Project #225 & 226
Dance StoryTeller® Photo Book:

Simplicity Scale

average per project

Easy   Very Challenging

PROJECT TIME: About 45 Min.
Commemorate a brilliant performance with an elegant, personalized photo book.

Share the memories of an unforgettable performance with family and friends with a dance-themed Storyteller Photo Book. Select the best photos from the show to tell the story and place them in this beautiful, hard-bound book that will have family and friends thinking it is a real coffee-table book! Download the FREE project files here at EpsonCreativeZone.com. Simply import the photos, add your text, print, and assemble for a dramatic presentation that will capture the spirit of the dance.

Materials Suggested:
(Not all are required) For printing: A 5"x7" or 8"x10" StoryTeller® Photo Book Creator by Epson and an Epson Stylus Photo Printer.
Dance Storyteller Pages:

Cover	*Page 1*	*Page 2*	*Page 3*	*Page 4*	*Page 5*
Page 6	*Page 7*	*Page 8*	*Page 9*	*Page 10*	*Back Cover*

Step 1: Choose your photo book size, either 5"x7" or 8"x10", to make your StoryTeller book. Note that you can choose the 8"x10" size in either a 10- or 20- page option.

Step 2: Click on the selected StoryTeller page templates you wish to include in your StoryTeller book. There are a total of 10 color and design-coordinated pages provided in each size, as well as a cover and back cover template. Open the downloaded page templates in either Adobe Photoshop or Photoshop Elements – they will be in .png format. (You can choose to print them or position them within your book in any order you please.) For printing 5"x7" books, choose the files named #225; for printing 8"x10" books, choose files named #226. Then choose the page design by the numbers shown next to each design preview.

Step 3: Copy your photos onto a new layer behind the StoryTeller template layer. Crop and/or resize to fit in the open window of the template.

Step 4: Add your journaling, captions and dates using the text tool on a new layer above the StoryTeller template layer.

Step 5: Your personalizing is complete! Print your StoryTeller pages. Remember to choose the correct paper size and paper type setting (Premium Glossy Photo Paper) in your printer driver.

Step 6: Assemble the completed StoryTeller pages following the instructions provided in the kit. For the covers, simply print a 5"x7" or 8"x10" cover using the template provided in this project and paste onto the front and back of your book (using acid-free adhesive).

Step 7: You can stop there, or you may want to add embellishments to some or all of your pages, as you wish.
