Stylish All-in-One with Convenient Quiet Mode and My Image Garden Software

KEY BENEFITS

Auto Power On
Quickly and easily change ink and add paper all from the front of the printer.

Hybrid Ink System
Dye-based color inks for vibrant prints & pigment black ink for documents with crisp text.

Why Choose the MG2420 Over...

Deskjet 1000

Print lab quality photos at high speeds with FINE Technology.

Print those touching movie moments as photos with Full HD Movie Print (found within My Image Garden)

Print without borders, ranging from 4" x 6" up to 8.5" x 11".

EPSON® Expression XP-200

Save time. The MG2420 will automatically turn on when printing photos or documents, so you don't have to get up.

Easily scan and save photos & documents with Auto Scan Mode.

Take photos to the next level by easily organizing and printing them with cool effect from My Image Garden software.

More Benefits

- **FastFront** – Changing ink & paper is simple, since it's all done from the front of the printer.

- **Quiet Mode** – Work in a quieter environment so others aren't disturbed.

Demo Tips

Got Power?

Lower the front tray of the MG2420. Wait for the ink cartridges to move over to the left and show your customers how easy it is to replace them thanks to FastFront.

No Power? No Problem!

Point to the FINE Technology label on the top of the MG2420. Tell your customers that this patented print head technology ensures fast speed and high quality without compromising one for the other.

1 "Full HD Movie Print" is available from "MOV" and "MP4" movie files created by select Canon EOS, PowerShot, and Vixia digital cameras and camcorders. Requires PC or Mac with Intel® processor and Canon ZoomBrowser EX 6.5 or later or Canon ImageBrowser 6.5 or later for "MOV" files, or Canon ImageBrowser EX 1.0 or later for "MOV" or "MP4" files.

2 To install using Windows® OS, .NET Framework 4 is required. Compatible still image formats are PDF (created using Canon PDF Creator only), JPEG (Exif), TIFF, and PNG. Compatible video formats are MOV (from select Canon digital cameras only) and MP4 (from select Canon digital camcorders only).

3 Resolution may vary based on printer driver setting. Color ink droplets can be placed with a horizontal pitch of 1/4800 inch at minimum.

4 ISO/IEC 24734, 24735 define the default print and copy speed measurement methods. Print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734, excluding time to print the first set. Copy speed is the average of FCOT, ISO/IEC 24735 Annex D. See www.usa.canon.com/ipm for additional details.

5 Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.
