

Features and Benefits

Advanced Firewall & Parental Control Features

Content Filtering

The Web-based user interface displays a number of advanced network management features including:

Easily applied content filtering based on MAC Address, IP Address, URL and/or Domain Name.

Filter Scheduling

These filters can also be scheduled to be active on certain days or for a duration of hours or minutes.

Network Address Translation

NAT allows you to share a single IP address and protects you from outside intruders gaining access to your private network.

More Secure Multiple/ Concurrent Sessions

Supports multiple and concurrent IPSEC and PPTP sessions, so multiple users behind the DI-604 can access corporate networks through various VPN clients more securely.

Cable Diagnostic Utility

This unique utility allows you to check the status of connected Ethernet cables through the DI-604's web browser interface. With this utility you can test a cable's connection, locate a problem along the cable's distance, and detect short/open cable pairs.

Built-In 4-Port Switch

Allows you to quickly and easily share an Internet connection with multiple computers and devices.

Ethernet Cable Included

One Ethernet cable is included with the DI-604 to get you started.

Simple Set-Up Wizard for Easy Installation

The D-Link setup wizard simplifies the installation process, getting you up and running in just a few clicks.

DI-604
4-Port Ethernet
Broadband
Router

Other D-Link products that work with the DI-604:

DFE-690TXD
32-bit Fast Ethernet
Cardbus Adapter

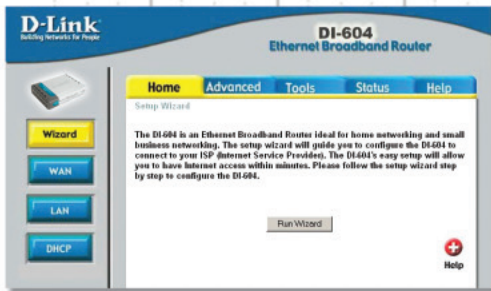

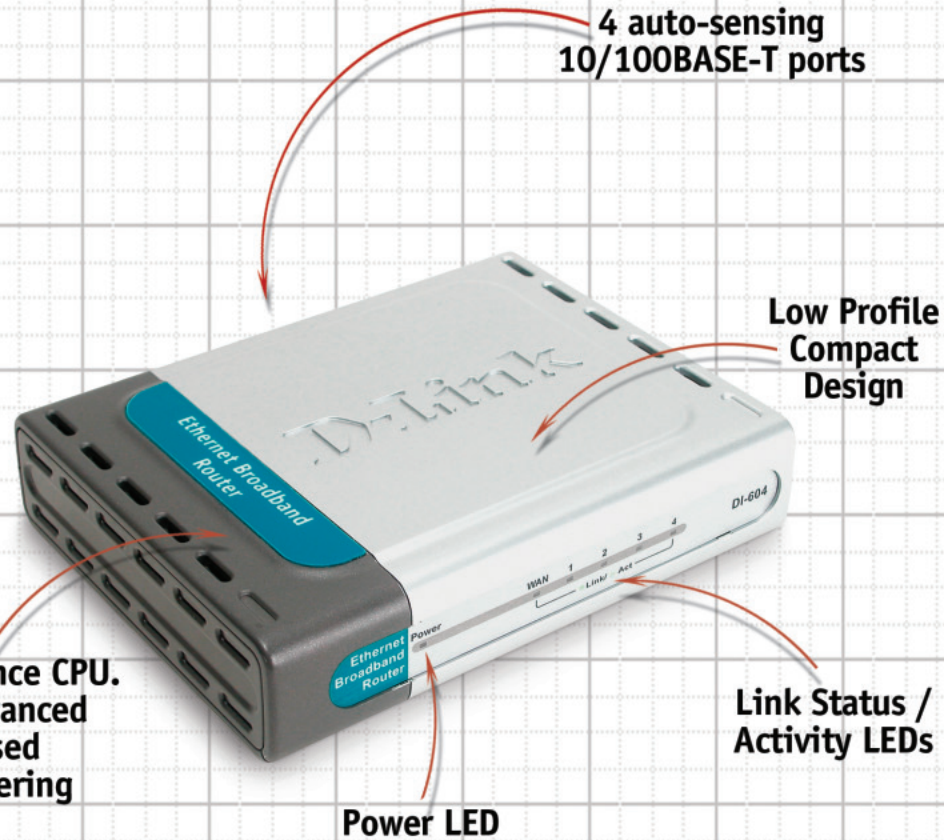

DFE-530TX+
