**

You are required to respond and send me a letter of acknowledgement and/or statement of account showing a credit in reflection of the tendered instrument, within 20 days upon date received. If no letter of acknowledgement and/or statement of account showing a credit in reflection of tendered instrument, I will not expect to receive a LATE PAYMENT NOTICE: which will further affect my(The People) decisions and impairing the obligation of contracts as well as enhancing the state of Threat, Duress and Coercion implied unto me(The People).

Also be advised that I am keeping very accurate records of all correspondence from you and your company and I will not hesitate to report violations of the law to the United States and my(The People) State Attorney General, the Federal Trade Commission and the American Civil Liberties Union.

Silence is Acquiescence, Agreement, and Dishonor

This said Notice to Principal is a Notice to Agent; and Notice to Agent is Notice to Principal.

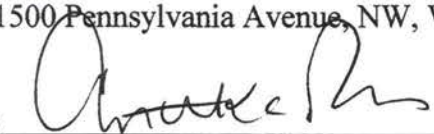

I declare UNDER PENALTY OF PERJURY under the laws of the UNITED STATES CODES that the above is true and correct to the best of my own personal knowledge and honorable intent. **SO HELP ME GOD!!!**

RESPECTFULLY SUBMITTED.

CERTIFICATE OF SERVICE

UNDER PENALTY OF PERJURY under the laws of the UNITED STATES CODES, I HEREBY CERTIFY that a true and correct copy will be furnished by U.S. mail delivery to: **TAMPA ELECTRIC COMPANY**, P.O. Box 111, Tampa, FL 33601-0111 and **Office of the Comptroller of the Currency – U.S. Department of the Treasury**, 1500 Pennsylvania Avenue, NW, Washington, D.C. 20220.

VERIFIED NOTICE OF DISHONOR and ACKNOWLEDGEMENT [see F.S.(2012) §673.5051]
Demand for Full Disclosure, Satisfaction and REMEDY

To: TAMPA ELECTRIC COMPANY, Sandra W. "Sandy" Callahan, Senior Vice President- Finance & Accounting and CFO; and Karen Campbell, Quality Assurance Specialist

Re: ROSS ANTEKA – Account Number: 0335 0215331

Dear Karen Campbell and assigns;

AGAIN: In relation to the above account; The cash equivalent remitted *Negotiable Instruments* are presented upon the authority of "**Ch. 48 Stat. 112**" (House Joint Resolution 192), Public Law 73-10, UCC 3-104(c), *Spencer v. Sterling Bank*, 63 Cal Ap. 4th 1055 (1998), *Guaranty Trust Co. of NY v. Henwood et al*, 307 U.S. 247 (1939). "The entire taxing and monetary systems are hereby placed under the U.C.C." (Uniform Commercial Code). [**ALSO SEE:** *McElroy v. Chase Manhattan Mortgage Corp.*, 134 Cal.App.4th 388, 36 Cal.Rptr.3d 176 (2005) and *U.S. Bank v. Phillips*, 1-05-1829 (Ill. App. Ct. 1st Dist. June 26, 2006); **where the courts indicates that a Bill is presumed a negotiable instrument when it was made "payable to order or to bearer" as required by the Uniform Commercial Code.**]

The instruments/notes are to be treated as any other payment not to preclude standard payment. *The People have been estopped from using, and has no access to 'lawful constitutional money of exchange' (See U.S. Constitution – Art. I §X) to 'PAY DEBTS AT LAW', pursuant to 48 Stat. 112(HJR-192) and Public Law 73-10, can only discharge fines, fees, debts, and judgments 'dollar for dollar' via commercial paper or upon the Person's exemption;* to be DEPOSITED TO THE US TREASURY as per 12 USC §411. The corporate United States, the several states of the Union, intergovernmental organizations, and other nations of the world recognize this current, circulating medium of exchange as commercial paper/instruments, negotiable or non-negotiable, the same being accepted as legal tender or money, etc., as set forth in the Uniform Commercial Code. *The notes are to be returned if not accepted: being dishonored.*

Your private corporation TAMPA ELECTRIC Utility and assigns are attempting to IGNORE the LAW, which is NO excuse and these acts are causing extreme DURESS upon me(The People), since your letter was NOT signed UNDER PENALTY OF PERJURY; **it is presumed as NO RESPONSE and DEFAULT.** Also, your statement of "Since Tampa Electric is a privately owned utility (i.e., not a government agency)," seems to be CONTRARY to the LAWS and presumed collusively misleading. *The presentments sent to your corporation related to this account have ALL been in accordance to prescribed LAWS of COMMERCE and CONTRACTS, which your corporation has FAILED TO PROVIDE A CERTIFIED REBUTTED RESPONSE, instead have chosen to ENFORCE COLOR-OF-AUTHORITY inducing THREAT, DURESS and COERCION. Further, I conditionally accept your offer to pay the way you are specifying upon proof of claim of the following:*

1. Certification indicating the negotiable instruments remitted are not acceptable as tender for payment to set-off DEBTS in equivalence to Federal Reserve Notes;
2. Produce any CONTRACT signed by me to CERTIFY our agreement for FULL DISCLOSURE to help satisfy the Freedom of Information Act;
3. Clarification of your AUTHORITY that refusing to accept tender(DISHONOR) without DISCHARGE of the DEBT according to the laws of COMMERCE(Uniform Commercial Code) DOES NOT violate the law causing HARM as a direct result;

4. Your CORPORATION is NOT ignoring the presented laws for your advantage to secure special privileges over the People?
5. Certify that your CORPORATION is not acting frivolously in reckless disregard for the *Constitution and the laws of the state*, creating legal recourse;
6. Clarify that your acts are NOT a BREACH OF PUBLIC TRUST causing damages to the People as a direct result?

The instruments(Acceptances) received by your corporation(*delivered to you on May 03, 2013; 6:29 AM via U.S Postal Service CERTIFIED MAIL RECEIPT number: 70123050000185866392 and on May 22, 2013; 6:22 AM via U.S Postal Service CERTIFIED MAIL RECEIPT number: 70123050000185866460*) tendered to TAMPA ELECTRIC COMPANY, made payable to bearer and negotiated to the United States Treasury for settlement: will be the form of remittance/settlement/payment tendered for this account hereafter. See *Norman v. Baltimore & Ohio Railroad Co., 294 U.S. 240 (1935).*

In the event of your Dishonor of my(The People) acceptance of your offer(s), then you are to return and identify any defect in the instrument, in the form of your own affidavit, sworn under penalties of perjury & unlimited commercial liability, that the facts contained therein are true, correct, complete and not misleading; within a timely manner, as indicated herein, sent via registered or certified mail to ensure proper certification and/or 'show cause' why a 'Tort Claim' should not be issued for the tactics you are using, which substantially affects my(The People) decisions and ***impairing the obligation of contracts***; also stimulating the state of Threat, Duress and Coercion upon me: being that actions, statements and demands made in DISHONOR of my(The People) instrument(s) is presumed misleading and conflicting with *F.S.(2012) §673.6031 – Tender of payment* and in violation of the People's substantive rights in accordance with the US and FL Constitution: ***Article 1 SECTION 10 - Prohibited laws.***

I am, WITHOUT malice or mischief, in complete Sincerity and Honor trying to continue my services as needed from your company. Again, enclosed is an 'Acceptance for Value' tendered for payment and the same will be given for future payments.

Otherwise, provide lawful proof of claim by presenting to me lawful documentation/contract to show that you have the lawful authority to dishonor the instrument tendered without DISCHARGING the debt. ***Failure to provide lawfully documented evidence that is certified lawfully to be true and correct by notarized affidavit and signed under penalties of the law including perjury will be default and this 'Notice' will serve as the RECEIPT FOR SATISFACTION/PAYMENT-IN-FULL.***

You are required to respond and send me a letter of acknowledgement and/or statement of account showing a credit in reflection of the tendered instrument, within ten (10) days upon date received. If no letter of acknowledgement and/or statement of account showing a credit in reflection of tendered instruments, I will not expect to receive a LATE PAYMENT NOTICE: which will further affect my(The People) decisions and impairing the obligation of contracts as well as enhancing the state of Threat, Duress and Coercion implied unto me(The People); NOR SHALL ANY ATTEMPT BE MADE TO DISCONNECT SERVICES, which THREATENS my Family LIFE, LIBERTY and PURSUIT OF HAPPINESS as well as other Substantial Rights.

Also be advised that I am keeping very accurate records of all correspondence from you and your company and I will not hesitate to report violations of the law to the United States and my(The People) State Attorney General, the Federal Trade Commission and the American Civil Liberties Union.

Silence is Acquiescence, Agreement, and Dishonor

This said Notice to Principal is a Notice to Agent; and Notice to Agent is Notice to Principal.

Comments:

Now that I see the PSC approved TECO's rate hike request, I wish I would have contacted you sooner to tell you what a "bad neighbor" TECO really is. I have filed numerous complaints about power outages and loud noises coming from the Big Bend plant in Apollo Beach. In addition, they have a Manatee Viewing Center that is a big problem to the community in wintertime when it is open. Auto traffic in the area is terrible, all because this is advertised as a "free" attraction, even though it is subsidized

through TECO customer power bills. I have suggested that TECO charge admission to the viewing center, but it fell on deaf ears.

Instead of raising rates, I would like to see TECO charge admission, or close the center down and use the money they save to avoid any more rate hikes from this bad neighbor public utility.

Re: Docket No. 130040-EI

To whom it may concern: I am writing to express concern about the proposed rate increase for Tampa Electric Company. I am a long time customer of Tampa Electric, and have, for the most part, been satisfied with their service. However, I object to the proposed increase, as it would present a hardship for many, especially those on fixed incomes. This increase would reportedly not be minimal. Also, the rationale for the change is very murky, not well explained or supported by data. Finally, in this time of economic difficulty for many, as the economy is struggling to recover, it seems an ill-advised time for such an increase.

Thank you for your attention,

Judith B. Moore

COMPLAINT INFORMATION

Complaint: Service Outage against Tampa Electric Company
Details:

I would like to file a complaint against Tampa Electric Company for the following reasons:

1. I did not receive a late notice via email nor regular mail - regular mail should be law
2. My power was turned off on a Friday which I did not know about until returning home from work after 6:00PM at which time there was no one at TECO to speak to
3. TECO only works Monday through Friday - no customer service agents available during weekend hours

4. Payment was made on line on Friday evening once I noticed power was off which did not process through TECOs system until the following Monday which is unheard of in this day and age of TECHNOLOGY! Payments should be process immediately especially when relating to home electric service
5. I was left witout power for over 72 hours - The outside tempature exceeded 92 degress, my food rotted what would have happened if I died from the heat?
6. Logging on to their website to pay bill is very difficult and I am not a stupid person - There should be a very easy button that states "CLICK HERE TO PAY YOUR BILL" instead they hide it within their site.
7. The TECO phone system is very difficult to navigate - it does not allow you to speak to a live person - I must have dialed into their system 100 times so much so that I have memorized the phone number in oder to report a receipt number of payment made
8. When a consumer does not have a choice of service then the only service available should be available 24 hours a day
9. TECO wants to raise rates yet take away services to the consumer
10. TECO NEEDS TO UPDATE THEIR SYSTEM SIMILAR TO CABLE COMPANIES AND CREDIT CARD COMPANIES.

Thank you in advance.

Tampa Electric seeks approval for petition to increase its base rates and service charges

A hearing will be held before the Florida Public Service Commission (FPSC) regarding Tampa Electric Company's request for an increase to its base rates and miscellaneous service charges.

The purpose of this hearing will be for Tampa Electric and other parties to the proceeding to present testimony and evidence regarding Tampa Electric's request.

The hearing will be held:

9:30 a.m., Monday, September 9 through
Friday, September 13, 2013
Betty Easley Conference Center, Room 148
4075 Esplanade Way
Tallahassee, FL 32399-0850

The case has been assigned Docket No. 130040-EI by the FPSC. Public Counsel has intervened in this docket and will represent the public at the time of the hearing. The Public Counsel representative may be contacted prior to the hearing at 111 West Madison Street, Room 812, Tallahassee, FL 32399-1400, or by phone at 1-800-342-0222.

Tampa Electric has requested a \$134.8 million increase in base revenues and miscellaneous service revenues. Tampa Electric has not requested a base rate increase since 2008.

Written comments regarding the request for base rate and service charge increases may be sent to the Commission at the following address:

Ann Cole, Director

Dear Director Ann Cole,

I am writing about TECO's petition to increase its base rates and service charges (Docket #130040-E1).

I am retired and on a limited income. Whenever social security gives raises, it is within 2% range. My husband is also retired and receiving social security. With the economy being low in wages and high for prices of everything, I will ask you to think of the struggling older segment of society. Please consider no increase or a very low increase for TECO.

Sincerely,

Virginia Jennings

RE: Docket No. 130040 -EI

Ms. Cole:

I am against Tampa Electric getting the \$134.8 million increase in it's base rates and "miscellaneous service charges". This is outrageous. For all of the interruptions in service, we should be getting that money back in reimbursements from them.

There is no reason for this type of an increase at this time in our history when a great percentage of Floridians, including myself, are still trying to find their way out of the declining economy. The recession (decline in economy) still exists in my neighborhood and in my work place. Prices still go up everywhere, yet our wages don't cover those costs. Big companies like TECO should have a management plan to make do with what they have, and make it better. That's what I have to do with my home, my neighbors and my work. It never makes sense to ask for more money from the public when they don't have it. It only makes sense that this request for more money comes at a time when no one is looking, there are changes in command, and Tampa Electric thinks (or knows) they can push this past us without a fight. I'm fighting against this by writing this letter and hope it will be used at the hearing to keep this rate increase from happening.

Many thanks for reading this at the upcoming hearing(s) as I'm sure the Public would be there if they didn't have to work both of their part time jobs that still keep them under the poverty level. I know I would be there if I could.

Sincerely,

Wendy Qualls

Dear Ms. Cole - Director,

I am against any "significant" increase in Tampa Electric base rates and service charges. I am a legally blind nurse living on Social Security Disability. I get no public assistance from Federal, State or county agencies. "I'm just over the poverty limits." How does TECO justify increasing customer charge from \$10.50 to \$15.00. That's a 45% increase. My S.S. doesn't increase at that rate in 5 years.

Please remember the people you serve who "fall through the safety net" but who live on limited incomes - the Disabled & elderly. Say "No" to TECO.

Thank You for Your Time
Leonard Lacey

Subject: FW: Docket No. 130040-EI

Dear Ms. Incerto:

Thank you for your correspondence regarding TECO's petition for a base rate increase. Of the 74 issues that have been raised in the case, 3 relate specifically to employee compensation.

Issue 37: Should any adjustment be made to incentive compensation?

Issue 38: Should an adjustment be made to Tampa Electric's requested level of Salaries and Employee Benefits for the 2014 projected test year?

Issue 38A: Should an adjustment be made to Tampa Electric's requested level of stock compensation expense for the 2014 projected test year?

To support their requested level of compensation, Tampa Electric sponsored two witnesses:

Brad Register
Terry Deason

In addition, counter balancing testimony was filed by the following:

Helmuth W. Schultz III for the Office of Public Counsel

Donna Rama for the Office of Public Counsel
Lane Kollen for the WCF Hospital Utility Alliance

Tampa Electric's technical hearing will begin on Monday, September 9, 2013. During the hearing, the above witnesses will take the stand to provide sworn testimony on the above issues. Once the hearing is concluded, Tampa Electric and the Intervenor Parties each will file a legal brief. Based on the record evidence in the case, staff will prepare a written recommendation to the Commission on the issues in the case. Staff's recommendation of the appropriate level of revenues and costs is scheduled to be filed on October 31, 2013. The Commission is scheduled to vote on the recommendation on November 13, 2013. Based on the Commission vote, staff then will prepare a recommendation on the level of rates. That recommendation is due to be filed on November 25, 2013 with a Commission vote scheduled for December 3, 2013.

Below is a link to Tampa Electric's docket file. You can click on the "Document Filings Index" which will allow you to see all the documents filed in the case.

Subject: Docket No. 130040-EI

Dear Ms. Cole:

As a retired senior on a fixed income, I wrote to you on August 26, 2013 opposing the TECO petition for a base rate and service charge increase.

One of the points in my correspondence was that TECO needed to tighten their belts and look for ways to cut their costs internally and become more efficient. I have done some research and I was appalled to discover the compensation (base pay, bonus, stock awards and "other") paid to the executives at TECO in 2012. John Ramil, President and CEO was paid \$4,209,890 total compensation. His bonus and non-equity incentive compensation totaled \$631,074 or 84% of his base pay. Gordon Gillette, President was paid \$1,595,167 total compensation. His bonus and non-equity compensation totaled \$852,777 or 62% of his base pay. This is outrageous to say the least. The utter gall to request customers pay more is beyond my comprehension. TECO needs to be held accountable for the manner in which they run their business. They should not be allowed to gouge their customers by paying extravagant executive compensation and then ask for more funding. How can the Commission, with a clear conscience, approve TECO's petition?

Sincerely,

Shawna Senko

Dear Commissioner Brown,

Mr. J.R.Kelley gave me your name and address to voice my opinion on the above mentioned subject.

I feel Tampa Electric has no need to raise the rates for their service. It is a real hardship for us elderly to make ends meet as it is and an increase of this nature will force some to choose between food, rent or medicines. If at all possible, please vote down this issue when it comes before the Board within the next week or so. I'm sure many people will thank you for taking that action.

Most sincerely,
Ms. Beverly Dunn

Hi my name is Marvin Killebrew and I am on sad and cannot afford a electric increase when gas went up to \$4 gallon they increase when gas went down it stayed the same customer charge went up. And over 1000kwh cost more compare 1000kwh to 1600kwh. When digital meter installed readings went up 2 to 4kwh for every month compared to last year. I cannot run a/c until 9-11pm and turn off at 6am. If you get behind they charge interest if you have a credit they don't pay you. There are 4 families close to me that had power turned off. If we have trouble paying now how can we pay more? A few months ago I had a credit and was charged a \$5 late fee it took a while and they credited back. How many people didn't catch that? If increase make it at 2000 kwh. I already have to pay 60% more on my disability insurance because they can as I was told. 960 doesn't go far. Please help thank you.

Subject: Power companies request rate hikes

Dear Chairman and commissioners, it has come to my attention that Duke Energy (along with Tampa Electric) are requesting of you a rate hike. I happen to live in Clearwater, FL where this rate hike would apply. I humbly request you deny there rate request and until such time make them apply a rate credit to all customers until the funds which were paid by people like me to build and repair nuclear power plants which were never to be built is completely paid back. I understand the credit is a little much but please do not allow them to continue to gouge us customers whose only voice is you. You have the power to say no, and I implore you to please do so, let them know Florida is not a push over state.

Article in Tampa Bay Business Journal Where I learned of this Hike
http://www.bizjournals.com/tampabay/blog/morning-edition/2013/09/power-companies-request-rate-hikes.html?ana=e_tbay_rdup&s=newsletter&ed=2013-09-03

A must read article on the fail nuclear power plants that I am sure your already aware of

To Anna Cole,

I'm writing in response to Tampa Electric
wanting to raise our rates.

Like hundreds of Seniors I'm on a fixed
income and having a hard enough
time paying bills.

This raise will hurt all of us not
just seniors but young families with
Children who are struggling just to
put food on the table

What's Teco going to do when seniors
drop dead in the summer from the heat
because they can't afford to run their air?

We need someone to stand up for us.

I beg you please don't let Teco raise
the rates again.

Thank you

P. Dodson of Auburndale FL.

Dear Ms. Cole:

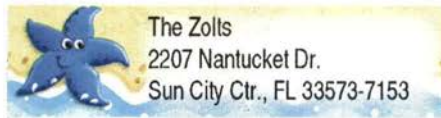

Re: Docket #130040-E1

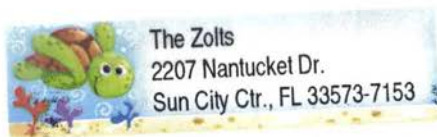

According to a notice we received from TECO your company is going to ask for a rate increase. As a consumer of electricity we certainly object to any increase. From everything we have been reading we will be charged for nuclear power plants that may and probably will never be built.

We know you have investors and stock holders who benefit from rate increases. Please consider the consumer who has to deal with rising costs all of the time.

Sincerely yours,

Anne & Morris Zolls

8/30/13

Dear Ann Cole Director:

To my understanding a hearing will be held before The Florida Public Service Commission regarding Tampa Electric Company's request for increase To its base rates and "miscellaneous" service charges.

The case has been assigned, Docket NO 130040-EL by the FPSC.

No request on their part for increase since 2008. But my Electric bill is high compared To other homes exactly built as mine. I know There are variables, but I have initiated energy alert on all my appliances. ② Extra installation in garage attic and home. ③ Furnace regularly serviced and checked. ④ Summer Temp kept @ 80 - winter Temp Low seventies.

I find them difficult and poor customer relation Service. You are unable To contact a human person. One Time I was so angry - Time spent on contacting - Them on a problem. Frustrated I called my Congressman Very quickly a human voice phoned me from Electric Co.

I am 87 yrs old - alert - active - Significant driver - drive @ night - Retired Registered Nurse - Timely pay my bills. One Time over a holiday, my bill arrived 1 day late, they penalized - me. Not my fault, mail problem. After 13 yrs retirement here, they listed

The penalty. Words To me, because of my good record,
"This Time, but do not let it happen again!"

We have many, many electric interruptions. some Times
long period of Time. 5 clocks To reset Each Time, Flash
lights To find, garage doors unable To open. life becomes
a stand still.

Tampa Electric, has a corner on the world.

With an increase can you imagine, my "bill" on a fixed
retirement income!

I find them unfriendly and difficult, staff
need PR Training, as well as their CEO.

Thank you -

Sincerely

Florence B. McDermott

Re: Tampa Electric Company Rate Petition (Docket No. 130040)

Dear Ms. Lynne:

Thank you for your recent e-mail to the Florida Public Service Commission (PSC). To give Commissioners and staff an opportunity to review and understand your concerns about the rate increase petition filed by Tampa Electric Company (TECO), I have placed your e-mail on the correspondence side of the docket file.

The PSC encourages customer participation and held customer service hearings in TECO's service territory. All customer comments during the hearings and customer correspondence, including yours, will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on TECO's proposed rates.

TECO's rate case hearing before the PSC begins September 9 in Tallahassee. Witnesses from the utility, the Commission staff, and the Office of Public Counsel will present testimony, introduce exhibits, and be cross-examined before the Commissioners. Commissioners will review TECO's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

After the rate case hearing dates are scheduled, you can find them on the Commission Calendar at: <http://www.floridapsc.com/agendas/pdf/calendar.pdf>, and you can view the hearing at the following link: <http://www.floridapsc.com/agendas/audiovideo/index.aspx>.

PSC hearings and events are archived and available for three months following their conclusion and can be viewed at: <http://www.floridapsc.com/agendas/audiovideo/archives/>.

Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. In its petition, TECO said its rate adjustment is needed "to enable TECO to continue to provide safe, reliable, and adequate electric power and to meet its customer needs while maintaining its financial integrity." The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for TECO to deliver quality electric service to your home or business.

Thank you again for your correspondence, and if you have additional questions or need further assistance, please call our toll-free number, 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com; look for the Clerk's Office tab, then hit Dockets, and type in the TECO case number 130040. I also hope you will call me at 850/413-6107, if you need my assistance.

Sincerely,

Bev DeMello
Assistant Director

Subject: TECO rate increase

Hello,

I am a Tampa resident and I am writing to ask that you do not approve TECO's request to raise their rates by 10%. That is a substantial increase and will have a significant effect on many people's bills (and wallets), including my own. I'm already shocked by how high my TECO bill is compared to what FPL's was when I lived in Sarasota. And for other customers such as schools, USF, hospitals, etc. it will be a huge increase since they are high-use customers. With current budget concerns at many of these places (USF is cutting budgets and services right and left - they've had a hiring freeze on and off for at least a year!), which are publicly funded, it seems unwise to cause them to have to pay more for a necessity such as electricity. Ultimately this translates to less services or higher taxes, or both, and either way the citizens of Florida lose - especially if they live in Tampa since their electric bills will have gone up too!

Please do not approve this request from TECO. Just because they want more money and more profit does not mean that they need to have it now - right now is not the right time.

Thank you,
Sarah Lynne

COMMISSION
CLERK

Comment from the Green Party of Florida, Hillsborough County, about the request for base rate and service charge increases from Tampa Electric:

The Green Party of Hillsborough County opposes any increase of the base rate or service charges for Teco's electricity if no more effort is made by Teco to invest in renewable energy and in the reliability of the power grid during harsh weather.

The Greens urge the Florida Public Service Commission to demand a stronger commitment by Teco for alternative energy. Last year Teco gave 63 residential customers financial rebates. That is too little. We strongly believe there should be no limit on the number of customers who can receive financial aid for solar installations. Together with support from the state of Florida, there should be enough funding for aid for every household who wants to install a solar system.

Any rate increase should only be given following a full commitment by Teco to a new Solar Feed-in Tariff program (above the retail price) like in the city of Gainesville, Florida. This program is very successful. Further, a handful of cities like Sacramento, CA, and states like Vermont and Washington have already followed Gainesville's lead, and other states are exploring the possibilities as well. Teco with its modern on demand gas turbines is already well equipped for a higher percentage of solar power added to its grid system. On cloudy days or at night these gas powered plants could be switched on, on short noticed, essential for bigger solar and wind power systems.

Additionally, any rate increase to Teco should only be given for a comprehensive plan to put more power lines in the ground to protect it from lightning and severe weather. It is in the 21st century where we have the prediction of even more severe weather that it becomes unacceptable for customers to frequently lose power during major thunderstorm or as a result of fallen trees. In a state like Florida the unreliable power situation is a threat to our long term development. We ask the Commission to consider our comments.

Sincerely,

A handwritten signature in black ink, appearing to read "Friedemann Buschbeck".

Re: Docket #130040-EI

Ms. Cole,

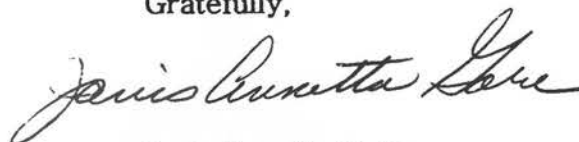

I understand you are the designated recipient of comments regarding the Base Rate and Service Charge increases requested by Tampa Electric. As I have numerous comments, I'll begin. I am the owner of two small businesses in Dade City, Florida, and reside there as well. Being the county seat of Pasco County, one might think it would be among the thriving regions in the state. However, the dreadful condition of our economy has caused sales and profits to plummet, allowing me little or no salary to speak of in several years. Operational costs are rising amid this ever-growing economic downturn, with no relief in sight. It has become most difficult to bridge this financial gap with many now living on a fixed or diminishing income; some with no income at all. Many of my fellow merchants also find themselves in the same predicament.

I fail to understand how Tampa Electric can justify, or even reasonably expect the struggling public to absorb any increase, much less one totaling \$134.8 million dollars. TECO makes this request knowing their customers are 'fish in a barrel'. I pay 3 electric bills from TECO every month, but do not have the option of comparison shopping for the best electric rates. I have no say so in my electric provider. I understand their expenses may also be on the rise, but presume the financial impact on those they employ would be less than that of the general public.

I must say I find their request unconscionable. Why should they receive a 'raise' when many of us cannot afford the basics of decent survival? Please do what you can to table this request until the economy rebounds and we can collectively support TECO as a community should.

Thank you for your time.

Gratefully,

Janis Annetta Gore

Tampa Electric seeks approval for petition to increase its base rates and service charges

A hearing will be held before the Florida Public Service Commission (FPSC) regarding Tampa Electric Company's request for an increase to its base rates and miscellaneous service charges.

The purpose of this hearing will be for Tampa Electric and other parties to the proceeding to present testimony and evidence regarding Tampa Electric's request.

The hearing will be held:

9:30 a.m., Monday, September 9 through
Friday, September 13, 2013
Betty Easley Conference Center, Room 148
4075 Esplanade Way
Tallahassee, FL 32399-0850

The case has been assigned Docket No. 130040-EI by the FPSC. Public Counsel has intervened in this docket and will represent the public at the time of the hearing. The Public Counsel representative may be contacted prior to the hearing at 111 West Madison Street, Room 812, Tallahassee, FL 32399-1400, or by phone at 1-800-342-0222.

Tampa Electric has requested a \$134.8 million increase in base revenues and miscellaneous service revenues. Tampa Electric has not requested a base rate increase since 2008.

Written comments regarding the request for base rate and service charge increases may be sent to the Commission at the following address:

Ann Cole, Director
Office of Commission Clerk
Florida Public Service Commission

Dear Ms. Cole:

I'm writing to voice my strongest opposition to the proposed \$134.8 million increase in Tampa Electric base revenues.

For years TECO has promoted energy saving measures with its customers, many of which have cost customers hundreds of thousands of dollars, such as new windows, increased insulation and a myriad of other renovations, products and energy saving tips. Now we're told that these very power saving measures are the cause of decreased revenues at TECO and the principal rationale for their requested rate increase. I also don't care to hear about their wonderful record at providing us reliable power; that's like a restaurant patting itself on the back for not giving its customers food poisoning – it's your job.

If the TECO rate increase is approved, which I suspect it will be, please ask them to refrain from sharing their energy saving tips with my family, we won't be participating, since it is obviously counterproductive and only serves to benefit the power company.

Sincerely,

Donald Gunn

RE: Docket No. 130040-EI

Dear Ms. Cole::

Regarding the above captioned docket requesting Tampa Electric seeking approval for petition to increase its base rates and service charges, I humble request DENIAL of this increase.

I need not remind you that the State of Florida is the "home away from home" of thousands of Senior Citizens. As you undoubtedly know, most of us live on Social Security and I am certain you are aware we have not received an increase in our check in quite some time. Prices of everything have increased, interest rates on our other savings have been very low for a long time, insurance rates are skyrocketing, and we are unable to go out and "get a job" to make up this deficit. We have increased medical needs due to our age, but the most insulting thing is the "government" has been taking funds out of our Social Security Funds for years.

If Tampa Electric was managing their business properly and not paying their officers such enormous salaries, I feel certain they could make a reasonable profit. Somewhere along the line, they are doing something wrong as they definitely have a commodity that their users cannot live without. From having worked for one company for thirty-three and one-half years, I know from experience this is the problem.

Please remember the "little old gray-headed men and women" living on small, hard-earned dollars when you all make your decision.

Sincerely,

Zanita T. Chastain

RE: Docket No. 130040-EI

Dear Ms. Cole:

I am opposed to TECO's petition to increase its base rates and service charges.

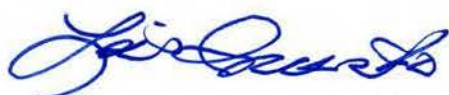

The information I received with my February 2013 TECO bill stated that they would be seeking about a 10% increase in residential rates - an increase of about \$11 per month for the average residential customer who uses 1,000 kilowatt hours a month.

I can't afford any increase in electrical rates. I am a retired 63 year old who survives on a fixed income. I make every effort to keep my electrical costs down. My thermostat is set at 80 in the summer and 62 in the winter, I use a light with a 25 watt bulb, candles at night and my tv is energy efficient. If I do read, my lamp has an energy efficient bulb. Even with this, my bill in the summer months is around \$90 per month. I don't have any "extra" money in my budget to pay for an increase in my electricity. I can't even afford health, dental or vision insurance. If the increase is approved, the only item I can cut back on would be food.

TECO says they haven't requested a rate increase since 2008 as if rationalizing their current petition. Rather than looking for more revenue from their customers, they need to tighten their belts and look for ways to cut their costs internally and become more efficient.

I watch the Florida Channel daily and have seen your hearings for rate increases. I don't recall ever seeing a hearing where the Commission denied a rate increase. I have no doubt this letter or the concerns of other Floridians opposing this increase will make any difference in the Commission's decision but at least I've advised you of how this increase would have a negative impact on my life based on my economic situation.

Sincerely,

Incerto

To The 12 Above Listed Persons:

Please be advised that this e-mail letter serves as Official Notice that I 100% Disapprove of Tampa Electric's Request For Petition To Increase Its Base Rates And Service Charges. The Hearing regarding this is to start on Monday 9-9-2013 and if I could attend I would but I live in Seffner, Florida hundreds of miles away. Since I can not attend the Hearing in Tallahassee I am asking Ms. Ann Cole, Director of the Office of Commission Clerk for the Florida Public Service Commission, Commissioner Brise, Commissioner Balbis, Commissioner Edgar, Commissioner Graham, Commissioner Brown, Mr. J.R. Kelly, Public Counsel to enter my comments and 100% disapproval for rate increase in the Official Records for FPSC Docket No. 130040-EI and to be heard at the hearing commencing on 9-9-2013.

Also I would like to state that I have been a Tampa Electric customer for 21 years, since 1992, and have always paid my bill on time and in full. Since Tampa Electric's rate increases over the years the company has received more money and has continuously cut its services to its customers. The company has gotten rid of all of its payment centers and has cut its call center

Shawna Senko

staff to bare minimum so that the average hold time for any type of call has a 40 minute plus hold time. In addition I have verified that Tampa Electric no longer posts its own payments and that they subcontract this service to another company. Mail payments very often take up to 2 weeks to post to an account. No other bills that I pay by mail take as long as Tampa Electric yet Tampa Electric has the closest payment address of all the bills I pay.

More over, I would like to state in this e-mail letter that I am requesting the immediate assistance of my Florida State Senator Mr. Tom Lee and my Florida State House Representative Mr. Dan Raulerson, who have jurisdiction over the Florida Public Service Commission. This is due to my very negative experience in contacting the Office of Commission Clerk for FPSC in Tallahassee. I called this office on 8-26-2013 and I asked to speak to Ann Cole, Director, to verify proper procedure for having my comments for the 9-9-2013 hearing officially entered into the docket records but I was told by these 3 clerks Ms. Kate B., Ms. Hong Wang, and Ms. Dorothy Menasco that Ms. Cole was out of the office and they did not know when she would be back. Also all 3 clerks could not verify what was proper procedure to have my comments officially entered into the hearing records. Their tone and lack of concern to assist me was the most unsettling. Is not one of the missions of the FPSC to assist the public in these matters????!!

Dear Director Cole:

I want it to be on the record that I oppose Tampa Electric Company's petition for increases in base rates and service charges.

This is not TECO's first request this year for increases. Earlier this year TECO requested increases in customer's energy and fuel charges, the result of which are still unknown due the PSC's apparent reluctance to keep the public informed.

When the arithmetic was done on the requested changes, the increases came out to be more than double TECO's advertised percentages.

As a senior on a limited income I would have been ecstatic to have gotten double digit increases in my pensions over the past few years.

Make TECO tighten its "belt" like most of its customers have had to do lately. If rate increases must be given, the increases should only be equivalent to recent CPI increases.

Sincerely,

Richard Formica

Docket No. 130040-EL

Dear Members of the Florida Public Service Commission:

I am writing to request you turn down Tampa Electric's request for a \$134.8 Million rate increase and deny any increase in the current fees the utility charges.

Tampa Electric already charges a significant amount of fees on their bills, and their electric rates are among some of the highest in the country. Any increase will put most people like me that are on a fixed income in financial peril. The utility needs to be more efficient with their current resources, instead of charging customers more for less service.

I respectfully urge you to deny ANY fee and / or rate increase to Tampa Electric.

Sincerely,

Patrick Reynolds

Re: Docket No. 130040-EI

Dear Ms. Cole:

I am writing to express my concern and dissatisfaction with TECO's current petition to increase rates, as well as their current substandard service, not to mention their questionable miscellaneous billing practices. It is highly concerning that they are requesting a rate increase when their Quarterly CapEx is 23 million higher than previous one, and their current service lacks the ability to deliver consistent service without voltage fluctuations and outages. Over the last several months we have been experiencing frequent and sporadic power failures, to the point that these outages and spikes were the root cause of the card failure in our refrigerator. These spotty and frequent outages caused the card and compressor to fail and required us to undergo expensive repair and eventually replacement of our unit to the tune of \$1,800.00.

In addition to this we also have TECO Gas servicing our Home because of a builder installed Water Heater and Pool Heater for this subdivision. It is very concerning to have to pay \$10.50 a month for TECO electric and \$15.00 a month for TECO Gas just to be listed as a customer in their records when it's basically the same company. In fact, the TECO gas invoice is between \$22.00 to \$29.00 a month on the average....however, more than **half of the invoice** is attributed to a HEFTY \$15.00 customer charge just to do business with this monopoly. This is nothing short of corporate extortion in my opinion. Where is the protection for consumers in this practice? As the regulators you *Stand for what you Tolerate* and are part of the problem when it come to allowing continual unsubstantiated rate increases from these cash healthy utility companies.

The company enjoys many breaks (tax related) and enjoys virtually a free reign in the market with no real fear of competition. I see that they publish many articles that indicate where they are in terms of assets, continued customer growth, acquisition of new territories and such, perhaps some downturn of revenue but that is mainly seasonal and quickly recovers as demonstrated in their consistent increased revenue readouts to the street. Capital expenditures are up about 23.1 million, which should pay back dividends into Q4 and 2014. **So why do they need a rate hike??** They don't and should not be granted one. The company is very solid compared to most other

companies. In fact, what they don't publish is their SG&A which is most likely driving down the Gross Profit, this is truly where their real opportunity is, as with most of the utilities. By taking corporate responsibility and working to reduce their Operating costs/COGS, and reducing SG&A redundancy within the recent acquisitions that they have undergone, the company can increase OI. Like all other companies these days, TECO Electric and TECO Gas should be looking to minimize direct and indirect labor, streamlining their Organizational Structure and cut some of the millions they spend lobbying. Executive compensation should also be scrutinized prior to any rate increases. Their balance sheet should be optimized in wages and benefits for executives as well as generous bonus incentives, these should to be capped and monitored. Just look at some of the facts below and see if this company truly deserves another increase, by their own admission:

Energy utility **TECO Energy Inc.** announced second-quarter 2013 operating earnings of 25 cents per share or net income of \$53.4 million. This demonstrates a Positive Revenue gain. Total revenue at TECO Energy at the end of the second quarter was a **positive \$735.9 million, nominally missing the Zacks Consensus Estimate of \$736 million.**

Cash and cash equivalents of the company as of Jun 30, 2013, were \$153.3 million; **Capital expenditures were up** in the reported quarter totaling \$146.6 million, up from \$123.5 million spent in the second quarter of 2012. TECO has recently added just over half a million subscribers by purchasing **New Mexico Gas**. In simple terms, they can now charge these customers 15.00 a month just to do business with TECO like they do all of their FL customers, before service related charges! This is a Net gain of 7.6 Million monthly, 91.6 million annually. In ten years the purchase of New Mexico Gas would pay for itself just on subscriber fees alone.

TECO made the decision to spend money, which will drive ROI in the long term, unless these funds were utilized without a solid business case, which is highly unlikely. Long-term debt as of Jun 30, 2013, was \$2.9 billion, **marginally lower** than the 2012 year-end level of \$2.97 billion.

TECO Energy maintained its 2013 earnings per share expectation in the range of 90 cents to \$1.00.

Peoples Gas expects to earn above the mid-point of its allowed return on equity (ROE) range of 9.75% to 11.75%. The segment expects to benefit from moderate customer growth and customer switching from other sources of fuel to natural gas.

Tampa Electric expects the year-to-date trend of customer growth to continue but sales growth is expected to be lower than the increase in customer count. This is primarily

due to lower average customer usage as customers are trying to REDUCE their bills.

TECO Energy maintained its customer growth trend for both electricity and gas from the prior quarter. In the reported quarter, Tampa Electric and People Gas recorded **customer growth** of 1.4% each year over year. Despite an increase in customer count, operating revenues from Tampa Electric fell by 7.7% year over year while People Gas recorded an operating **revenue increase** of 7.0%.

In closing, TECO overall is a very healthy company and we cannot base rate increases on their C-Level's ability or inability to properly forecast earnings based on market conditions. Regardless, if they miss a projection but remain positive in revenue, it is ultimately the CEO and CFO's responsibility to perform root cause to explain why they missed these projections, and not be used as a reason for rate increases.

Though the decline in electricity revenue was primarily due to lower usage by residential and commercial customers, TECO sources state that they are not entirely disappointed as the increase in customer count indicates a gradual recovery in the Florida economy. So it's going to get better, No need for a rate increase. I vote NO.

Sincerely,

Jorge L. Leon

RE: Docket No. 130040-EI

Dear Director,

My name is Theodora Morgan and I am one of the thousands of people living in Tampa, Florida with limited budget - I am retired - and we all hurt especially the middle class with so many years of bad economy. And here comes a large Company like TECO-Tampa Electric Company- to ask for a 134.8 million increase, money which are going to come out of our almost empty pockets to add to existing big, fat CEO's check and they disregard, how are going to make ends meet living.

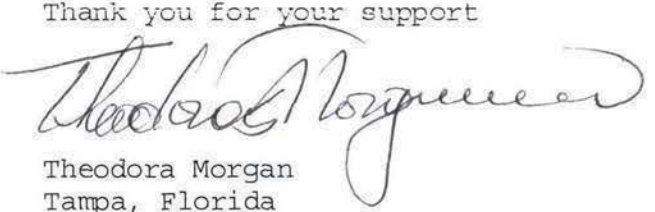

If you look at a monthly bill you are going to see how much already are extracting from each one of us.

PLEASE, we need your full support to this very important matter.

We hope, that you will represent us-the public- that we are hurting from every direction. There is no way out, when big Corporation like TECO-TAMPA ELECTRIC-ask for an astronomical amount of money increase.

PLEASE, represent us in good faith, stand-up for our Public rights and let our voices be heard thru YOU.

Thank you for your support

Theodora Morgan
Tampa, Florida

Re: TECO's Petition(s) for increase of base rates and service charges - Docket No. 130040-EI

Dear Sir(s) and/or Madam(s):

As a resident of Hillsborough County, Tampa, Florida, serviced by TECO, I hereby OBJECT to TECO's petition(s) for a \$13.8 million increase in its base services and miscellaneous service revenues. I do not care that they have not requested a base increase since 2008. In this economy, Florida residents should not be burdened with increased electric bills. Also, it seems to me that there could be great possibility for abuse and unwarranted or hidden increases in the miscellaneous service charges category, e.g. adding small dollar amounts to added sub-categories of miscellaneous charges, which, in effect, could be greater than any base rate or proposed base rate increase.

In any event, I OBJECT and OPPOSE this.

Tampa Electric seeks approval for petition to increase its base rates and service charges

A hearing will be held before the Florida Public Service Commission (FPSC) regarding Tampa Electric Company's request for an increase to its base rates and miscellaneous service charges.

The purpose of this hearing will be for Tampa Electric and other parties to the proceeding to present testimony and evidence regarding Tampa Electric's request.

The hearing will be held:

9:30 a.m., Monday, September 9 through
Friday, September 13, 2013
Betty Easley Conference Center, Room 148
4075 Esplanade Way
Tallahassee, FL 32399-0850

The case has been assigned Docket No. 130040-EI by the FPSC. Public Counsel has intervened in this docket and will represent the public at the time of the hearing. The Public Counsel representative may be contacted prior to the hearing at 111 West Madison Street, Room 812, Tallahassee, FL 32399-1400, or by phone at 1-800-342-0222.

Tampa Electric has requested a \$134.8 million increase in base revenues and miscellaneous service revenues. Tampa Electric has not requested a base rate increase since 2008.

Written comments regarding the request for base rate and service charge increases may be sent to the Commission at the following address:

Ann Cole, Director

TECO to purchase New Mexico gas company

By Business Observer - Tuesday, May 28, 2013

TAMPA — TECO Energy has entered an agreement to purchase New Mexico Gas Co. in a deal valued at \$950 million, it announced in a news release.

for
INCREASED RATES

In the deal, scheduled to close in the first quarter of 2014, TECO Energy (symbol: TE, recent price: \$17.92) will acquire New Mexico Gas Co. for \$750 million and assume \$200 million of its debt. According to the release, TECO Energy will finance the acquisition with a combination of equity, cash and long-term debt at the New Mexico company. New Mexico Gas Co. is owned by Continental Energy Systems LLC and its subsidiary, New Mexico Gas Intermediate.

With about 740 employees, New Mexico Gas Co. serves approximately 509,000 customers, mostly residential, in 23 of New Mexico's 33 counties. After the acquisition, TECO Energy subsidiaries will serve more than 1.5 million regulated electric and gas utility customers in Florida and New Mexico. The New Mexico firm had EBITDA of \$86 million in the 12 months ending Jan. 31, according to the release.

John Ramil, TECO Energy's president and CEO, says the acquisition is a big step in growing the company. "We are adding 50% to our customer base in a single transaction, and we expect it to provide opportunities for future growth in an attractive Sunbelt location," Ramil says in the release. "It will increase the percentage of earnings from regulated operations and reduce earnings volatility."

Ramil says in the release his firm also has a good track record in successful acquisitions, with its purchase of Peoples Gas in 1997 and several other smaller subsidiaries since then.

TECO Energy serves utility customers through its principal subsidiary, Tampa Electric Co., which is a regulated utility in Florida with electric and gas divisions. The company also owns and operates coal-production facilities in Kentucky and Virginia through its subsidiary, TECO Coal.

Dear Mrs/Ms. Ann Cole

I Think The Rate Hike From Teco Should Be CALLED Profitable Price Gouging! They Obviously Don't Think About All The Customers Living on A Fixed income including Ours. They Charge A fortune To Turn on The Power AT The meter. Plus The Teco Fleet Vehicles Are All fairly new. Whats next A 1,000 Dollar Electric Bill EACH month To Power A Dumb Light Bulb + A Fan Because We CAN'T Afford To have Air Conditioning AT 95 Degrees in August. Or is it gonna cost 5,000 A month To Power A Coffee maker To have A Cup of Joe EACH morning. Probably 'wouldn't put it PAST Teco. I Doubt it THAT hardly Any of the 134.8 million increase in Teco Rates will ACTUALLY Go To improvements AT All. Why Don't They

Re: Tampa Electric Company Rate Petition (Docket No. 130040)

Dear Mr. Sterling:

Thank you for your recent e-mail to the Florida Public Service Commission (PSC). To give Commissioners and staff an opportunity to review and understand your concerns about the rate increase petition filed by Tampa Electric Company (TECO), I have placed your e-mail on the correspondence side of the docket file.

The PSC encourages customer participation and held customer service hearings in TECO's service territory. All customer comments during the hearings and customer correspondence, including yours, will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on TECO's proposed rates.

TECO's rate case hearing before the PSC is scheduled to begin on September 9 in Tallahassee. Witnesses from the utility, the Commission staff, and the Office of Public Counsel will present testimony, introduce exhibits, and be cross-examined before the Commissioners. Commissioners will review TECO's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

After the rate case hearing dates are scheduled, you can find them on the Commission Calendar at: <http://www.floridapsc.com/agendas/pdf/calendar.pdf>, and you can view the hearing at the following link: <http://www.floridapsc.com/agendas/audiovideo/index.aspx>.

PSC hearings and events are archived and available for three months following their conclusion and can be viewed at: <http://www.floridapsc.com/agendas/audiovideo/archives/>. Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. In its petition, TECO said its rate adjustment is needed "to enable TECO to continue to provide safe, reliable, and adequate electric power and to meet its customer needs while maintaining its financial integrity." The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for TECO to deliver quality electric service to your home or business.

Thank you again for your correspondence, and if you have additional questions or need further assistance, please call our toll-free number, 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com; look for the Clerk's Office tab, then hit Dockets, and type in the TECO case number 130040.

Sincerely,

Bev DeMello

Re: Tampa Electric Company Rate Petition (Docket No. 130040)

Dear Ms. Baldini-Chavez:

Thank you for your recent e-mail to the Florida Public Service Commission (PSC). To give Commissioners and staff an opportunity to review and understand your concerns about the rate increase petition filed by Tampa Electric Company (TECO), I have placed your e-mail on the correspondence side of the docket file.

The PSC encourages customer participation and held customer service hearings in TECO's service territory. All customer comments during the hearings and customer correspondence, including yours, will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on TECO's proposed rates.

TECO's rate case hearing before the PSC is scheduled to begin on September 9 in Tallahassee. Witnesses from the utility, the Commission staff, and the Office of Public Counsel will present testimony, introduce exhibits, and be cross-examined before the Commissioners. Commissioners will review TECO's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

After the rate case hearing dates are scheduled, you can find them on the Commission Calendar at: <http://www.floridapsc.com/agendas/pdf/calendar.pdf>, and you can view the hearing at the following link: <http://www.floridapsc.com/agendas/audiovideo/index.aspx>.

PSC hearings and events are archived and available for three months following their conclusion and can be viewed at: <http://www.floridapsc.com/agendas/audiovideo/archives/>. Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. In its petition, TECO said its rate adjustment is needed "to enable TECO to continue to provide safe, reliable, and adequate electric power and to meet its customer needs while maintaining its financial integrity." The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for TECO to deliver quality electric service to your home or business.

Thank you again for your correspondence, and if you have additional questions or need further assistance, please call our toll-free number, 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com; look for the Clerk's Office tab, then hit Dockets, and type in the TECO case number 130040.

Sincerely,

Bev DeMello
Assistant Director

To: Whom it concerns

I don't think Teco need a rate increase, this past Jan. 2013 they went up on its customer service charge from 3.50 to a whopping charge of 10.50 per customer it is so many low income people in this city minimum wage earners, senior citizens, some on unemployment, some don't even have jobs. Just struggling to pay the already high electric bills.

Comments:

Please deny TECO rate increase. They are paying cash (\$900M) for a gas company.

Why 10% for consumers and 6% business?

Heck, 10% is a nice round number.

Subject: Teco Rate Increase

Dear Public Service Commission:

Teco is a monopoly.

1.They are asking for a 10% rate increase on consumer accounts and a 6% increase on business accounts. Does the power come from the same well? Why would a business get a pass on the full increase?

2. Teco is attempting to purchase a large power company in Arizona. This has been reported to be a cash purchase

Teco announced plans to purchase a New Mexico natural gas company in a deal valued at \$950 million, the largest acquisition in the utility's history. This includes purchasing a 200 million debt.

Seems that Teco is very profitable and as a monopoly, why the rate increase?

Sincerely

Brian Tozier

Subject: Just a bad idea

There is no other utility - entity - government office - or corporation that can justify raising their rates 10% and have everyone just high-five and swallow it. If you allow TECO to do this it will negatively impact the lives of so many people. As a small business owner I can honestly say that it will probably put me out of business, even at 6%. Do the math. I take a 10% hit at home as well? How is that OK? Can the state of Florida absorb the loss of revenue so that TECO can be yet more profitable?

Are they losing money right now? I am going to bet that they aren't.

TECO takes liberties that should be illegal. They operate under an entitlement mentality, when they really haven't done anything special. And to make matters worse, they pollute the environment while they hide behind manatee preservation. They are not good neighbors.

And it's not like we have a CHOICE who to do business with. Please **do not** allow this to happen.

Dear Ms. Johnson:

Thank you for your recent e-mail to the Florida Public Service Commission (PSC). To give Commissioners and staff an opportunity to review and understand your concerns about the rate increase petition filed by Tampa Electric Company (TECO), I have placed your e-mail on the correspondence side of the docket file.

The PSC encourages customer participation and recently held customer service hearings in TECO's service territory. All customer comments during the hearings and customer correspondence, including yours, will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on TECO's proposed rates.

TECO's rate case hearing before the PSC will be in Tallahassee. Witnesses from the utility, the Commission staff, and the Office of Public Counsel will present testimony, introduce exhibits, and be cross-examined before the Commissioners. Commissioners will review TECO's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

The rate case hearing dates have been scheduled. You can find them on the Commission Calendar at: <http://www.floridapsc.com/agendas/pdf/calendar.pdf>, and you can view the hearing at the following link: <http://www.floridapsc.com/agendas/audiovideo/index.aspx>.

PSC hearings and events are archived and available for three months following their conclusion and can be viewed at: <http://www.floridapsc.com/agendas/audiovideo/archives/>. Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. In its petition, TECO said its rate adjustment is needed "to enable TECO to continue to provide safe, reliable, and adequate electric power and to meet its customer needs while maintaining its financial integrity." The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for TECO to deliver quality electric service to your home or business.

Thank you again for your correspondence, and if you have additional questions or need further assistance, please call our toll-free number, 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com; look for the Clerk's Office tab, then hit Dockets, and type in the TECO case number 130040. Also, please feel free to call me directly if you have any further questions.

Sincerely,

Bev DeMello
Assistant Director

RE: Docket Number 130040-EI

I cannot believe that TECO would do this to it's customers!
I believe this should NOT be granted. Please do not give this rate increase.
At a time when so many are loosing their jobs or have not had salary increases
in several years, this would be DEVASTATING – I know it would be to us.
We would simply have to go without electricity.

Please do not grate permission for this or any increase at this time.

COMPLAINT INFORMATION

Complaint: Other Complaint against Tampa Electric Company

Details:

i am speaking out against the proposed 11% rate hike. we are on fixed incomes and this would be very detrimental to seniors:

Last month, TECO filed for a rate increase of 11 percent for residential payers – while businesses would see an increase of roughly half as much, 6 percent. If approved, the average residential customer would be required to pay an extra \$10.41 a month. The customers bill would increase from \$102.58 to about \$113 a month starting January 2014 – and that's if you only use 1,000 kilowatt hours of power per month. Use more, and your wallet could get hit harder.

Florida's official consumer advocate, the Office of Public Counsel, says this requested rate increase is "extremely high." They've vowed to fight it. AARP agrees.

Raise your voice to oppose this outrageous rate increase. You can do so in writing, or attend a public hearing. Below you will find the tentative public hearing schedule. We encourage TECO customers to voice any concerns you have about this increase by testifying at the hearings being held next week in Tampa. We urge you to speak out and to even ask your friends and neighbors to do the same.

Subject: TECO Request for \$134.8 Million Increase in Base Rate

Gentleman: Given the chronic (since 1995) problems in the Plant City, FL area with TECO power failures and disruptions in service, including minor bumps which require resetting of clocks, annoying computer issues, etc., TECO does not deserve a rate increase. They blame some of these issues on squirrels shorting out transformers. If that's the case, why do we have an abundance of squirrels in Plant City with the inordinate number of outages. I have complained to TECO often to no avail. I once complained to your organization and some bureaucrat there transferred my call to TECO - incredible. TO STAFF	CONSUMER COMMENTS
	<p>I was at the meeting on Wed. at HCC. I only had 3 minutes to speak. I would have liked to say more. I am a low-income senior. I use only a few appliances: refrigerator, washing machine, hot plate, radio, small 26" TV, etc. However, I have no other electrical or modern gadgets that take a lot of power. I am not for a rate increase as it would be a hardship. Food is expensive enough. My electric bill is was about \$31 to \$36 a month. This alone proves I save power. I should not be forced to pay higher rates if other people lived FRUGAL. They could save too. Then you would not have to go up on the rates. I used 273 avg kWh this month - so I am a good consumer. Others should be like ME and use less.</p> <p style="text-align: right;">Genevieve F. DeCilio</p>

extra info for docket (yellow)

130040-E1 Please add to sheet

6-2-13

Dear Staff

I would also like to add to the yellow sheet: I live very frugally only have a few things (appliances)

I don't have a dryer I dry on a clothes line I have a (washing machine tho).

Garbage Disposals are not necessary either, you can compost.

Dish washers also use a lot of power & water a very (precious resource). It is not so difficult to wash dishes by hand. Leaf blowers, well use a broom if it worked for people years ago why can't it still be done. So much power is being wasted mostly on all these gadgets that people "have to have". In the end what good will it be if there are power shortages. You need to get the "word" out about people saving more power and if at all possible using less. I should be rewarded for what I do, I am trying to Save the Planet. I don't have a computer so there's not much I can do. I can only write (letters the old fashion way). I had to leave the meeting early because I had to catch 2 buses to get home, I save power this way. ^{too}
Sincerely, Gordon DeClerk

Subject: TECO Rate Hike

As a citizen I just wanted to express my concerns about the TECO rate hike. With the slow economy already squeezing everyone, this would be the worst time to approve these rate hikes. I hope you all take into consideration what \$11 dollars do for some people. It can be the difference in some being able to pay their bills or not. If not then this will be forcing more people to become dependent on an already squeezed government.

Thanks for listening,
Tracey Moore

Subject: TECO Rate Hike

As a citizen I just wanted to express my concerns about the TECO rate hike. With the slow economy already squeezing everyone, this would be the worst time to approve these rate hikes. I hope you all take into consideration what \$11 dollars do for some people. It can be the difference in some being able to pay their bills or not. If not then this will be forcing more people to become dependent on an already squeezed government.

Thanks for listening,
Tracey Moore

Subject: Teco rate increase

Really?? 43%?? Teco knows it won't get that but hopes to get a substantial increase of some kind through a compromise. So they started off really high! Please, don't believe their BS. If you grant them an increase, MAKE IT SMALL!!!!

Dear Ms. Johnson:

Thank you for your recent e-mail to the Florida Public Service Commission (PSC). To give Commissioners and staff an opportunity to review and understand your concerns about the rate increase petition filed by Tampa Electric Company (TECO), I have placed your e-mail on the correspondence side of the docket file.

The PSC encourages customer participation and will hold customer service hearings in TECO's service territory. You will receive more information once the hearings are scheduled. All customer comments during the hearings and customer correspondence, including yours, will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on TECO's proposed rates.

TECO's rate case hearing before the PSC will be in Tallahassee. Witnesses from the utility, the Commission staff, and the Office of Public Counsel will present testimony, introduce exhibits, and be cross-examined before the Commissioners. Commissioners will review TECO's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

The rate case hearing dates have been scheduled. You can find them on the Commission Calendar at: <http://www.floridapsc.com/agendas/pdf/calendar.pdf>, and you can view the hearing at the following link: <http://www.floridapsc.com/agendas/audiovideo/index.aspx>.

PSC hearings and events are archived and available for three months following their conclusion and can be viewed at: <http://www.floridapsc.com/agendas/audiovideo/archives/>. Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. In its petition, TECO said its rate adjustment is needed "to enable TECO to continue to provide safe, reliable, and adequate electric power and to meet its customer needs while maintaining its financial integrity." The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for TECO to deliver quality electric service to your home or business.

Thank you again for your correspondence, and if you have additional questions or need further assistance, please call our toll-free number, 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com; look for the Clerk's Office tab, then hit Dockets, and type in the TECO case number 130040.

Sincerely,

Bev DeMello

RE: Docket Number 130040-EI

I cannot believe that TECO would do this to it's customers!
I believe this should NOT be granted. Please do not give this rate increase.
At a time when so many are loosing their jobs or have not had salary increases
in several years, this would be DEVASTATING – I know it would be to us.
We would simply have to go without electricity.

Please do not grate permission for this or any increase at this time.

CONSUMER COMMENTS

I was at the hearing in Winter Haven. I saw how every one dismissed or overlooked the disabled woman's complaint. The business owners had their concerns and facts and figures. They looked important. That poor woman who spoke from her heart had concerns that was as legitimate as those business owners, but her statements and comments were met with unconcern. I did not stand because I knew that my comment would have gotten the same lack of consideration. TECO serve have been poor in our area. Every time it rains heavy we lose power. I call and they have a recording. Ten dollars a month doesn't sound like much, but when you are on a fixed income like me, it is huge. The total amount will be more than ten dollars anyway.

CONSUMER COMMENTS

While a modest increase might be okay, an 11% increase is too high.

I receive four separate bills from TECO. None of the properties involved bring any income. An 11% increase on four different bills is not good for me.

Commissioner Brown,

Please consider voting no on the requested rate hike by TECO Electric as I believe:

Wages for a vast majority of those lucky enough to be employed are lower than years and decades past adjusted for inflation.

It is very possible those on Social Security will see a reduction in benefits due to chained CPI.

It is the wrong action to follow.

Subject: TECO rate increase request

I just have to ask how TECO can ask for a 10% rate hike starting in 2014 when they just announced the purchase of New Mexico Gas Co. at the tune of \$950,000,000? <http://www.bizjournals.com/tampabay/news/2013/05/28/teco-to-acquire-new-mexico-gas-co.html>

They ask for the increase to "offset operating costs and reduced power consumption on the part of customers". Maybe they could use the almost BILLION DOLLARS they are spending on the Gas Co to offset their operating costs. Also for years we have been told to conserve electric and we are penalized for doing so.

I hope you consider all of this and tell TECO to stop this craziness.

Thank You

Comments:

I strongly oppose TECO raising residential rates by 11%, while business rates will only be raised 6%. No rate increases is what is optimal for most struggling residents (while businesses are doing fine). However, if TECO must increase rates, then it is only fair to give businesses the exact same rate increase as residents. Most businesses already pay less in taxes than the average resident. Do they really deserve another break?

Subject: 11% Increase requested by TECO Docket#130040

Importance: High

We understand that TECO is requesting an 11% increase in rates. PLEASE DO NOT INCREASE OUR RATES. Right now, we can't afford to use our stove or run the air conditioning. We're trying to keep the bill about \$100 because that's all we can pay and sometimes we can't pay that.

My husband's work stopped, then he had

2 strokes, he's a veteran, and a senior citizen. I recently had surgery for breast cancer & radiation treatments. Just had another biopsy.

We are living on Social Security and his small pension. The price of gasoline has killed us.

PLEASE DO NOT INCREASE THE RATES.

Thank you for your consideration.

Subject: TECO rate increase

Docket # 130040:

How could Teco even ask for a double digit rate increase with most of the middle class in Florida and all of the senior citizens on subsistence level incomes? We haven't had double digit wage increases in the past ... forever.

Make them prove that the rate increase is real and realistic. Have they given their employees double digit wage increases in say the past 5 years? No one in the rest of the population has had any kind of increase.

What does the increase go to? and what are the combined salaries of the top 10 executives for TECO? Look anything like millions?

Crap my water and trash bill has doubled in the past five years. My income did not.

Make them see common sense.

FPSC, CLK - CORRESPONDENCE
____Administrative____Parties____Consumer____
DOCUMENT NO. 00695-13
DISTRIBUTION: _____

Dear Mr. Drace:

Thank you for your recent e-mail to the Florida Public Service Commission (PSC). To give Commissioners and staff an opportunity to review and understand your concerns about the rate increase petition filed by Tampa Electric Company (TECO), I have placed your e-mail on the correspondence side of the docket file.

The PSC encourages customer participation and will hold customer service hearings in TECO's service territory. You will receive more information once the hearings are scheduled. All customer comments during the hearings and customer correspondence, including yours, will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on TECO's proposed rates.

TECO's rate case hearing before the PSC will be in Tallahassee. Witnesses from the utility, the Commission staff, and the Office of Public Counsel will present testimony, introduce exhibits, and be cross-examined before the Commissioners. Commissioners will review TECO's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

The rate case hearing dates have been scheduled. You can find them on the Commission Calendar at: <http://www.floridapsc.com/agendas/pdf/calendar.pdf>, and you can view the hearing at the following link: <http://www.floridapsc.com/agendas/audiovideo/index.aspx>.

PSC hearings and events are archived and available for three months following their conclusion and can be viewed at: <http://www.floridapsc.com/agendas/audiovideo/archives/>.

Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. In its petition TECO said its rate adjustment is needed "to enable TECO to continue to provide safe, reliable, and adequate electric power and to meet its customer needs while maintaining its financial integrity." The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for TECO to deliver quality electric service to your home or business.

Thank you again for your correspondence, and if you have additional questions or need further assistance, please call our toll-free number, 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com; look for the Clerk's Office tab, then hit Dockets, and type in the TECO case number 130040.

Sincerely,

Bev DeMello
Assistant Director

Subject: TECO Rate Increase

Dear Sir or Madam,

I just heard that TECO is applying for an **11** per cent rate increase (Docket # 130040)!

I do not know about you, but my wages have not gone up **THAT** much in a long , long time.

What about the people who live on a fixed income (i.e.: social security), have their income increased that much?
In fact when you take into account social security's most recent increase **THEN** look at their increase Medicare cost, they are less that even.

Right now with the economy, I vote to hold the line and deny the 11% and if they can justify it, maybe, just maybe, a 1 or 2 percent increase at this time.

Thank you for listening and please do the right thing!

Importance: High

We understand that TECO is requesting an 11% increase in rates. PLEASE DO NOT INCREASE OUR RATES. Right now, we can't afford to use our stove or run the air conditioning. We're trying to keep the bill about \$100 because that's all we can pay and sometimes we can't pay that.

My husband's work stopped, then he had 2 strokes, he's a veteran, and a senior

citizen. I recently had surgery for breast cancer & radiation treatments. Just had another biopsy.

We are living on Social Security and his small pension. The price of gasoline has killed us.

PLEASE DO NOT INCREASE THE RATES.

Thank you for your consideration.

Comments:

I strongly oppose TECO raising residential rates by 11%, while business rates will only be raised 6%. No rate increases is what is optimal for most struggling residents (while businesses are doing fine). However, if TECO must increase rates, then it is only fair to give businesses the exact same rate increase as residents. Most businesses already pay less in taxes than the average resident. Do they really deserve another break?

Docket # 130040 TECO Rate Increase

We would like to protest vehemently against the outrageous rate hike TECO has requested. Please vote no. There are many, many people in this area who still do not have jobs, or, more importantly do not have jobs that cover their living expenses. Raising the costs of electricity is a huge body blow to thousands. Please stop this rate increase. Thank you.

Docket # 130040 or 130040-E1

I have a new business. A rate increase would impact my ability to stay in business.

TECO is only considering their bottom line, not the impact on the residential and commercial customers they serve.

I am against a rate increase at this time.

DOCUMENT NO. 00695-13
DISTRIBUTION: _____

Dear Dr. Van Eycken:

Thank you for your recent e-mail to the Florida Public Service Commission (PSC). To give Commissioners and staff an opportunity to review and understand your concerns about the rate increase petition filed by Tampa Electric Company (TECO), I have placed your e-mail on the correspondence side of the docket file.

The PSC encourages customer participation and will hold customer service hearings in TECO's service territory. You will receive more information once the hearings are scheduled. All customer comments during the hearings and customer correspondence, including yours, will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on TECO's proposed rates.

TECO's rate case hearing before the PSC will be in Tallahassee. Witnesses from the utility, the Commission staff, and the Office of Public Counsel will present testimony, introduce exhibits, and be cross-examined before the Commissioners. Commissioners will review TECO's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

The rate case hearing dates have been scheduled. You can find them on the Commission Calendar at: <http://www.floridapsc.com/agendas/pdf/calendar.pdf>, and you can view the hearing at the following link: <http://www.floridapsc.com/agendas/audiovideo/index.aspx>.

PSC hearings and events are archived and available for three months following their conclusion and can be viewed at: <http://www.floridapsc.com/agendas/audiovideo/archives/>. Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. In its petition, TECO said its rate adjustment is needed "to enable TECO to continue to provide safe, reliable, and adequate electric power and to meet its customer needs while maintaining its financial integrity." The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for TECO to deliver quality electric service to your home or business.

Thank you again for your correspondence, and if you have additional questions or need further assistance, please call our toll-free number, 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com; look for the Clerk's Office tab, then hit Dockets, and type in the TECO case number 130040.

Sincerely,

Bev DeMello
Assistant Director

Subject: rate increase

I would like to go on record that I oppose the proposed rate increase by Teco. The existing rates are already too high and with an increase the tax on this bill would also increase. Gradually, Florida is getting to be too expensive a place to live for retired people. Thank you. Harald J. Van Eycken, M.D.

Comments:

I oppose the request of Tampa Electric Co. to increase its rates. I especially object to the requested increases in the amounts of "Basic Service Charges" related to Standard Residential Rate, Residential Service Variable Pricing, Standard General Service, Non-Demand and Time-of-Day General Service, Non-Demand. Those increases will result in increases of 43%, 43%, 71% and 67% concerning the aforementioned four categories. Such increases are unreasonable, especially

in light of the increased financial obligations which consumers already have experienced because of the abysmal economy.

Complaint: Service Outage against Tampa Electric Company

Details:

Re: 130040;

Are you kidding? you want to raise cost by 11%? I have lived in New York, Los Angeles, and Albuquerque, and trust me, you are the worst service provider ever. Its like living in a 3rd world country, with power outages nearly daily. You do not deserve any additional pay for the lousy service provided.

FPSC, CLK - CORRESPONDENCE
Administrative Parties ☒ Consumer
DOCUMENT NO. 00695-13
DISTRIBUTION: _____

Dear Mr. Scarvers:

Thank you for your recent e-mail to the Florida Public Service Commission (PSC). To give Commissioners and staff an opportunity to review and understand your concerns about the rate increase petition filed by Tampa Electric Company (TECO), I have placed your e-mail on the correspondence side of the docket file.

The PSC encourages customer participation and will hold customer service hearings in TECO's service territory. You will receive more information once the hearings are scheduled. All customer comments during the hearings and customer correspondence, including yours, will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on TECO's proposed rates.

TECO's rate case hearing before the PSC will be in Tallahassee. Witnesses from the utility, the Commission staff, and the Office of Public Counsel will present testimony, introduce exhibits, and be cross-examined before the Commissioners. Commissioners will review TECO's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

The rate case hearing dates have been scheduled. You can find them on the Commission Calendar at: <http://www.floridapsc.com/agendas/pdf/calendar.pdf>, and you can view the hearing at the following link: <http://www.floridapsc.com/agendas/audiovideo/index.aspx>.

PSC hearings and events are archived and available for three months following their conclusion and can be viewed at: <http://www.floridapsc.com/agendas/audiovideo/archives/>. Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. In its petition, TECO said its rate adjustment is needed "to enable TECO to continue to provide safe, reliable, and adequate electric power and to meet its customer needs while maintaining its financial integrity." The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for TECO to deliver quality electric service to your home or business.

Thank you again for your correspondence, and if you have additional questions or need further assistance, please call our toll-free number, 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com; look for the Clerk's Office tab, then hit Dockets, and type in the TECO case number 130040.

Sincerely,

Bev DeMello
Assistant Director

Subject: Docket # 130040

Good morning,

I am writing to express my concern and opposition to Docket # 130040, the proposed rate increase. I believe that this increase is much too high for us government workers who have not seen a raise in salary for two years. I am asking that the PSC reconsider the burden they are placing on people who are working hard to support families and extended family who can't find a job in this current economy. I am 3 years away from being able to retire, but cannot due to all of the costs and this is going to make things worse.

Thank you in advance for reconsidering.

Docket # 130040 or 130040-E1

I have a new business. A rate increase would impact my ability to stay in business.

TECO is only considering their bottom line, not the impact on the residential and commercial customers they serve.

I am against a rate increase at this time.

Docket # 130040 TECO Rate Increase

We would like to protest vehemently against the outrageous rate hike TECO has requested. Please vote no. There are many, many people in this area who still do not have jobs, or, more importantly do not have jobs that cover their living expenses. Raising the costs of electricity is a huge body blow to thousands. Please stop this rate increase. Thank you.

Comments:

I oppose the request of Tampa Electric Co. to increase its rates. I especially object to the requested increases in the amounts of "Basic Service Charges" related to Standard Residential Rate, Residential Service Variable Pricing, Standard General Service, Non-Demand and Time-of-Day General Service, Non-Demand. Those increases will result in increases of 43%, 43%, 71% and 67% concerning the aforementioned four categories. Such increases are unreasonable, especially

in light of the increased financial obligations which consumers already have experienced because of the abysmal economy.

Re: TECO Rate Request
Docket # 130040

Dear Commission Members:

It is not possible for my wife and I to attend the Tampa hearing on this rate increase request, but we want to voice our opposition to it, and using this letter to do so.

TECO is a company that is responsive to customer service requests and to emergency/crisis repairs. However, a 10% rate increase at this time is far too high when residents are already struggling to make ends meet. The economy has not really recovered yet, although it is improving.

We trust that the Commission will study the financial books of TECO to determine any real need vs. the stated need for an increase. You are our "protectors" from the "monopoly" power of the utility firms.

Please earn our continued trust... once again.

Sincerely,

6615 WHITEWAY DRIVE, TEMPLE TERRACE, FL 33617 • PHONE (813) 988-8551

TECO seeking 10% rate hike

Meeting scheduled Wednesday for public comments

BY RICHARD MULLINS
Tribune staff

TAMPA — Anyone with strong opinions on Tampa Electric Co. raising power rates should mark their calendar for Wednesday.

TECO is hoping to raise rates by about 10 percent a month in January, and the Florida Public Service Commission is hosting a public forum to collect comments on the issue.

TECO officials say they need the increase to fund maintenance on the system and new transmission lines across the region.

If approved, TECO estimates the average household that uses 1,000 kilowatts a month would see its bill jump from about \$102 to \$113. Households that use 3,000 kilowatts would see their bill jump from about \$327 to \$349.

TECO's last approved rate increase was in 2009, though customer bills were less because the cost of coal and natural gas for TECO power plants fell.

This proposed 10 percent hike is higher than other utilities have received lately, said J.R. Kelly, who heads Florida's Office of the Public Counsel. Commercial and industrial customers would see increases of about 6 percent.

Carmen Whitten of Tampa took a resigned tone about the

Have your say

The Florida Public Service Commission will collect public comments on TECO's request for a rate hike. The meeting will be at 6 p.m. Wednesday at Hillsborough Community College, Dale Mabry Campus, DSTU Building, Room 111, 4001 W. Tampa Bay Blvd.

rate request.

"They're going to get what they ask for," she said while working in a Tampa landscaping store. "When's the last time any company lowered their prices because that's what the people asked for? Power companies and politics are the same."

Her electric bill is lower than years past, but only because she uses two window air conditioners. She remembers growing up in Florida and going to school before they had air conditioners, so she's accustomed to the heat.

"It's not like there are two electric companies here to compete," she said. "It's a monopoly."

TECO has about 687,000 customers in Hillsborough and portions of Polk, Pasco and Pinellas counties.

The PSC would have to approve any changes to TECO's rates for residential customers.

Comments:

I am not in favor of the 2014 11% TECO rate increase re: 130040. This is exorbitant, esp. for seniors on fixed incomes.

RE: *Tampa Electric's Rate Petition, Docket #130040*

Dear Ms. Wehlau:

Thank you for your recent e-mail to the Florida Public Service Commission (PSC). To give Commissioners and staff an opportunity to review and understand your concerns about the rate increase petition filed by Tampa Electric Company (TECO), I have placed your e-mail on the correspondence side of the docket file.

The PSC encourages customer participation and will hold customer service hearings in TECO's service territory. You will receive more information once the hearings are scheduled. All customer comments during the hearings and customer correspondence, including yours, will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on TECO's proposed rates.

TECO's rate case hearing before the PSC will be in Tallahassee. Witnesses from the utility, the Commission staff, and the Office of Public Counsel will present testimony, introduce exhibits, and be cross-examined before the Commissioners. Commissioners will review TECO's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

After the rate case hearing dates are scheduled, you can find them on the Commission Calendar at: <http://www.floridapsc.com/agendas/pdf/calendar.pdf>, and you can view the hearing at the following link: <http://www.floridapsc.com/agendas/audiovideo/index.aspx>.

PSC hearings and events are archived and available for three months following their conclusion and can be viewed at: <http://www.floridapsc.com/agendas/audiovideo/archives/>. Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. In its petition, TECO said its rate adjustment is needed "to enable TECO to continue to provide safe, reliable, and adequate electric power and to meet its customer needs while maintaining

its financial integrity." The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for TECO to deliver quality electric service to your home or business.

Thank you again for your correspondence, and if you have additional questions or need further assistance, please call our toll-free number, 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com; look for the Clerk's Office tab, then hit Dockets, and type in the TECO case number 130040.

Sincerely,

Bev DeMello
Assistant Director

I would like to go on record that I oppose the proposed rate increase by Teco. The existing rates are already too high and with an increase the tax on this bill would also increase. Gradually, Florida is getting to be too expensive a place to live for retired people. Thank you. Harald J. Van Eycken, M.D.

To: Governor Rick Scott
Subject: TECO rate hikes

From: Rod Troutman <rttroutman123@outlook.com>

County: Hillsborough

Zip Code: 33572

Message Body: Governor Scott,

I am a fan of yours and **hope** to see you reelected. My issue is this. I just received my bill and was notified by TECO that they will be raising residential bills 10% in January, '14. This is unacceptable pressure on the consumer. Following is their wording.

"Your e-Bill electric statement is now available for viewing. Just click on the link <http://tec.inetbiller.com> to receive and pay your bill.

Rate adjustment request

On April 5, 2013, Tampa Electric filed its formal request with the Public Service Commission to raise residential rates by about 10 percent in January 2014. Typical commercial and industrial customers would see increases of about 6 percent.

If the adjustment is approved, Tampa Electric's residential bills would remain among the lowest in the state. Visit Tampa Electric's About Your Rates page for more information about the rate adjustment and to view important information about your rates."

Unbelievable that they would attempt to do something of this magnitude or that our government would even think of approving. PLEASE revisit this and offer them the opportunity to get the same raise that most consumers have received over the past few years with ranges from 0 to 2 or 3 %. I cannot imagine the impact on hundreds of thousands of retirees much less the general population. Please consider.

Sincerely, a very concerned retiree.

Mr. Rod Troutman
rtroutman123@outlook.com

Dear Mr. Troutman:

The Governor's office forwarded a copy of your E-mail regarding Tampa Electric Company (TECO) to the Florida Public Service Commission (PSC). The PSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the PSC. The PSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service.

You expressed a concern about TECO's petition for a rate increase. We appreciate your comments and will add your correspondence to Docket No. 130040-EI.

If you have any questions or concerns please contact Ellen Plendl at 1-800-342-3552, or by fax at 1-800-511-0809.

Sincerely,

Randy Roland

Subject: TECO electric. Please forward to who handles this account.

To whom it may concern,

I am writing you regarding TECO electric's move to raise prices in Tampa. I believe a business has the right to change and manager there buisness freely, but the fact of the matter is there is no other option for people in Tampa then TECO and so it must be regulated to maintain the community in which it services. There practices in my own experience has been less then par on many levels and they pretty much do as they please with regards to there costumers because the cosumer has no other option. They are truly a monopoly in this area, which allows them to pay there employees ridiculously well, but also not have a need to provide proper customer service; if you can spend less then 20 minutes to navigate there automated system and talk to a rep your doing good, but they even charge the customers to pay there bill. They can and do demand deposits and raise deposits at will with no prior notice in the middle of your billing cycle or your without electricity in hundred degree weather. A company as poor to the people they service needs to be regulated. I'm not exactly sure what your department does, but if you can do an investagation to see if what I'm saying is not true. Survey the people they service. Survey there wages and work place, I know people who work there and don't want them to be paid less but they say they sit around bore and even agree with me on the subject; "but what are you gone do" I hate that we must be bullied by this company because we have no choice and truly don't think raising the price will help them provide better service to consumers. Ask anybody in the area of Tampa; TECO is a joke and myself and many others don't find it funny. Please, if there is any way you can help hard working people in Tampa please do. Thank You and please respond back if there is some else I should be sending this letter to. Thanks again

Subject: Teco Electric proposed rate increases

Ladies and Gentlemen of the Florida PSC,

I am writing this e-mail to express my opinion regarding the recent request from Teco Electric to increase base rates and other miscellaneous charges.

The company alleges they need the increases to continue to provide the necessary level of service that its customers have become accustomed to receiving. While I must admit Teco does do a good job providing service and power, the request for such increases, or any increases, leaves most customers wondering why.

We all live under the same economy, low growth, low inflation/deflation, slow wage increases and high unemployment. There is no way Teco has increases in cost. Their fuel cost is down (think natural gas) and I would bet their other cost are also down (low interest rates).

If they have a cost problem then they need to deal with it like any other industry would. Look internally to find ways to reduce cost. Look to find ways to reduce their labor, retirement and other overhead cost. Work with their vendors to obtain price reductions. Other industries do this all the time. The ability for other industries to increase pricing just doesn't exist in today's environment. What make them believe they have this ability.

I would hope they don't feel the PSC would rubber stamp their request. Or are they asking for more than they expect, knowing the PSC will give them some relief.

I hope the PSC stands up for the consumer and declines this request. You are our last line of defense.

Regards,

Charles Weymouth
Resident of the City of Tampa

Re: Tampa Electric Company Rate Petition (Docket No. 130040)

Thank you for your recent e-mail to the Florida Public Service Commission (PSC). To give Commissioners and staff an opportunity to review and understand your concerns about the rate increase petition filed by Tampa Electric Company (TECO), I have placed your e-mail on the correspondence side of the docket file.

The PSC encourages customer participation and will hold customer service hearings in TECO's service territory. You will receive more information once the hearings are scheduled. All customer comments during the hearings and customer correspondence, including yours, will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on TECO's proposed rates.

TECO's rate case hearing before the PSC will be in Tallahassee. Witnesses from the utility, the Commission staff, and the Office of Public Counsel will present testimony, introduce exhibits, and be cross-examined before the Commissioners. Commissioners will review TECO's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

After the rate case hearing dates are scheduled, you can find them on the Commission Calendar at: <http://www.floridapsc.com/agendas/pdf/calendar.pdf>, and you can view the hearing at the following link: <http://www.floridapsc.com/agendas/audiovideo/index.aspx>.

PSC hearings and events are archived and available for three months following their conclusion and can be viewed at: <http://www.floridapsc.com/agendas/audiovideo/archives/>. Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. In its petition, TECO said its rate adjustment is needed "to enable TECO to continue to provide safe, reliable, and adequate electric power and to meet its customer needs while maintaining its financial integrity." The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for TECO to deliver quality electric service to your home or business.

Thank you again for your correspondence, and if you have additional questions or need further assistance, please call our toll-free number, 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com; look for the Clerk's Office tab, then hit Dockets, and type in the TECO case number 130040.

Sincerely,

Bev DeMello
Assistant Director

Hi Bev, the below e-mail was forwarded to the docket file as protest for TECO's rate increase request. We forwarded the correspondence to the docket file and to TECO and requested they contact the customer regarding his billing concerns.
Thanks,
Ruth

COMPLAINT INFORMATION

Complaint: Improper Billing against Tampa Electric Company
Details:

Rate charges for energy per kilowatt on environmental and capacity cost recovery charges are not broken down or indicated on consumer bills in any capacity. In researching "Proposed changes to your electric base rate" via TECO pamphlet, Ive come across a difference in charges per KWH hours versus my bill. In full disclosure my bill should read all charges in which I am paying. Therefore I am against a rate increase due to undisclosed charges.

Comments:

PLEASE do NOT give TECO the 10% increase they have asked for!!!! In these tough economic times, it's all we can do to pay the outrageous electric bills we already have now, let alone have to pay more!!!

Comments:

TECO has applied for a rate increase for Hillsborough County. One of their reasons for the increase is because of "reduced power consumption". So, TECO encourages customers to conserve energy. Their customers do just that and now customers are going to get penalized? Why doesn't TECO reduce their expenses? What an outrage!
