

# Honeywell® Batteries HMC70-Li(22)

## Power Upgrade for the Symbol® MC70.

The Honeywell® Batteries HMC70-Li(22) is a new battery for the MC70 Rugged Enterprise Digital Assistant from Symbol® Technologies. It replaces the OEM 1x standard battery (part numbers 83-71363-01 and BTRY-MC70EAB00) and offers significantly longer run-time and cycle life.

### Features:

- Longer run-time than the OEM standard 1x battery.
- Robust and rugged battery design.
- Extends operating time and reduces the total number of batteries needed.
- Rigorous testing including temperature, vibration, shock, drop, short circuit, and overcharge.

### Battery Specifications:

Chemistry: Li Ion  
Cell: Sanyo prismatic  
Voltage: 3.7 volts  
Capacity: 2200 mAh

Up to **15%**  
more capacity  
than the OEM  
standard 1x  
battery.

### Battery Dimensions:

Width: 1.44 inches (36.6 mm)  
Length: 2.24 inches (56.8 mm)  
Height: 0.53 inches (13.4 mm)

### Warranty:

Each battery is guaranteed to be free from defects in materials and workmanship, and will maintain a minimum of 80% of its rated capacity for 12 months from date of shipment under normal use.

### About Us

We are available for hand-held bar code scanners/mobile computers, portable printers, two-way radios, and uninterruptible power supply systems (UPS). We also produce a line of battery chargers and design custom applications for clients' specific mobile power needs. We are proud to be a respected leader in mobile power technology, design and development.

The cornerstones of our business are product quality, customer service and attractive pricing.

We look forward to serving you.
