

Introduction

Designed for those requiring a high-quality power supply with more cooling, more performance, and much overall value, the Diablotek UL Series 775W power supply features a fan that's enlarged to cool your PC down faster while maintaining low noise. It's ideal for mainstream PC builds or power supply upgrades. Best of all, the power supply is easy to install and fits perfectly into any standard ATX case.

Highlights

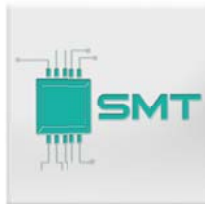

775W Power Supply

With a maximum power of 775W, it delivers more than enough power for mainstream computer systems with high quality performance.

Advanced Double Forward Circuit

Double Forward circuit offers low power loss and high efficiency and reliability.

Complete SMT Technology

Designed significantly for providing improved shock and vibration resistance, as well as reduces propagation delays and noise.

ATX12V V2.31 Compatible

Compatible with the ATX12V V2.31 standard, the Diablotek UL series 775W power supply provides maximum power stability to drive the latest Intel and AMD processors.

High Quality Components

The built-in solid high quality components strengthen the protection of short circuit, over-voltage, and over current.

Auto Thermal Control Fan

Built-in auto thermal controlled, the silent cooling 140MM ball bearing fan maximally reduce noise and keep your PC in safety guaranteed.

High Expansible connectors

The Diablotek UL Series 775W Power Supply has high expansible connector s of 4 x 6+2-Pin PCI-E, 6 x SATA & 6 x MOLEX.

High Efficiency Guaranteed

The Diablotek UL series 775W Power Supply provides high power efficiency up to 80% to save your electrical bill and prolong your pc life by reducing heat in your system.

3 Years Warranty

Diablotek provides all their UL series power supply with full 3 years warranty service.

Quick Specs

Brand: Diablotek

+12V Rails: 1

Maximum Power: 775W

SATA Connectors: 6

PCI-E Connectors: 4 x 6 + 2 Pin

Cooling: 1x 140mm Fan

Type: ATX
