

Honeywell® Batteries HMC70-Li(44)

Power Upgrade for the Symbol® MC70 EDA.

The Honeywell® Batteries HMC70-Li(44) is a new battery for the MC70 Rugged Enterprise Digital Assistant from Symbol® Technologies. It replaces the OEM 1x standard battery (part numbers BTRY-MC70EAB02 (3800 mAh)) and offers significantly longer run-time and cycle life.

Features:

- Longer run-time than the OEM standard 2x battery.
- Robust and rugged battery design.
- Extends operating time and reduces the total number of batteries needed.
- Rigorous testing including temperature, vibration, shock, drop, short circuit, and overcharge.

Battery Specifications:

Chemistry: Li Ion
Cell: Sanyo
Voltage: 3.7 volts
Capacity: 4400 mAh

Battery Dimensions:

Width: 0.74 inches (18.9mm)
Thickness: 1.00 inches (25.4 mm)
Height: 2.36 inches (60.0mm)
Weight: 98 g.

Warranty:

Each battery is guaranteed to be free from defects in materials and workmanship, and can maintain a minimum of 80% of its rated capacity for 12 months from date of shipment under normal use.

About Us

We are engineered for hand-held bar code scanners/mobile computers, portable printers, two-way radios, and uninterruptible power supply systems (UPS). We also produce a line of intelligent battery chargers and we design custom applications for clients' specific mobile power needs. We are proud to be a leader in Mobile Power Technology, design and development.

The cornerstones of our business are product quality, customer service, immediate availability and attractive pricing.

We look forward to serving you.
