- 40W / 2.2 Channel
- Smart Sound Mode

SMART

- webOS 3.0
- Launcher
- Magic Zoom
- Magic Mobile Connection
- Magic Remote

Not all UHD TVs are the same. The LG UH9500 SUPER UHD TV provides a superior 4K viewing experience by incorporating several advanced technologies: ColourPrime Plus, TruMotion 240Hz, Ultra Luminance Plus, new IPS panels, and over a billion rich colours. The result? Truly premium Ultra HD.

LG SUPER UHD TV 4K

SUPER UHD

SUPER UHD is LG's best UHD LED TV yet, a Smart TV offering a superior 4K experience by incorporating advanced technologies that deliver over a billion rich colours, smoother motion and elevated brightness. And HDR Super includes Dolby Vision™** to provide more viewing options.

HDR SUPER

with DOLBY VISION

HDR Super with Dolby Vision™

LG SUPER UHD TVs support High Dynamic Range plus Dolby Vision™** together in one premium television. They deliver deeper black levels and superior brightness for enhanced contrast ratio, and express a wider range of colours.

IPS 4K Quantum Display

IPS 4K Quantum Display

LG SUPER UHD TVs are able to reproduce more shades of more colours with finer gradations plus deeper black levels and higher peak brightness. This yields a more accurate, more lifelike picture from a wider viewing angle, thanks to IPS 4K Quantum Display technology.

ULTRA Slim

ULTRA Slim reduces the thickness of the TV, providing a design with excellent space efficiency and delivering a modern and aesthetic asset to any environment.

10bit Panel

10bit Panel

This advanced panel enables more shades of color to be displayed. In comparison to a 8-bit panel, which can only display 16.8 million colours, this 10-bit panel can display 1.072 billion shades of colours, enabling colour reproduction that the human eye can appreciate.

webOS 3.0

webOS 3.0

webOS 3.0** is the latest generation of LG's exclusive, award-winning Smart TV platform, adding advanced new features while making it even easier to use. With features such as Magic Remote, Magic Mobile Connection and Magic Zoom, the user interface is more intuitive, mobile devices can connect in new ways, and now it's more fun than ever to find and enjoy exactly what you want to watch.
