User's Manual

April 2013

Please read this user's manual carefully before use.

CONGRATULATIONS!

Thank you for your purchase of this Hip Street product and we hope you enjoy using it. Please visit our website at www.hipstreet.com

Please ensure that you fully read and understand the information within this user manual prior to using your product. It is advised that you keep this user manual in a safe place for future reference. We sincerely hope that this high quality product offers you endless hours of entertainment.

Important safety precautions

- Always follow these basic safety precautions when using the unit.
This will reduce the risk of product damage and personal injury.
- Do not disassemble, repair or modify the unit by yourself. Refer servicing to qualified personnel.
- Do not dispose of the unit in extreme heat to avoid explosion.
- Keep the unit away from direct sunlight or heat source.
- Do not expose the unit to rain or moisture to avoid any malfunction.
- Do not use the unit in a rather dry environment to avoid static.
- Never apply heavy impact on the unit like dropping it or placing it on a magnet.
- Clean only with a dry cloth. Make sure the unit is turned off before cleaning. Do not use liquid cleanser.

FCC WARNING:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IC Warning:

This device complies with Canadian ICES-003 (B)

1. Basic controls and interface of the player

Item	Description	Item	Description
1	Microphone (mono)	7	– Button
2	Power On/Off, Hold (Key Lock)	8	Memory Card Slot (Micro-SD Card)
3	USB Port (PC Connection / Charge)	9	TFT Display (Touch Function)
4	M Button (Exit, Back to desktop menu)	10	Reset
5	Earphone Output Jack (3.5mm Stereo)	11	Mini Speaker (mono)
6	+ Button		

2. Internal Battery

The player has an internal battery. When using the unit for the first time, charge it for 6 hours or until the battery icon shows the battery is full.

Note: The player continues to use battery power after it's been turned off, if unit isn't used for a long period of time, the battery may need to be re-charged.

3. Connection and Charging

- Once you have connected player with the computer / AC charger (not included), then you will see the “Opening” > “Connect” or “Charging” screen.
- In the connected screen, the battery is charging in the background.
- In the charging screen, the battery levels are rising which shows the battery is being charged.
- The battery icon will show “Full” when the charging is completed. Disconnect the unit when it is done.

Important: The battery cannot be charged when your computer is in sleep mode/OFF. Make sure the PC is ON and does not go into Sleep/Hibernation during charging.

4. Connecting and disconnecting the player

Connect the player to your computer to upload media files to your player; or to download recorded voice memos to your computer.

Connecting the player

- Plug the USB cable to the Player's mini USB port and the other end of the cable into a free USB port on your computer, then the computer will detect and install the drivers automatically. Once the installation is complete the player will be displayed in *My Computer / Computer* or for MAC users on the desktop.
- Now the player is ready for music files to be transferred to/from your computer.
- Transfer the media files by using the computer mouse to drag and drop, or copy and paste, in between the player and your computer. Follow the disconnecting procedure below when you're done.

Disconnecting the player

- Do not disconnect the player while it's uploading or downloading files with your computer.
- For a Windows system PC, release the unit by clicking the “Safely Remove Hardware” icon in the Windows system tray.

- MAC system PC, disconnect the player by dragging the player icon on the desktop to the Trash.
- Now it is safe to unplug the USB cable.

Note: If you do not “Safely remove hardware” before disconnecting, data can be lost!

5. File Storage

Player will create some default folders, in the internal flash memory when you use it. However, for best results, this is recommended you to put files of different types to store under different directories.

For example, music files should be stored under **MUSIC** directory. Recorded files stored under **RECORD** directory. Picture files under **PICTURES** directory. Video files under **VIDEO** directory. Text files under **TEXT** directory.

6. Getting Started

This player is equipped with a touch screen so you can choose the items or functions by tapping the related icons or files.

Turning the player ON/OFF

- Slide the power switch to “**ON/OFF**” position
- When the unit is turning to ON, first comes the opening screen and then the desktop menu will appear, then a “generating database” message is displayed at same time. Now the player is ready to be used.
- Turn OFF the player when you're not using it for a longer battery life.

Desktop Menu

Every time you turn on the player, you will see the opening screen followed by the desktop menu which contains applications of your player. Tap one of the application icons to open it.

Desktop Menu
