

## Dynatron D550 & D650plus Electrotherapy units

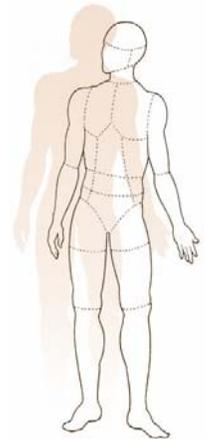

The Dynatron 550+ has **three** treatment channels: two Interferential Therapy channels and one dedicated High Volt channel.

The Dynatron 650+ has **six** treatment channels: four Interferential Therapy channels and two dedicated High Volt channels.

Also included: Target and Target Sweep features that allow focusing treatment at the site of pain.

### Features

- **Three(D550+) or Six (D650+) channels**
- **Modifiable treatment parameters**
- **Target and Target Sweep functions**  
The target feature allows to precisely position the beat frequency without repositioning the electrodes in quad-polar mode. Increases efficiency and facilitates the interferential treatment.
- **Lightweight and portable unit**  
Size: 25 x 24 x 8 cm; Weight: 2 kg (4.6 lbs)
- **Solid construction**  
Metal Case
- **Two-year warranty**
