

**PRODUCT HIGHLIGHTS**

Now introducing Eureka® MyVac™, part of our top performing line of Eureka® AirSpeed® models that are proven to move more air and remove more dirt resulting in improved suction power. Now you can get the power of AirSpeed® exactly the way you want it, built by you, for you, for your unique needs. The Eureka® MyVac™ bagged upright combines exclusive AirSpeed® Technology with a hygienic Advanced Bagged System and the convenience of an automatic cord rewind.

**AirSpeed® Technology**—Unlike other vacuums, the Eureka MyVac™ has two smooth tubes, featuring limited bends and turns. This allows more air to pass through the vacuum. The direct air path from floor to cup, decreases the distance for dirt to travel, which increases the amount of airflow for powerful suction.

**Advanced Bagged System**—The easy to change bag system with the Quick-Lock™ seal conveniently keeps your home fresh and clean without the mess. The Eureka® MyVac™ features micro-allergen bags that lock in dust and allergens, making this bagged upright ideal for allergy sufferers.

**Deep Cleaning Power on Carpets & More**—Designed to deep clean carpets, upholstery and more. The Eureka MyVac™ features on-board tools, a Stair & Upholstery turbo brush, and a 27 foot cord with automatic cord rewind for quick and easy storage. This model includes a HEPA filter to eliminate 99.97% of dust and allergens for a cleaner home.

**KEY FEATURES**
