ScanSnap

I'm efficient.

ScanSnap fi-6010N
Network iScanner

Get the paperwork of an entire office organized over the network with the ScanSnap fi-6010N Network iScanner. There's never been an easier way for organizations to save time and money managing paperwork. The ScanSnap fi-6010N Network iScanner plugs right onto your network. Big buttons on the touch screen display your preset options. Touch one and paperwork becomes a digital file sent directly to a folder, email, FTP, network fax, printer, or SharePoint® Server—*anywhere on the network.* You'll have fewer misplaced documents and rushing to make an overnight drop box can be a thing of the past. ScanSnap automatic features help your office manage paperwork more efficiently. And at the *iScanner Marketplace,* you'll find innovative applications to help your office spend less time managing paperwork and more time collaborating on business.
