

Honeywell® Batteries HMC70-Li(33)

Power Upgrade for the Symbol® MC70 1.5x Battery Up to 75% performance boost with minimum increase in form factor.

The Honeywell® Battery HMC70-Li(33) is a battery for the MC70 Rugged Enterprise Digital Assistant from Symbol® Technologies. It replaces both the OEM 1x standard and 2x extended battery packs and offers significantly longer run-time and cycle life without added bulk.

Features:

- Longer run-time than the OEM standard 1x battery, but only 1/3 inch thicker.
- Smaller and more comfortable to hold than the OEM 2x extended battery.
- 3300 mAh of capacity.
- Robust and rugged battery design.
- Extends operating time and reduces the total number of batteries needed.
- Rigorous testing including temperature, vibration, shock, drop, short circuit, and overcharge.

Battery Specifications:

Chemistry: Li Ion
Cell: Sanyo prismatic
Voltage: 3.7 volts
Capacity: 3300 mAh

Battery Dimensions:

Width: 1.44 inches (36.6 mm)
Length: 2.24 inches (56.8 mm)
Height: 0.76 inches (19.4 mm)

Warranty:

Each battery is guaranteed to be free from defects in materials and workmanship, and will maintain a minimum of 80% of its rated capacity for 12 months from date of shipment under normal use.

Symbol è un marchio registrato di Motorola.

About Us

Honeywell® Batteries are available for hand-held bar code scanners/ mobile computers, portable printers, two-way radios, and uninterruptible power supply systems (UPS). We also produce a line of battery chargers and design custom applications for clients' specific mobile power needs. We are proud to be a respected leader in mobile power technology, design and development.

The cornerstones of our business are product quality, customer service and attractive pricing.

We look forward to serving you.
